### **Notes to the condensed interim financial information (continued)**

**March 31, 2010**

**(Amounts expressed in thousands of U.S. Dollars unless otherwise indicated. All other currencies are also expressed in thousands.)**

#### **2.1 Basis of preparation**

The consolidated financial statements of the Group have been prepared in accordance with International Accounting Standard No:34, Interim financial reporting (IAS 34). This condensed interim financial information does not contain all the information required for the preparation of the annual financial statements, and should be read in conjunction with the annual financial statements of the Group for the year ended 31 December 2009 prepared in accordance with International Financial Reporting Standards (IFRS). The consolidated financial statements have been prepared on the historical cost convention, except for investment properties, buildings, available-for-sale (AFS) financial assets and derivative financial instruments which are measured at fair values. The consolidated financial statements are presented in U.S. Dollars (USD) and all values are rounded to the nearest thousand ('000) except when otherwise indicated.

The Group adopted all standards, which were mandatory as of March 31, 2010. The consolidated financial statements of Enka İnşaat were authorized for issue by the management on May 11, 2010.

Enka İnşaat and its subsidiaries which are incorporated in Turkey, maintain their books of accounts and prepare their statutory financial statements in Turkish Lira (TL) in accordance with the regulations on accounting and reporting framework and accounting standards promulgated by the Turkish Capital Market Board (CMB), (for publicly traded companies) and Turkish Commercial Code and Tax Legislation and the Uniform Chart of Accounts issued by the Ministry of Finance. The foreign subsidiaries maintain their books of accounts in accordance with the laws and regulations in force in the countries where they are registered. The consolidated financial statements are based on the statutory records with adjustments and reclassifications for the purpose of fair presentation in accordance with IFRS.

The Group also reported separately for the consolidated financial statements for the same period prepared in accordance with accounting principles promulgated by CMB.

There are no differences between the consolidated financial statements prepared in accordance with the accounting policies promulgated by CMB and consolidated IFRS financial statements except for the use of TL and USD as the presentation currency, respectively.

#### **Functional and presentation currency**

As significant amount of construction, energy and real estate operations of Enka İnşaat and its consolidated subsidiaries and its joint ventures which form main part of the operations of the Group are carried out in U.S. Dollar or indexed to U.S. Dollar, this currency has been determined as the functional and the presentation currency of the Group in line with IAS 21 - The Effects of Changes in Foreign Exchange Rates. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies (i.e. any currency other than the functional currency) are initially recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

### Notes to the condensed interim financial information (continued)

March 31, 2010

(Amounts expressed in thousands of U.S. Dollars unless otherwise indicated. All other currencies are also expressed in thousands.)

#### 2.1 Basis of preparation (Continued)

The rates used as of March 31, 2010, and December 31, 2009 and the rate as of the preparation date of the consolidated financial statements for one U.S. Dollar can be summarized as below:

	Preparation date (May 11, 2010)		March 31, 2010		December 31, 2009	
U.S. Dollar	TL	1,5117	TL	1,5215	TL	1,5057
	Euro	0,77	Euro	0,74	Euro	0,70
	Russian Ruble (RR)	30,72	RR	29,36	RR	30,24

#### Reclassifications made to the previously issued consolidated financial statements

As of March 31, 2010, the Group has changed the classification of "Selling and administrative expenses" related with rental income amounting to U.S. Dollars 3.707 and therefore reclassified the related accounts to "Cost of revenues" reported in its previously issued consolidated financial statements to present them in conformity with the current year presentation.

#### 2.2 Changes in accounting policy and disclosures

The accounting policies adopted in the preparation of these financial statements are consistent with those of the previous financial year, except for the adoption of new standards and interpretations noted below. Adoption of these standards and Interpretations did not have any effect on the financial position or performance of the Group.

