## CONVENIENCE TRANSLATION INTO ENGLISH OF INDEPENDENT AUDITOR'S REPORT ON THE BOARD OF DIRECTORS' ANNUAL REPORT ORIGINALLY ISSUED IN TURKISH

To the Shareholders of Enka İnşaat ve Sanayi Anonim Şirketi,

### Opinion

We have audited the annual report of Enka İnşaat ve Sanayi Anonim Şirketi (the "Company"), its subsidiaries and joint operations (collectively referred to as "the Group"), for the period between 1 January 2023 and 31 December 2023, since we have audited the complete set consolidated financial statements for this period.

In our opinion, the consolidated financial information included in the annual report and the analysis of the Board of Directors by using the information included in the audited financial statements regarding the position of the Group are consistent, in all material respects, with the audited complete set of consolidated financial statements and information obtained during the audit and provides a fair presentation.

### Basis for Opinion

We conducted our audit in accordance with Standards on Auditing which is a component of the Turkish Auditing Standards as adopted within the framework of the Capital Markets Board ("CMB") regulations, published by the Public Oversight, Accounting and Auditing Standards Authority ("POA") ("Standards on Auditing issued by POA"). Our responsibilities under Standards on Auditing issued by POA are further described in the Auditor's Responsibilities for the Annual Report section of our report. We declare that we are independent of the Group in accordance with the Code of Ethics for Auditors issued by POA (including Independence Standards) (POA's Code of Ethics) and the ethical requirements in the regulations issued by POA that are relevant to audit of financial statements, and we have fulfilled our other ethical principles regarding independent audit of financial statements in the CMB legislation and other relevant legislation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Auditor's Opinion on Complete Set of Consolidated Financial Statements

We have expressed an unqualified opinion on the complete set of consolidated financial statements of the Group for the period between 1 January 2023 and 31 December 2023 on 22 March 2024.

## Board of Directors' Responsibility for the Annual Report

In accordance with the Articles 514 and 516 of the Turkish Commercial Code numbered 6102 ("TCC") and Communiqué on the Principles of Financial Reporting in Capital Markets numbered II - 14.1 (the "Communiqué"), the Group's management is responsible for the following regarding the annual report:

a) The Group's management prepares its annual report within the first three months following the date of statement of financial position and submits it to the general assembly.

b) The Group's management prepares its annual report in such a way that it reflects the operations of the year and the consolidated financial position of the Group accurately, completely, directly, true and fairly in all respects. In this report, the financial position is assessed in accordance with the Group's consolidated financial statements. The annual report shall also clearly indicates the details about the Group's development and risks that might be encountered. The assessment of the Board of Directors on these matters is included in the report.

c) The annual report also includes the matters below:

- Significant events occurred in the Group after the reporting period,

- The Group's research and development activities.

- Financial benefits such as wages, premiums and bonuses paid to board members and key management personnel, appropriations, travel, accommodation and representation expenses, benefits in cash and kind, insurance and similar guarantees.

When preparing the annual report, the Board of Directors also considers the secondary legislation arrangements issued by the Ministry of Trade and related institutions.

## Auditor's Responsibility for the Audit of the Annual Report

Our objective is to express an opinion on whether the consolidated financial information included in the annual report in accordance with the TCC and the Communiqué and analysis of the Board of Directors by using the information included in the audited financial statements regarding the position of the Group are consistent with the audited consolidated financial statements of the Group and the information obtained during the audit and give a true and fair view and form a report that includes this opinion .

We conducted our audit in accordance with Standards on Auditing issued by POA. These standards require compliance with ethical requirements and planning of audit to obtain reasonable assurance on whether the consolidated financial information included in the annual report and analysis of the Board of Directors by using the information included in the audited financial statements regarding the position of the Group are consistent with the consolidated financial statements and the information obtained during the audit and provides a fair presentation.

# CHAIRMAN'S MESSAGE

## DEAR SHAREHOLDERS,

On behalf of the Board of Directors of ENKA İnşaat ve Sanayi A.Ş., we welcome you to the Annual Ordinary General Assembly Meeting and extend our deepest regards.

At the close of 2023, in US Dollar terms, ENKA's shareholders' equity stood at 7.33 billion, with a net cash position of 5.1 billion, consolidated turnover totaling 3.2 billion, and consolidated profit reaching 706 million.

As in previous years, ENKA remains committed to engineering and construction, power generation, real estate investment and management, and trade.

