

As a result of impact assessments for the SCPX project underway in Georgia, impacts on wildlife, impact on farming and bee-keeping as means of livelihood, the risk of traffic accidents, the environmental impact of dust, noise and vibration and the risk of fire were identified as the main impacts that could create risks for the environment and the communities in the region given the location of the project. Neighbouring villages were closely monitored for these potential impacts. The project management received feedback regarding a decrease in the amount of honey production from an administrator conducting bee-keeping activities, who operates in a location which falls within the impact area of the CSG-2 site of this project. Upon

receiving this information, the project team carried out research and assessment work in cooperation with the Georgia Beekeepers Association. It was identified that the amount of dust in the content of produced honey exceeds acceptable values and the impacted beekeeping activities were relocated to an area outside of the project's impact area. ENKA compensated for damages and in order to prevent future dust impact, stricter speed limits for vehicles and watering to prevent dust were implemented in the area. In addition, the frequency of visits by the project team to regions where beekeeping activities are conducted were increased and control mechanisms were established to prevent other potential incidents.

Kashirskaya Multi-Functional Trade Centre Project in Russia which was completed in 2018 and the on-going TAIF Business Centre Project are located in the city centre, with accompanying risks of a different nature for the surrounding communities. The identified risks were an increase in traffic accidents, damage to private and public property due to falling objects, environmental dust, noise and vibration and damage to surrounding buildings and communities due to potential outbreak of fire. As a result of the

precautions taken, no events that could have had a negative impact occurred at these projects in 2018. After Kashirskaya Multi-Functional Trade Centre was opened for business in 2018, people living in the vicinity shared complaints about the media facade lightning being excessive and affecting their sleep patterns. In response, the trade centre management optimised the active time and lighting intensity of the media facade and informed the parties who had placed complaints.

Kashirskaya Multi-Functional Trade Center

ENKA FOUNDATION

ENKA Foundation, which was established in 1983 with a mission of raising individuals who are trained in an environment where sports, education and culture intertwine, who keep up with contemporary developments, are productive, ask questions and fulfil

their potential, orients Turkish youth towards sports and making sports a part of their lives, identifies the sporting potential of talented individuals among them using scientific methods and trains them to become champions capable of international success.

ENKA Foundation

ENKA SPORTS CLUB

ENKA Sports Club, with its motto of "The future belongs to the young", strives to equip thousands of children with superior mental and physical qualities through the top-quality training system implemented within its teams and sports schools and raises many talented young athletes for the benefit of Turkish sports.

ENKA prepares for and takes part in national and international sporting contests in the branches of sports in which it is active with its strong potential; 1,300 licenced athletes and 87 specialised coaches. In 2018, ENKA Sports Club athletes won 194 cups and medals in national and international contests and set 88 records in various branches.

ENKA Sports Club is one of Turkey's leading clubs both in terms of the talented young people whom it has won over for Turkish sports through its training activities and in terms of successes at the international level.

Around 860 candidate athletes are receiving training within the youthful ENKA family to become champions of the future.