*Standards and Interpretations that have been adopted with no effect on the 2010 financial statements:*

IFRS 1 (amendments) *First-time Adoption of IFRS – Additional Exemptions*

IFRS 2 (Amendments) *Share-based Payments – Group Cash-settled Share Payment Arrangements*

IFRS 3 (as revised in 2008) *Business Combinations*

### **Notes to the condensed interim financial information (continued)**

**March 31, 2010**

(Amounts expressed in thousands of U.S. Dollars unless otherwise indicated. All other currencies are also expressed in thousands.)

#### **2.2 Changes in accounting policy and disclosures (continued)**

*Standards and Interpretations that are not yet effective in 2010 and have not been early adopted*

##### **IFRS 1 (amendments) *First-time Adoption of IFRS – Additional Exemptions***

Amendments to IFRS 1 which are effective for annual periods on or after 1 July 2010 provide limited exemption for first time adopters to present comparative IFRS 7 fair value disclosures.

##### **IFRS 9 *Financial Instruments: Classification and Measurement***

In November 2009, the first part of IFRS 9 relating to the classification and measurement of financial assets was issued. IFRS 9 will ultimately replace IAS 39 Financial Instruments: Recognition and Measurement. The standard requires an entity to classify its financial assets on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, and subsequently measure the financial assets as either at amortized cost or at fair value. The new standard is mandatory for annual periods beginning on or after 1 January 2013.

##### **IAS 24(Revised 2009) *Related Party Disclosures***

In November 2009, IAS 24 Related Party Disclosures was revised. The revision to the standard provides government-related entities with a partial exemption from the disclosure requirements of IAS 24. The revised standard is mandatory for annual periods beginning on or after 1 January 2011.

##### **IAS 32(Amendments) *Financial Instruments: Presentation* and IAS 1 *Presentation of Financial Statements***

The amendments to IAS 32 and IAS 1 are effective for annual periods beginning on or after 1 February 2010. The amendments address the accounting for rights issues (rights, options or warrants) that are denominated in a currency other than the functional currency of the issuer. Previously, such rights issues were accounted for as derivative liabilities. However, the amendment requires that, provided certain conditions are met, such rights issues are classified as equity regardless of the currency in which the exercise price is denominated.

##### **IFRIC 14 (Amendments) *Pre-payment of a Minimum Funding Requirement***

Amendments to IFRIC 14 are effective for annual periods beginning on or after 1 January 2011. The amendments affect entities that are required to make minimum funding contributions to a defined benefit pension plan and choose to pre-pay those contributions. The amendment requires an asset to be recognized for any surplus arising from voluntary pre-payments made.

##### **IFRIC 19 *Extinguishing Financial Liabilities with Equity Instruments***

IFRIC 19 is effective for annual periods beginning on or after 1 July 2010. IFRIC 19 addresses only the accounting by the entity that issues equity instruments in order to settle, in full or part, a financial liability.

(Amounts expressed in thousands of U.S. Dollars unless otherwise indicated. All other currencies are also expressed in thousands.)

#### **2.3 Significant accounting judgments, estimates and assumptions**

The preparation of the consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that are reflected in the measurement of income and expense in the consolidated profit and loss statement and in the carrying value of assets and liabilities in the consolidated balance sheet, and in the disclosure of information in the notes to the consolidated financial statements. Managements do exercise judgment and make use of information available at the date of the preparation of the consolidated financial statements in making these estimates. The actual future results from operations in respect of the areas where these judgments and estimates have been made may in reality be different than those estimates. This may have a material effect on the consolidated financial statements.

The key assumptions concerning the future and other key resources of estimation at the consolidated balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments (apart from those involving estimations) with the most significant effect on amounts recognized in the consolidated financial statements are as follows:

- a) Determination of total estimated project costs, profitability and calculation of loss accruals under the scope of IAS 11 "Construction Contracts".
- b) Market valuations of investment properties, land and buildings under the scope of IAS 40 "Investment Property".
- c) Estimation of impairment losses on financial assets.
- d) Deferred tax assets are recognized over temporary differences and accumulated losses when there is evidence that there is substantial future realizability in statutory tax accounts. In order to recognize the deferred tax assets in the consolidated financial statements, significant estimations and assumptions for statutory tax projections should be performed .
- e) The Group management has made significant assumptions for determining the economic lives of tangible and intangible assets with the guidance of experienced technical staff.