The turnover of the engineering and construction sector reached USD 2.04 billion. With the contribution of our group companies, the backlog at the close of 2023 amounted to USD 4.97 billion. Compared to the previous year's end, despite the turnover achieved within the year, we raised this figure by USD 846 million. Recently, we have undertaken engineering and construction projects in Germany, the United Kingdom, Serbia, and North Macedonia. Furthermore, the European continent's share in our revenues is on the rise, thanks to the manufacturing activities conducted by our group company Çimtaş, particularly in Spain, Croatia, Serbia, the Netherlands, Finland, Poland, Germany, the United Kingdom and Sweden.

In the field of power generation, Gebze, Adapazarı and İzmir natural gas combined cycle power plants, wholly owned by ENKA and operated under the Build-Operate model, make ENKA Türkiye's largest private sector power producer. With their total capacity of 4,100 Megawatts, they have the capacity to meet 10% of the country's annual electricity demand. Following the expiry of the Electricity Sales Agreement with EÜAŞ, the Adapazarı and Gebze plants stopped production in February 2019 and the İzmir plant in August 2019. Production resumed at these plants in mid-2021. Due to unfavorable prices,

production decreased in 2023 compared to the previous year and the revenue generated amounted to USD 701 million. In the power sector, construction is underway for our new natural gas combined cycle power plant in Kırklareli, with a planned capacity of 850 MW. Expected to be finalized in 2025, the project carries a cost of USD 462 million. Additionally, we are embarking on our inaugural solar power investment in Bulgaria. The project, which will cost around EUR 40 million, will have a production capacity of 45 MWp upon its completion by year-end.

In the real estate sector, where we generated USD 324 million in revenues in 2023, we continue to manage Class A office buildings and shopping centers through our companies established in Russia. As of the year-end, this business line includes approximately 390 thousand square meters of Class A net leasable office space, a hotel and shopping malls with approximately 365 thousand square meters of leasable space, all but one of which are located in Moscow.

In the field of trading activities, ENKA Pazarlama, which represents the world's trusted brands in sales and after-sales services in construction machinery, lifting equipment and industrial products and which is the market leader in its sector, achieved a turnover of USD 271 million in 2023.

The significance we attribute to the health and safety of our employees has evolved into a fundamental and irreplaceable value, persisting with unwavering commitment across generations. While priorities may shift, the enduring values cultivated over years of dedication hold exceptional significance for us. In 2023, we provided nearly one million person-hours of Occupational Health, Safety, and Environment training, reflecting our ongoing dedication to surpassing previous efforts. It is gratifying to note the sustained decline in our lost time incidents (LTI) over the past three years, as well as in our recordable incidents (REC), both critical safety metrics in our industry. 2023 has been a year in which we intensi-

fied our investments in technology for Occupational Health and Safety, enhancing safety equipment for heavy machinery and implementing software infrastructure to monitor our work permit systems. Our commitment to workplace safety has garnered recognition on numerous international platforms, earning significant awards. We remain steadfast in our commitment to learning from accidents, continuously improving our HSE system with unwavering determination.

In our sustainability management, which includes our work on combating climate change, we completed a double materialization analysis for the first time this year, with broad stakeholder participation. In this way, we assessed the impact which ENKA has on environmental and social issues – along with the impact which these issues have on ENKA's potential to create value – and determined the highly material issues that will guide our sustainability strategy. Our subsidiaries continue to pursue their efforts to achieve the targets for 2030 that we published in 2022. At our projects, meanwhile, in accordance with the same commitment of ours, we are holding Sustainability and Climate Change Workshops, determining specific sustainability and climate change targets for each project, and conducting our business in the light of these targets. In line with our targets, we are also broadening our investments and EPC project portfolio in such a way as to include renewable energy ventures, and we have invested in renewable energy solutions at our facilities. Thus, we continue to fulfill our strong commitment to reducing our Scope-2 emissions and combating climate change.

ENKA's ability to perform its work on time while meeting high quality standards is the greatest factor in its success. As in the past, we continue to pursue our activities and maintain our profit margin in the sectors on which we focus without making any concessions when it comes to our criteria.

Dear shareholders, may you enjoy health, happiness, and abundant success throughout 2024.

**A. Mehmet TARA**

Chairman of the Board of Directors  
28 February 2024

## STADE LIQUEFIED NATURAL GAS (LNG) REGASIFICATION TERMINAL

**ENKA's wholly owned subsidiary Entrade GmbH, in a consortium formed together with Técnicas Reunidas and FCC Industrial, signed an Engineering, Procurement and Construction (EPC) contract with the Hanseatic Energy Hub company for the Liquefied Natural Gas (LNG) Regasification Terminal to be built at the Stade Industrial Park situated on the banks of Elbe River, Lower Saxony, Germany.**

The contract encompasses the design and construction of a new storage and regasification terminal for liquified gases, featuring unloading facilities on a newly built modern energy port at Stade.

