

Q3 2022 PRESENTATION

Introduction

EXPERIENCE

65 Years of construction experience worldwide

RELIABILITY

559 projects in 48 countries have been completed or under construction with historical value of USD 55 Billion

EVALUATION

Traded publicly on Borsa Istanbul (BIST) with a market cap of USD 5,5 Billion (@ 30.09.2022)

SYNERGY

Group of companies composed of more than 50 subsidiaries operating in 7 major geographical areas:

CIS, Asia, Middle East, Europe, America, Africa & Turkey

DIVERSIFICATION

With a solid background of 65 years ENKA operates in 4 main segments:

- Engineering & Construction
- Energy
- Real Estate
- Trade

Milestones [1957-1976]

Founded

as a limited liability partnership as Şarık Tara & Sadi Gülçelik Enka Limited Şirketi

Focused on

design, engineering and construction activities of industrial plants, buildings and infrastructure

The Partnership

was transformed into a joint-stock company as ENKA İnşaat ve Sanayi A.Ş.

First International

Contract Benghazi Cement Factory and then 4 more cement factory projects in Libya

First Power Plant

150 MW Tunçbilek Thermal Power Plant in Turkey

Diversification of activities and specialized subsidiary companies

Milestones [1977-1996]

Foundation

ENKA Sports, education and culture foundation and Sadi Gülçelik sports center establishments

First Natural Gas

combined cycle power plant in Turkey 600 MW Trakya CCCP

Outstanding

achievements with fast-track projects in Libya, Russia and Former Soviet Union Countries as well as in Turkey as a general contractor

Real Estate

Establishment of development companies in Moscow, Russia

Oil Fields

Primary oil services contracts in Kazakhstan oil fields

Milestones [1997-2006]

Retail Business

Development of shopping malls and retail business in Moscow, Russia

Power Generation

Power Generation
as Independent Power Producer (IPP)

Certified

by BSI for ISO 9001 Quality Management System & ISO 14001 Environmental Management System & OHSAS 18001 Occupational Health and Safety Management System

Gas Fired CCPP

790 MW Rijnmond Natural Gas Fired CCPP has been completed in 22 months by the ENKA Bechtel Joint Venture in the Netherlands

World Record

ENKA set a new world record for power plant availability (with 99.8% which is 7% over the industry average) over the 12-month period with GE 9 FA gas turbines

Milestones [2007-2016]

Iraq Re-Entry

ENKA's re-entry into Iraq oil & gas market by winning the contract for mechanical, electrical and instrumentation works of early production facility in Majnoon Oil Field

EPC in Russia

ENKA as a main contractor has been awarded 400 MW Yajva State District Power Plant EPC Project in Russia

Power Plants

EPC contracts awarded;
Simple Cycle Power Plant Project at Bazyan,
Sulaymaniyah 1,500 MW Combined Cycle
Power Plant Project at Besmaya

Caucasus Pipeline

A contract related to South Caucasus Pipeline Expansion (SCPX) has been awarded to Bechtel-ENKA JV

Oil & Gas

Al-Najybia 500 MW gas turbine power plant and Rumaila Crude Oil Pumping Station Projects have been awarded

Milestones [2017-2022]

Motorway Projects

After successfully completing the Route 7 and the Route 6 Motorways in Kosovo a new motorway project; Morava Corridor, Serbia has been awarded to Bechtel-ENKA JV.

Global Partners

ENKA with its partner General Electric, designed and built the Samawa and Dhi Qar CCPPs, which added 750 MW each to Iraq

Bay Crossings

Steel Works Contracts of Izmit Bay and Çanakkale 1915 Crossing Suspension Bridge Projects have been awarded

Aerospace

Cimtas Ningbo is Aerospace Standard 9100D certified.

Cimtas Ningbo is amongst the first piping and skid fabricators certified to the AS9100D standard in China.

Libya Re-Entry

After many years, ENKA undertook new projects but this time with its consortium partner Siemens AG, 2 power plant projects for meeting the energy demand

Milestones [2017-2022]

Germany

The first heat and power plant project, Dradenau Combined Heat and Power Plant, undertaken in Germany.