The significant judgments, apart from estimates, with most significant effect on amounts recognized in the consolidated financial statements are as follows:

- a) The determination of impairment in financial assets available for sale.
- b) The determination of goodwill associated with the disposal of the assets.

#### **3. Earnings per share**

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("Bonus Shares") to existing shareholders without consideration for amounts resolved to be transferred to share capital from retained earnings and revaluation surplus. For the purpose of the

(Amounts expressed in thousands of U.S. Dollars unless otherwise indicated. All other currencies are also expressed in thousands.)

#### 3. Earnings per share (Continued)

EPS calculation such bonus share issues are regarded as stock dividends. Dividend payments, which are immediately reinvested in the shares of the Company, are regarded similarly. Accordingly the weighted average number of shares used in EPS calculation is derived by giving retroactive effect to the issue of such shares without consideration through March 31, 2010 and March 31, 2009.

There have been no other transactions involving ordinary shares or potential ordinary shares since the reporting date and before the completion of these financial statements.

The calculation of basic earnings per share presented are as follows:

	March 31, 2010	March 31, 2009
Earning per share		
- ordinary share certificate (full cent)	0,0679	0,0358
- founder shares(*)	-	-
Weighted average number of share certificates (nominal value of 1 YKr each)		
- ordinary share certificate	180.000.000.000	180.000.000.000
- founder shares	2.000	2.000

(\*) Since profit distribution was not determined at the end of each interim period, total of the earning per share is reflected on ordinary share certificates.

#### 4. Segment information

The Group's operating businesses are organized and managed separately according to the nature of services and products provided.

The segmental information of the Group is based on two formats. The first format represents information regarding business segments: construction, rental, energy and trading and manufacturing. The second format represents information regarding four geographical segments for the periods ended March 31, 2010 and March 31, 2009.

Transfer prices between business segments are set out on an arm's length basis in a manner similar to transactions with third parties. Segment revenue, segment expense and segment result include transfers between business segments. Those transfers are eliminated in consolidation.

#### **14. Taxation on income**

Enka İnşaat and its consolidated subsidiaries are subject to taxation in accordance with the tax procedures and the legislation effective in the countries in which they operate.

##### ***Tax legislation in Turkey***

In Turkey, the corporation tax rate effective from January 1, 2007 is reduced to 20%. Corporate tax returns are required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid in one installment by the end of the fourth month. The tax legislation provides for a temporary tax of 20% (December 31, 2009 - 20%) to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year.

In Turkey, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate entity basis.

Effective from January 1, 2007 capital gains derived from cash sales of participation shares that have been held for at least two years are subject to effective corporation tax rate of 5% if the gains are added to share capital. Furthermore, in the event the profit arising from the dividend receipt is not distributed or included in capital, no withholding tax shall be applicable. As a result, the Group did not recognize a deferred tax liability on the undistributed profits of subsidiaries and associates and other temporary differences pertaining to other investments in shares issued by Turkish companies, if the Company does not have the intention to sell these shares in the future.

15% (December 31, 2009 – 15%) withholding applies to dividends distributed by resident corporations to resident real persons, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations (excluding those that acquire dividend through a permanent establishment or permanent representative in Turkey) and non-resident corporations exempted from income and corporation tax. Dividend distributions by resident corporations to resident corporations are not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

The “General Communiqué” on disguised profit distribution through transfer pricing was published on the Official Gazette on November 18, 2007 by the Ministry of Finance of Turkey, to clarify the procedures and applications of the new corporate tax law. According to the General Communiqué, tax-payers should submit the form “Transfer Pricing, Controlled Foreign Corporation and Thin Capitalization” as an attachment of annual corporate tax return, the deadline of which is April 25, 2008 and they have to provide the bases and related documentation to the tax inspectors, in case of a tax inspection.