The land, on which the facility will be built, is owned by the large chemical company, Dow Chemicals, which is participating in the project as one of the development partners. The terminal will utilize industrial waste heat from existing Dow facility and therefore will be able to regasify the gases without additional CO<sub>2</sub> emissions.

The terminal holds significant importance in Germany's current energy policy, as one of its main objectives is to diversify its natural gas supply with liquefied natural gas (LNG) and green gases while preparing for the market ramp-up of hydrogen.

The terminal, which will have a nominal annual capacity of 13.3 billion m<sup>3</sup>, involves a total investment of 1 billion Euros and the share of Entrade GmbH is approximately 25%.

First phase of the project, including preliminary design engineering works and site preparation works, commenced within April 2023 and is planned to be completed by the beginning of 2024. Following the completion of the first phase, the main works are planned to commence with the final investment decision to be taken by the client in early 2024.

Field surveys and geotechnical studies included in the first phase, along with pile tests, have been com-

pleted, while field excavation, filling, and leveling works are ongoing.

Entrade GmbH, a subsidiary of ENKA will perform the whole electromechanical assembly works of the project including pipe spool prefabrication. Scope of works to be carried out under Entrade's responsibility will be summarized as mechanical and electrical equipment erection works, steel structure erection works, electrical and instrumentation works, pipe spool prefabrication and erection works, painting and fireproofing, insulation, scaffolding, pre-commissioning and testing. Additionally, Entrade will provide supervision and manpower support during the commissioning phase. The pipe spool prefabrication of the plant will be carried out at ENKA subsidiary Cimtas Pipe's facilities, and the spools will be delivered to the site for installation.

### Key Quantities:

- › Steel structure: 5,800 tons
- › Metallic piping prefabrication: 125,000 dia-inch
- › Metallic piping erection: 118,000 dia-inch
- › Non-metallic piping erection: 26,000 dia-inch
- › Pipe support: 753 tons
- › Equipment erection: 2,100 tons
- › Insulation: 54,000 m<sup>2</sup>
- › Painting: 60,000 m<sup>2</sup>
- › Fireproofing: 2,800 m<sup>2</sup>
- › Electrical and Instrumentation cabling: 780,000 lm

# TENGIZ BASE OPERATIONS AND MAINTENANCE WORKS

Since the beginning of 2001, the ENKA-Bechtel joint venture, in which ENKA has a 50% stake, had been awarded contracts for the project with a total contract value of USD 682 million.

| LOCATION           | CLIENT                | PROJECT DURATION             | CONTRACT TYPE                            |
|--------------------|-----------------------|------------------------------|------------------------------------------|
| Tengiz, Kazakhstan | Tengizchevroil (TCO)* | February 2001 – October 2024 | Lump sum + Unit Rate + Cost Reimbursable |

Within the contract scope of engineering, procurement and construction works required for the maintenance and repair works of the oil and gas production facilities of the client; piling, foundation works, infrastructure works, pipe spool and precast fabrication works, structural steel erection works, piping/ pipeline works, mechanical, electrical and instrumentation works are being carried out.

The works carried out under the project in 2023 include the following:

- › The Second Generation Plant (SGP) DHC Lateral Lines Upgrade Project has been completed.
- › The MS-55 Extension Project has reached completion.
- › The 51G Upgrade Project has been completed.
- › The High-Pressure (HP) - Low-Pressure (LP) Conversion Project has made significant progress, reaching 25% completion.
- › The MS-12 Extension & Anchor Block Construction Project is 85% complete.
- › Various pipeline repair scopes have been completed in 90 different locations.
- › The KSU Steel Fabrication and Installation at KTL-2 project has been awarded. As of December 31<sup>st</sup>, 25% of the construction progress has been accomplished.
- › The T-072R and T-13NT new well FL&HU Installation projects have been awarded, achieving 70% and 16% of construction progress, respectively.
- › The T-4150 Well-Site Mechanical Scope Project has been completed.

As of the end of 2023, the completion rate for ongoing projects stands at 33%, which are expected to be completed in October 2024.

The number of employees working on the project is 250 as of December 2023.

## THIRD GENERATION PROJECT (3GP) MECHANICAL, ELECTRICAL AND INSTRUMENTATION INSTALLATION WORKS

Senimdi Kurylys LLP, an equal joint venture between ENKA and Bechtel, was awarded the contract for the mechanical, electrical and instrumentation installation works for the Third Generation Project (3GP) in May 2018.