England

ENKA UK Construction Ltd. is contracted to prefabricate, install and erect all piping systems of the power island at Hinkley Point C Nuclear Power Station.

Excellence

Mitsubishi Power Americas has awarded Cintas Ningbo with the “Excellence in Performance Award” for its high performance in 2020.

Bahamas

The first cruise port construction project received at the Bahamas.

Mission

Vision

Values

Our Mission

to design, build and deliver safe, high-quality, and cost-effective construction projects on schedule for our customers while providing quality employment and career growth opportunities for ENKA employees.

Our Vision

to be one of the best and innovative engineering & construction companies serving globally.

Our Values

define how we do work at ENKA. We will not undertake or execute a project which comprises any of these values. We believe that when we commit to work within ENKA's values, we achieve superior work in our industry.

Inclusivity

Integrity

Sustainability

Trust

Commitment

SUSTAINABILITY STRATEGY

Doing Good Business

ENKA, which operates in different sectors such as engineering and construction, energy, real estate and trade in many different geographies, has made a commitment to serve sustainable development in all its operations.

Caring For Employees

The approach which ENKA has adopted to corporate sustainability is built on an awareness of its economic, environmental and social responsibilities to all its internal and external stakeholders. ENKA Sustainability Strategy, which was developed with an intensive stakeholder dialogue, is kept up-to-date by Sustainability Department and ENKA Sustainability Committee, which consists of representatives from various subsidiaries and departments within the organization. ENKA's President and Chairman of the Executive Committee, who is also the sponsor of the Sustainability Committee, leads this process.

Developing Communities

ENKA's sustainability strategy, drawn up in line with ENKA's fields of influence and sustainable development goals, is built on the following four foundations:

Reducing Environmental Impact

Doing Good Business

In carrying out its work honestly, in time and to the highest quality, ENKA ensures that a responsible and ethical approach is adopted at every level.

ENKA broadens the scope of its risk management so as to address economic, environmental and social issues in an integrated manner.

As part of its responsible supply chain management, ENKA encourages, trains, monitors and improves its business partners, subcontractors and suppliers.

ENKA also works towards raising awareness of sustainability among its branches and clients. ENKA provides leadership to all its stakeholders in the context of sustainability.

ENKA contributes to the realization of sustainable development through work on innovation and R&D.

Caring for Employees

ENKA protects the health and ensures the safety of its employees and subcontractors.

ENKA works to increase employee loyalty and to promote more active involvement of employees in decision-making mechanisms.

ENKA invests in training and development of its employees and provides them with equal opportunities for training and development.

ENKA works to impart an awareness of sustainability to its employees.

Developing Communities

ENKA contributes to the welfare and development of local communities through its infrastructure and superstructure investments.

ENKA supports the development of the engineering profession in all the regions of the world where it is active.

By spreading sustainability awareness in its schools, ENKA contributes to the development of a responsible generation.

ENKA invests in education, sports, culture and arts.

Reducing Environmental Impact

ENKA measures and reports on its environmental impact, sets targets and carries out improvements.

ENKA undertakes improvements to reduce its carbon and water footprint and to ensure energy efficiency.

ENKA develops and implements environment-friendly building solutions.

ENKA puts green office applications into practice and encourages its employees to respect the environment.

ACHIEVEMENTS & AWARDS

YAJVA

ENKA's 411 MW CCPP Yajva State District Power Plant EPC Project has been awarded "the Best Project in the Power/Industrial Category" in 2013 Global Best Projects Competition of NR (Engineering News-Record)

KOSOVO

ENKA's Kosovo Motorway EPC Project (sections 1, 2, 3 & 4a) has been awarded "The Best Project in the Roads/Highways Category" in 2013 Global Best Projects Competition of ENR (Engineering News-Record)

KUNTSEVO

ENKA's cityscape awards for emerging markets - 2012 category : Retail Project" award to ENKA TC for its Kuntsevo Multifunctional Trade and Business Center in Moscow

ADMIRED COMPANY

"Most Admired Construction Company of Turkey awards" for the years 2005 - 2012 by CAPITAL, a business and economics magazine

POWER

In 2011, ENKA's Adapazari Power Plant has been selected as the Power Plant of the Year with an availability of 99.8% by the POWER MAGAZINE

INSURANCE

In 2011, ENKA's insurer Factory Mutual Global (FM), awarded all three ENKA power plants the status of highly protected risk in recognition of ENKA's commitment to the reduction of potential losses through a stringent programme of risk mitigation and prevention.