#### **15. Commitments and contingencies (Continued)**

##### **Litigations**

- In the year 2004, a case is opened against Enka Pazarlama, one of the consolidated subsidiaries, regarding the non-compliance with respect to the payment of the period commissions of the guarantee given by a local bank in favor of Iran GTC Company. The Group management believes that the case will result in favor of the Group.
- Due to global financial crisis and the ensuing difficulty of some investors in accessing to credit lines, termination agreements have been signed with job owners to stop the construction activities of some projects in Russia – Tverskaya Zastava underground mall, Paveletskaya Square underground shopping center, Donstroy II office and shopping center. Completed all with positive net margin, these projects have no turnover portions as of March 31, 2010 (March 31, 2009 – 4.6%). As of March 31, 2010, the Group has unbilled progress claims from its foreign worksite job owner amounting to U.S. Dollars 77.055 which are currently in the legal process regarding the termination of OASIS office complex project. The job owner has counter claims amounting to U.S. Dollars 104.500.
- In May 2009, the Group has opened a case against the job owner of Esentai Project in Kazakhstan for its progress claims approved as of February 28, 2009 amounting to U.S. Dollars 33.384 and EUR 4.203. As of November 24, 2009, Financial Court of Almaty concluded the collection of these receivables via distress. The job owner has appealed to City Court of Almaty in legal time limits. In January 2010, City Court of Almaty has approved the conclusion of Financial Court and distress began in March 2010. The job owner has appealed to the Supreme Court against distress but the appeal has been rejected. As of March 31, 2010, the balances related with the Esentai Project carried in the consolidated financial statements have been adjusted accordingly.
- The local books of the motorway project in Albania has been inspected by the tax inspectors for the years between 2006 and 2009; and the Group was subject to a tax penalty amounting to ALL 896.000 (U.S. Dollars 8.691), including interest. As of March 31, 2010, the Group has paid ALL (Albanian Lek) 839.041 (U.S. Dollars 8.139) of the related tax penalty. The Group appealed to the Supreme Court for all these penalties except the VAT penalty amounting to ALL 36.895 (U.S. Dollars 358).

##### **Others**

- The operations and financial positions of the companies operating in Russia may be impacted by the political, monetary and fiscal practices that may be applied in the Russian Federations. As of March 31, 2010 and December 31, 2009, the Group does not believe that any material matters exist relating to fiscal and regulatory environment in Russia which would require adjustment to the consolidated financial statements in order for those statements not to be misleading.
- The Group has signed a pledge and assignment agreement dated as of October 27, 2000, with Westdeutsche Landesbank Girozentrale İstanbul Branch (Onshore Collateral Agent) in return of the loans obtained by the Power Companies. The Group has pledged and assigned all of its shares in these companies to the Onshore Collateral Agent for the benefit of the financial institutions.

As of March 31, 2010, the social security payment and accrued full retirement pay liability is U.S. Dollars 223 (March 31, 2009 – U.S. Dollar 520) and U.S. Dollar 1,623 (December 31, 2009 – U.S. Dollar 1,688) respectively.

#### 18. Financial risk management objectives and policies

The Group's principal financial instruments comprise bank loans, investment securities, finance leases, cash and short-term deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, foreign currency risk and credit risk. The board / management reviews and agrees policies for managing each of these risks. The Group monitors the market price risk arising from all financial instruments periodically.

#### Foreign currency risk

The Group is exposed to foreign exchange risk arising from various currency exposures primarily with respect to Euro, Russian Ruble and also U.S. Dollar which arises from the liabilities belonging to the companies in the consolidation scope, whose the functional currency is not U.S. Dollar.

The Group is engaged in construction, trading, energy and real estate operations business in several countries and, as a result, is exposed to movements in foreign currency exchange rates. In addition to transactional exposures, the Group is also exposed to foreign exchange movements on its net investments in foreign subsidiaries. The Group manages foreign currency risk by using natural hedges that arise from offsetting foreign currency denominated assets and liabilities.

The foreign currency risk of the Group arises from the credits used in U.S. Dollars and Euro. In order to mitigate the risk, the Group continuously monitors its cash inflows/outflows and also uses financial instruments to hedge the risk when it is necessary.