The 3GP is part of TCO's Future Growth Project (FGP) which is an integrated project being developed primarily to increase the production capacity of the Tengiz Oil Field by an additional 12 million tons per year (260,000 barrels per day) and its gas production capacity by an additional 27 million m<sup>3</sup> per day.

The project is being carried out using a modularized construction strategy, with modules constructed both at coastal fabrication yards in Kazakhstan and at other fabrication yards in Europe and the Far East.

The project includes construction work for the crude processing plant, as well as the module stacking, sour water stripper and utilities areas.

Construction of the mechanical, electrical and instrumentation works and module stacking, installation and hook-up are included within the scope of the project and the key quantities are as follows:

- › Stacking of 99 modules and setting of 69 modules on foundations,
- › Erection of 13,800 tons of stick-built steelwork,
- › Fabrication and installation of 115,000 m of pipe-work, and additionally erection of 33,000 m of spools shipped loose,
- › Installation of 2,000 km of electrical, instrumentation and telecom cables,
- › Installation of 200 pieces of mechanical equipment,
- › Integration of 130 pieces of mechanical equipment,
- › Erection of Train 1 and Train 2 flare structures and riser piping, with both structures standing at 180 m high,
- › Insulation of 105,000 m of pipework and 17,000 m<sup>2</sup> of equipment,
- › Construction of 11 buildings (7 major and 4 minor),
- › 76,000 m<sup>2</sup> of paved roads,

| LOCATION           | CLIENT                | PROJECT DURATION     | CONTRACT TYPE                       |
|--------------------|-----------------------|----------------------|-------------------------------------|
| Tengiz, Kazakhstan | Tengizchevroil (TCO)* | May 2018 - June 2024 | Lump sum + Unit Rate + Reimbursable |

- › 133,000 m<sup>3</sup> of excavation, 200,000 m<sup>3</sup> of backfill, 9,200 m<sup>3</sup> of paving and 6,300 m<sup>3</sup> of concrete works within the scope of civil and underground works.

By the end of December 2023, the base scope has been completed. Ongoing works now include commissioning support, specialty line cleaning, steam blow and integrated construction team works, with a total of 3,000 employees working on the project.

Major accomplishments at the site include the following:

- › Completion of the entire base scope and 16.8 million person-hours of work carried out without any lost time incidents (LTIs)
- › Mechanical completion of all HP/LP Conversion and Process subsystems by September 2023 as scheduled
- › On-time achievement of all 2023 TCO Construction Strategic Milestones:
  - › February 2023 – Mechanical Completion of 3 Boilers
  - › April 2023 – Mechanical Completion of HP/LP Conversion and ERT Building
  - › June 2023 – Mercaptan & Glycol Areas Mechanical Completion
- › Completion of the original scope for Specialty Line Cleaning by early December. The team commenced borescope inspection and cleaning of preservation team's surveillance report items including more than 50 lines.

- › The preparation for Steam Blow Phase-1 was accomplished by the end of May 2023. The execution of Steam Blow Phase-1, covering Plant's Utilities, PBF and GTG areas, was carried out successfully and concluded in September. All reinstatement activities for Phase-1 were finalized by the end of October.

- › Preparation for Steam Blow Phase-2, that is for Plant's Process Units began in October and reached 80% progress by the end of December. Preparation works are planned to be completed till the end of January 2024. TCO's current plan for Steam Blow Phase-2 execution start is the 2<sup>nd</sup> half of February 2024.

# WEST QURNA 1 (WQ1) PRODUCED WATER 2 (PW2) FACILITY

The Produced Water 2 (PW2) Project was recognized as the Best Project by Engineering News-Record (ENR) in the Power/Industrial category in 2023.

ENKA had been awarded the contract by ExxonMobil Iraq Limited (EMIL) in December 2019 for a new produced water facility.

In the Produced Water 2 (PW2) project ENKA executed the entire EPCC scope, encompassing detailed design engineering, procurement, fabrication, construction, erection and commissioning of the facility.

The PW2 project will produce 210,000 barrels of water per day of outlet stream treated produced water in order to meet forecast produced water across West Qurna 1 Degassing Stations 6, 7 and 8. The end user of this new facility is the Basrah Oil Company (BOC) of Iraq.

As of April 2023, all engineering, procurement, fabrication, construction and commissioning works have been completed.

The major works of the project carried out in 2023 included the commissioning and start-up of the facility. Following the completion of mechanical works, commissioning and start-up activities were started and successfully completed in May 2023.

Furthermore, the performance tests of the facility were completed by June 2023.