ACHIEVEMENTS & AWARDS

RISK MANAGEMENT

Turkish Power Company ENKA POWER has world class risk management article which praises ENKA's commitments and achievements in protecting the power plant assets published in UTILITY WEEK MAGAZINE on 28 January 2011 edition.

INNOVATION

The most prestigious and innovative leisure, shopping, business and residential complex of Moscow, was honored with the Best Shopping Center 2015 award given by Russian Council of Shopping Centers (RCSC) to Kuntsevo Plaza.

DEVELOPMENT

Kuntsevo Plaza, has been awarded in three categories of the prestigious awards in 2016: Best Retail Architecture Russia, Best Retail Development (5 Stars) Russia and Best Retail Development Europe.

GLOBAL

ENKA's EPC Project, Sulaymaniyah 1.500 MW Combined Cycle Power Plant Project was selected as the "Global Project of the Year 2017", as well as the "Best Global Project in Power/Industrial Category", by ENR.

ENKA's Initial Oil Train (IOT) Project in Iraq was selected as ENR Global Best Project in 2020

ENGINEERING & CONSTRUCTION

The fields of Engineering & Construction activities are;

- Oil & Gas Facilities, Pipelines
- Petrochemical Plants
- Power Plants
- Industrial Plants
- Airports, Harbors, and Offshore Works
- Motorways, Bridges, and Tunnels
- New Towns and Housing Complexes

ENKA's global solutions span the entire project life cycle:

Engineering,
Fabrication,
Procurement,
Construction,
Commissioning and start-up,
Operation and management.

SELECTED PROJECTS

UNDER CONSTRUCTION

FGP 3GP Mechanical, Electrical & Instrumentation Installation Works Tengiz, Kazakhstan

Job owner : Tengizchevroil
Contractor : Senimdi Kurylys

(Bechtel – ENKA Joint Venture with equal shares)

Senimdi Kurylys LLP has been awarded a contract for mechanical, electrical and instrumentation installation works in Tengiz, Kazakhstan.

The Client is Tengizchevroil (TCO), which operates and develops Tengiz oil field, a joint venture (JV) with shares owned by Chevron (50%), ExxonMobil (25%), KazMunayGas (20%) and LukArco (5%).

Contract commenced in May 2018 with a project duration of 45 months.

The project will increase the Tengiz oil field's annual oil production capacity by an additional 12 million tons.

SELECTED PROJECTS

UNDER CONSTRUCTION

Kazan 250 MW Combined Cycle Power Plant Kazan, Tatarstan, Russian Federation

Job owner : PJSC Kazanorgsintez (Member of the TAIF Group)

In October 2019, Siemens signed a contract with PJSC Kazanorgsintez, a member of the TAIF Group, for the delivery, installation, and commissioning of one SGT5-2000E gas turbine, one SST-600 steam turbine, one heat recovery steam generator and all associated systems for a 250 MW Combined Cycle Power Plant in Kazan (KOS Project) in Tatarstan in the Russian Federation. ENKA has a “Cooperation Agreement” with Siemens regarding the construction of the plant.

Within the framework of this “Cooperation Agreement” ENKA is to perform the engineering, procurement and construction (EPC) works. ENKA will also be responsible for commissioning. Siemens will supply the gas and steam turbines.

The plant is due to start operating in March 2023.

Contract price (ENKA's share): EUR 182 Million

SELECTED PROJECTS

UNDER CONSTRUCTION

Morava Corridor Motorway Project Pojate – Preljina, Serbia

Job owner : **Government of the Republic of Serbia Ministry of Construction, Transport and Infrastructure**

ENKA and its joint venture partner Bechtel have been selected by the Government of the Republic of Serbia to design and build the 112 km Morava Corridor Motorway Project which will connect central Serbia with Pan-European Corridors 10 and 11.

The scope of works includes 78 bridges, 24 overpasses, 12 underpasses, over 20 million m³ of excavations, over 17 million m³ of earth filling, 490,000 m³ of concrete, 1.7 million m³ of subbase, 1.1 million tons of asphalt and 460 km of guardrail installation.