A total of 1,247 days were worked on the project with 1,810,000 person-hours without any lost time incident (LTI).

| LOCATION    | CLIENT                  | PROJECT DURATION           | CONTRACT TYPE | CONTRACT VALUE |
|-------------|-------------------------|----------------------------|---------------|----------------|
| Basra, Iraq | ExxonMobil IRAQ Limited | December 2019 – April 2023 | Lump Sum      | USD 71 Million |

## DRADENAU COMBINED HEAT AND POWER PLANT

**ENKA and its joint venture partner Uniper had been awarded Dradenau Combined Heat and Power Plant project which is strategically important for Hamburg.**

The project aims to replace the coal-fired CHP plant in Wedel with a new and climate-friendly CHP plant in Dradenau ("KWK-Anlage Dradenau"). The Dradenau CHP Plant will use heat from two sources:

- › Heat from a natural gas-fired combined cycle power plant to be built at the site of the planned combined heat and power plant in Dradenau.
- › Heat from third-party feeders, such as heat from thermal waste recovery, industrial waste heat, waste heat from sewage treatment plant processes, etc.

The project is based on 2x2x1 configuration equipped with two Siemens SGT-800 gas turbines, one steam turbine and two heat recovery steam generators (HRSG) with one additional gas steam generator. When completed, the plant will achieve an electrical output of 180 MW and 260 MW district heating capacity.

The ARGE Uniper-ENKA Dradenau (Uniper-ENKA Joint Venture) being the EPC contractor of the project is a fully integrated joint venture and is responsible for all deliverables and services for the Dradenau CHP plant such as planning, engineering, design, procurement, manufacturing, delivery, construction, erection, commissioning, testing and project management.

The Commercial Operation Date and the completion of the aforementioned scope of services have been set for September 2025.

ARGE Uniper-ENKA Dradenau partnership has completed 80% of the budget-based procurement process and the on-site delivery processes for all major equipment have been substantially completed. Mechanical erection works have already commenced, and contracts have been signed with subcontractors for electrical, instrumentation & controls installation, as well as facade installation works.

| LOCATION         | CLIENT                      | PROJECT DURATION                | CONTRACT TYPE                              |
|------------------|-----------------------------|---------------------------------|--------------------------------------------|
| Hamburg, Germany | Hamburger Energiewerke GmbH | September 2021 - September 2025 | EPC Contract with the Open Book components |

Electrical, instrumentation and controls installation works contractor commenced mobilization works, and installation activities at site will commence in the first weeks of 2024.

The procurement processes for the supply and manufacturing of structural steel for the entire project have been completed and deliveries to the site have commenced. Installation of structural steel works will commence in January 2024.

The order for all raw pipe and fitting materials for spool manufacturing has been placed and the spool manufacturing is planned to commence in the first quarter of 2024.

A rate of 50% progress has been achieved in civil concrete works and architectural works have also commenced.

Furthermore, facade installation activities will also commence in January 2024.

Towards the end of 2023, a significant milestone for the project was achieved with the delivery and installation of one Siemens SGT-800 gas turbine and Siemens SST-600 steam turbine. The delivery and in-

stallation of the second gas turbine are scheduled for mid-January 2024. Additionally, the assembly for the gas steam generator (GSG) has begun and the blocks have been placed. The assembly of heat recovery steam generators (HRSG) began in 2023 with the plan to complete heavy installation by June 2024. As of the end of 2023, the project has made a 40% overall progress.

The number of personnel working on the project site has reached 370 including the subcontractors. Basic engineering works have been completed and a progress rate of 80% has been achieved in detailed engineering works.

It is planned to make significant progress on the project and complete the installation of the major equipment within 2024.

Throughout 2024, works in all disciplines including civil, mechanical, piping, electrical and structural steel, architectural finishing and facade installation will be carried out.

By the end of 2023, a total of 340,775 person-hours and 169 days were worked on the project without any lost time incident (LTI).

# HINKLEY POINT C (HPC) NUCLEAR POWER PLANT TURBINE ISLAND HP & IP/LP PIPING PREFABRICATION AND ERECTION WORKS

Located in South West of England, the construction of a new nuclear power station at Hinkley Point C will provide zero-carbon electricity and help secure a diverse and balanced energy supply for the United Kingdom.

GE Steam Power, under a contract with NNB GenCo, designs and supplies two conventional power islands for Hinkley Point C nuclear power plant.

The turbine halls will contain the Arabelle turbine, the largest and most powerful steam turbine to be in operation, and other critical equipment.

In September 2021, ENKA signed with GE a contract for the prefabrication and erection of piping systems of the conventional power island. Scope of works to be carried out under ENKA's responsibility may be summarized as installation of high pressure (HP) piping and their supports, prefabrication, delivery, and installation of intermediate pressure (IP) and low pressure (LP) piping, prefabrication and assembly of HDPE and GRP piping as well as their supports, and installation and assembly of fire protection equipment and piping systems. ENKA will also provide commissioning support and material management services to GE.

During 2022 the project team developed the plans and necessary procedures to commence prefabrication of piping spools and supports in Cimtas Pipe, and coordinated HP pipe spool and support fabrication works directly awarded to Cimtas Pipe by GE Power Systems.

As of December 2023, the prefabrication of HP spools has reached 94%, and the fabrication of their supports is at 68%. The prefabrication of IP/LP piping has commenced, with 8% completion.

Erection and welding works at the site are scheduled to commence in the last quarter of 2024 and the number of employees is expected to reach 400 during the peak working period.

| LOCATION                             | CLIENT              | PROJECT DURATION          | CONTRACT TYPE           |

| Bridgwater, Somerset, United Kingdom | GE Steam Power Ltd. | September 2021 - May 2027 | Lump Sum and Unit Rates |

## MISURATA 650 MW SIMPLE CYCLE POWER PLANT

Misurata 650 MW Simple Cycle Power Plant Project has been honored with the “Distinction” prize by the British Safety Council in the “International Safety Awards 2023”.

The main contract had been signed between General Electricity Company of Libya (GECOL) and consortium of Siemens Energy Global GmbH & Co. - ENKA İnşaat ve Sanayi A.Ş., and the works within the base scope of the main contract have been successfully completed and handed over to the owner.

In addition to the main contract scope, engineering, procurement, construction and commissioning works for a light distillate oil (LDO) treatment plant and a hydrogen generation system have been awarded to the consortium as additional variation orders.

The variation orders would provide the owner with the following;

- › The LDO treatment plant could be able to be utilized as back-up fuel for the operation of the gas turbines.
- › The hydrogen generation system will generate the hydrogen gas required for the cooling system of the generators of the power island system.

The works under the additional variation orders are in progress.

| LOCATION        | CLIENT                                       | PROJECT DURATION         | CONTRACT TYPE    | CONTRACT VALUE   |
|-----------------|----------------------------------------------|--------------------------|------------------|------------------|
| Misurata, Libya | General Electricity Company of Libya (GECOL) | June 2021 - August 2024* | Lump Sum Turnkey | EUR 331 Million* |

## TRIPOLI WEST 671 MW SIMPLE CYCLE POWER PLANT

Tripoli West 671 MW Simple Cycle Power Plant Project has been honored with the Merit Award in the Power/Industrial category at the 2023 Global Best Projects Awards by ENR.

| LOCATION       | CLIENT                                       | PROJECT DURATION       | CONTRACT TYPE    | CONTRACT VALUE   |
|----------------|----------------------------------------------|------------------------|------------------|------------------|
| Tripoli, Libya | General Electricity Company of Libya (GECOL) | May 2021 – April 2025* | Lump Sum Turnkey | EUR 417 Million* |

The main contract had been signed between General Electricity Company of Libya (GECOL) and consortium of Siemens Energy Global GmbH & Co. - ENKA İnşaat ve Sanayi A.Ş., and the works within the base scope of the main contract have been successfully completed and handed over to the owner.

In addition to the main contract scope, engineering, procurement, construction, testing and commissioning works for two units of 10,000 m<sup>3</sup> light distillate oil (LDO) storage tanks and the fuel gas regulating and metering station (RMS) and final gas filtering skids have been awarded to the consortium as additional variation orders.

The variation orders would provide the owner with the following;

- › Two units of 10,000 m<sup>3</sup> LDO storage tanks, the owner will be able to store additional LDO for the operation of the plant with enhanced flexibility.
- › Fuel gas regulating and metering station (RMS) and final gas filtering skids will allow the gas turbines to operate with natural gas when the gas will be available at the plant site.

The works within the additional variation orders are in progress.

## CORRIDORS 8 & 10D MOTORWAY

**ENKA, with its joint-venture partner Bechtel, have been selected to build 109 km Corridors 8 & 10d Motorway Project.**

Corridor 8 is a key component of Pan-European Transport Corridor 8, connecting the Adriatic Sea and the Black Sea through Albania, North Macedonia and Bulgaria. The project encompasses the construction of motorway sections, including Tetovo – Gostivar (Section 1), Gostivar – Bukojcani and Trebenista (Section 2), Struga – Kjafasan (Section 3).