For the construction of this motorway, Bechtel ENKA joint venture has facilitated an ECA guarantee from the UK Export Finance (UKEF) and under this guarantee Serbia has secured EUR 430 Million of long term loan.

Additionally, Multilateral Investment Guarantee Agency (MIGA) has issued guarantees for the project for a long term financing of up to EUR 550 Million.

SELECTED PROJECTS

UNDER CONSTRUCTION

St. Petersburg High-Technological Multifunctional Medical Complex (HMMC) Russian Federation

ENKA commenced work in 2019 on design and construction of a High-Technology Multifunctional Medical Complex (HMMC) Project in St. Petersburg in the Russian Federation.

The project is being implemented by the SOGAZ Medicine Clinical Group, a subsidiary of Gazprom. The initial phases of the project were signed with LLC Constructiv acting on behalf of LLC MMC SOGAZ Medical Technologies.

Covering an area of more than 200,000 m², the complex will include an oncology center, a multidisciplinary clinic, a rehabilitation and sports medicine center, an educational complex and a nuclear medicine center. All the buildings will be connected by galleries.

The complex will have a world-class range of modern diagnostic and medical equipment. It will operate its own ambulance substation, polyclinic, accidents and emergencies unit, trauma center and hospital. The modern clinic will provide medical care to 20,000 patients a year.

SELECTED PROJECTS

UNDER CONSTRUCTION

Marine & Land Works in Prince George Wharf, Nassau, the Bahamas

Job owner : Nassau Cruise Port Limited (NCPL)
Contractor : ENKA Construction and Development B.V.

NCPL proposes to reinvigorate the current tourism infrastructure in Nassau by boosting the cruise ship arrivals and drawing visitors from the vessels into Nassau. The current cruise terminal functions as an official port of entry and is located near the western entrance of Nassau Harbor (the Harbor), a naturally formed harbor between New Providence and Paradise Island.

The project site is located in Nassau Harbor on the northeastern face of the island of New Providence of the Bahamas, north of Nassau's downtown area. The harbor and its navigation channel are used by many ships for shelter and storage and is most notably visited on a regular basis by numerous cruise ships. The project include all existing berths, wharves, connecting structures, dolphins, surrounding waters for land reclamation, and dredging works on the marine portion and construction works of buildings, car parks and hardscaping & landscaping on the Land portion.

Contract price: USD 216 Million

SELECTED PROJECTS

UNDER CONSTRUCTION

Tripoli West 671 MW & Misurata 650 MW Simple Cycle Power Plants - Libya

Job owner : General Electricity Company of Libya

For meeting the growing electricity demand of Libya, ENKA and its consortium partner Siemens signed contracts with General Electricity Company of Libya (GECOL) for the construction of the Fast-track Projects of 650 MW Misurata Simple Cycle Power Plant and 671 MW Tripoli West Simple Cycle Power Plant in Libya.

The Misurata project is based on a power island configuration for two SGT5-PAC 4000F Siemens combustion turbine generator units, whereas the Tripoli West project is based on a power island configuration for four SGT5-PAC 2000E Siemens combustion turbine generator units. The turbines of the plants will be dual-fuel fired with light fuel oil and natural gas.

Power will be generated in the CTGs and stepped up through main transformers to the grid. Both projects are planned to be completed in 2022.

Contract price (ENKA's share) : USD 410 Million

SELECTED PROJECTS

UNDER CONSTRUCTION

Hinkley Point C Nuclear Power Plant – Prefabrication, installation & erection of piping systems of power island - England

Job owner : GE Steam Power Ltd.

ENKA UK Construction Ltd., a subsidiary of ENKA İnşaat ve Sanayi A.Ş., is contracted by one of the main contractors on the HPC Site to prefabricate, install and erect all piping systems of the power island at Hinkley Point C Nuclear Power Station. Work includes installation and erection of High Pressure (HP) piping and prefabrication, delivery, installation and erection of Intermediate Pressure (IP) and Low Pressure (LP) piping systems associated with the power island, and provision of commissioning assistance.