Corridor 10d is a key component of Pan-European Transport Corridor 10, connecting Austria, Hungary, Slovenia, Croatia, Serbia, Bulgaria, North Macedonia and Greece. The project involves the construction of the Prilep – Bitola (Section 4) section will be built.

According to the signed contract, the project duration is five years.

The project features 7 new interchanges, a significant number of structures crossing highways, railways, Vardar and Black Drin river along the route.

The project scope also includes 34 bridges, 34 overpasses, 24 underpasses, over 21 million m<sup>3</sup> of excavation, over 10 million m<sup>3</sup> of earth fill, 620,000 m<sup>3</sup> of concrete, 1.1 million tons of asphalt, 2.2 million of m<sup>3</sup> subbase and subgrade, over 600,000 m of anchors and 320 km guardrail.

With the participation of North Macedonian government officials, the first excavation ceremony for Corridor 8 was held in Section 2 on 12 September 2023, followed by the first excavation ceremony for Corridor 10d in Section 4 on 14 September 2023.

| LOCATION        | CLIENT                                                                                                                                            | PROJECT DURATION           | CONTRACT TYPE | CONTRACT VALUE   |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|---------------|------------------|
| North Macedonia | Public Enterprise for State Roads and the Ministry of Transport and Communications on behalf of the Government of the Republic of North Macedonia | March 2023 – December 2027 | Unit Rate     | EUR 1.45 Billion |

As of December 2023, the project employs approximately 350 people including subcontractors.

Initial permanent earthworks operations such as clearing and grubbing, excavation, service road construction have commenced in Section 2 and Section 4. Geotechnical investigation, design and expropriation works are ongoing in Section 1, 2 and 4.

The main camp of the project in Section 2, near Gostivar with a capacity of 1,304 people and the second camp of the project in Section 4, near Prilep with a capacity of 784 people will be constructed after completion of the expropriation processes.

## MORAVA CORRIDOR MOTORWAY

**ENKA and its joint venture partner Bechtel were selected by the Government of Republic of Serbia in December 2019 to design and build 112 km Morava Corridor Motorway Project which will connect central Serbia and Pan-European Corridors 10 and 11.**

Morava Corridor Motorway Project is a 112 km dual-carriageway motorway consists of three Sectors from Pojate and the A1 (the North-South motorway in central Serbia) through Kruševac (which used to be the industrial hub of Yugoslavia) and up into Preljina in the north of Čačak. The project runs from east to west in the West Morava River valley and is seen as a key enabler of the economic corridor to the industrial cities of Kruševac, Kraljevo, Čačak and their ultimate international connections to Bosnia, Montenegro and North Macedonia.

According to the terms and conditions of the signed contract, the construction of the motorway started in 2020.

An extensive telecommunication network is being constructed along the alignment to provide a digital corridor for improved connectivity in the region. The project features design and construction of 13 interchanges, significant amount of structures crossing highways, railways and challenging Morava river along the route, significant amount of flood protec-

tion measures, scour protection of river bed and structures, dykes and construction of a new river bed due to the wide flood plain of the West Morava River.

The scope of the project includes 78 bridges, 26 overpasses, 11 underpasses, 117 culverts, 37 km of river regulation, 28 km of dyke and over 20 million tonnes of aggregate production.

In 2023, Sector 1 of the project, spanning a total length of 27.5 km from Pojate to Kosevi, was successfully opened to traffic. Sector 1 establishes a vital link between the city of Kruševac and the Pan-European Transport Corridor 10 motorway, thereby enhancing connectivity throughout the region. The project continues to progress, emphasizing its significance in strengthening regional infrastructure and fostering economic development.

Simultaneously, in Sector 2 and Sector 3, activities such as earthworks, drainage, structures are advancing concurrently, with paving works also underway in

| LOCATION                  | CLIENT                                                                                    | PROJECT DURATION              | CONTRACT TYPE | CONTRACT VALUE  |
|---------------------------|-------------------------------------------------------------------------------------------|-------------------------------|---------------|-----------------|
| Pojate – Preljina, Serbia | Government of the Republic of Serbia Ministry of Construction, Transport & Infrastructure | December 2019 - December 2025 | Lump Sum      | EUR 2.1 Billion |

Sector 2. Upon the provision of rock quarry in Sector 3 by the client, paving and river regulation works will speed up in 2024.

As of December 2023, construction works have reached 67% completion and 40.8 million m<sup>3</sup> of excavation, 16.1 million m<sup>3</sup> of fill, 560,000 m<sup>3</sup> of concrete, 490,000 m<sup>3</sup> of subbase, and 310,000 tons of asphalt works were completed. Over 3,800 employees are working on the project, including subcontractors.