Hinkley Point C is a 3,200 MW nuclear power station with two EPR reactors currently being constructed in Somerset, England. It is the first new nuclear power station to be built in the UK in over 20 years. The final investment decision and the start of construction took place in the second half of 2016. GE is supplying the two conventional power islands for HPC, which include world's largest steam generator – the Arabelle turbine, and other critical equipment.

Contract price : GBP 184 Million

SELECTED PROJECTS

UNDER CONSTRUCTION

Dradenau Combined Heat and Power Plant - Germany

Job owner : **Wärme Hamburg GmbH**

On 15 September 2021, ENKA with its JV partner Uniper signed a contract with Waerme Hamburg GmbH for the turnkey construction of approximately 180 MW electric and district heating capacity of 260 MW Combined Heat and Power Plant, Dradenau in Hamburg, Germany.

ENKA – Uniper JV is to perform the engineering, procurement, construction and commissioning (EPCC) works within the framework of this contract.

The power plant is expected to be in operation in December 2024.

Contract price (ENKA's share) : EUR 170 Million

SELECTED PROJECTS

UNDER CONSTRUCTION

YANDEX Headquarters - Russia

Job owner : Yandex LLC

On December 13, 2021, ENKA signed a contract for the construction an innovative new headquarters for Yandex, the global technology leader, in the Gagarinsky District of Moscow, the Russian Federation.

A new project of ENKA, Yandex Headquarters, sits on a prominent site near the Moskva River, a short distance from the some of the city's leading research institutions and the company's first office. The headquarters, the total above-ground area of which will be approximately 162.000 m², will enable staff to have a healthy and sustainable place for seamless work and recreation.

The above-ground part of headquarters will be combined into a single complex by three multi-height wings with the highest one up to 75 m and the central atrium with the transparent roof. Light-weight and constructible façade will be clad with metal panels.

The building is to be lifted up to reveal a ground floor that will step up across the site to connect a large, open plaza and green spaces on one side with neighboring streets on the other. This continuous space will be open to the public and will include restaurants, cafes, along with the Yandex Museum highlighting the company's cultural and technological growth since the early 1990s.

Contract price : EUR 500 Million

ENGINEERING

FABRICATION

ÇİMTAŞ, a subsidiary of ENKA, is a leading provider of integrated engineering, procurement, welded fabrication, assembly and installation solutions for top-tier global customers.

ÇİMTAŞ was incorporated in 1973 in Turkey as a local steel fabricator and now an EPMFI group of 5 companies.

COMPLETED INVESTMENTS

REAL ESTATE

1

Kuntsevo Multifunctional Trade & Business Center

Total Investment: USD 484 Million
Total Area: 245.000 m², Net Leasable Area: 90.000 m²
29.000 m² Office and 61.000 m² Retail
Completion: 2015

2

Kashirskaya Plaza Multifunctional Trade Center

Total Investment: USD 232 Million
Total Area: 196.750 m², Net Leasable Area: 70.000 m²
Completion: 2018

POWER GENERATION

3 gas-fired combined cycle power plants

Gebze, Adapazarı and Izmir with a total capacity of almost 4,1 Gigawatts

Annual generation capacity is 32 Billion Kwh net and the annual natural gas consumption could reach 6.5 Billion CBM,

Capability of meeting 10% of Turkey's total demand, since Turkey's consumption in 2021 was 316 Billion Kwh and developed under the 'BUILD-OWN-OPERATE' programme,

Proximity to main electricity load centers, proven and environmentally friendly technology.

The plants have 35 – 40 years of economic life.

Following expiry of the Electricity Sale Agreements with EÜAŞ, Adapazarı and Gebze Combined Cycle Power Plants developed under the BO Scheme and owned by ENKA have suspended their generation as of February 2019 and similarly Izmir Combined Cycle Power Plant has suspended its generation as of August 2019.

Generation resumed at Adapazarı CCPP in May 2021, at Gebze CCPP in June 2021 and at Izmir CCPP in July 2021.

ENKA set a new world record
for power plant availability
(with 99.8% which is 7% over the industry average)
over the 12- month period with
GE 9 FA gas turbines

COMMITTED AMOUNTS	TOTAL
Total Debt (75%)	1.530