Bechtel-ENKA provided safety and quality trainings to all personnel working on the project and 9 million person-hours were achieved without any lost time incident (LTI) whilst 28 million person-hours had been worked since the start of the project.

Bechtel ENKA UK Limited Ogranak Beograd (BEJV) Laboratory attained ISO/IEC 17025:2017 accreditation. The conferred certificate signifies the official and international recognition of the diligently established management system within the BEJV Laboratory.

Studies for Environmental and Social Impact Assessment (ESIA) had been completed and Loan Fundings

became available for the project. Loans of EUR 400 million guaranteed by United Kingdom Export Finance (UKEF) and EUR 900 million guaranteed by Multilateral Investment Guarantee Agency (MIGA) were obtained. In addition, a loan of EUR 700 million guaranteed by Multilateral Investment Guarantee Agency (MIGA) was ratified by the parliament in October 2023.

ENKA and its joint venture partner Bechtel have successfully delivered major infrastructure projects in the region since the 1980's including motorways in Albania, Croatia, Kosovo, Türkiye and Romania. Together, the partnership has built more than 750 km of motorways including major engineering structures like tunnels, bridges and viaducts.

To perform this important infrastructure project, ENKA is providing its state of the art engineering and construction technologies, as well as superior quality, environment, health and safety standards which were gained over its 66-year history.

## NASSAU CRUISE PORT AT PRINCE GEORGE WHARF

The Nassau Cruise Port Project was selected as the Global Best Project by Engineering News Record magazine (ENR) in the Airport / Port category.

The Bahamas Government has decided to enhance cruise tourism in the country by developing the existing port at Prince George Wharf, known as the Nassau Cruise Port.

This initiative has transformed Nassau into a distinguished waterfront destination on the global stage. The Nassau Cruise Port project involves the redevelopment of the port.

The project has elevated the overall passenger experience and created additional business opportunities for the local community.

The project also encompassed the construction of a new terminal building; the establishment of an event and entertainment area; investments in retail facilities supporting both new and expanding Bahamian brands; and the design and construction of new food

and beverage facilities. It has integrated the port into Bay Street and downtown Nassau, serving as a catalyst for the broader development of the downtown area.

ENKA signed the contract for Marine Works of the Nassau Cruise Port project in June 2020 and Upland Works in May 2021.

The marine and upland works contracts include EPC works for the expansion of the existing Cruise Pier, combi-wall works on Prince George Wharf, construction of 2 new marinas for tour boats, dredging, expanding the port area by reclaiming and renovating / refurbishing of existing piers, arrival building, Junkanoo Museum, Signature Restaurant, amphitheatre, 3 pier buildings, canopies, town square, market place, landscape works and all relevant construction, mechanical, electrical and architectural activities.

| LOCATION        | CLIENT                  | PROJECT DURATION                                                                           | CONTRACT TYPE | CONTRACT VALUE  |
|-----------------|-------------------------|--------------------------------------------------------------------------------------------|---------------|-----------------|
| Nassau, Bahamas | Nassau Cruise Port Ltd. | <b>Marine works:</b> November 2020 – July 2022<br><b>Upland works:</b> May 2021 – May 2023 | Lump Sum      | USD 215 Million |

All construction activities were completed by May 2023 and the port held its grand opening ceremony on May 26<sup>th</sup>, attended by the Prime Minister of the Bahamas.

Now with the completion of all construction activities, Nassau Cruise Port anticipates welcoming over 4 million passengers annually.

### Project features for Marine and Upland Works are as below:

- › Dredging for OASIS class ship: 133,797 m<sup>3</sup>
- › Reclamation volume: 133,415 m<sup>3</sup>
- › New reclaimed area: 13,300 m<sup>2</sup>
- › Construction of new (deck on pile) cruise pier and mega yacht berth: 222 x 30.5 m
- › New east marina (deck on pile) with 16 berths for mini, midi and super yachts and tour boats
- › New west marina (deck on pile) and inner harbor with 14 berth for midi and mini yachts, and tour boats
- › Prince George Wharf combi-wall: 610 m
- › Arrival building: 4,000 m<sup>2</sup>
- › Junkanoo museum: 450 m<sup>2</sup>
- › Market place area: 3,140 m<sup>2</sup> with 11 new buildings
- › Town square area: 7,750 m<sup>2</sup> with 15 new buildings
- › Pier canopies: 5,560 m<sup>2</sup>
- › GTA canopies: 1,800 m<sup>2</sup>
- › 2 new pier buildings area: 324 m<sup>2</sup>
- › New ferry terminal: 106 m<sup>2</sup>
- › Signature restaurant: 700 m<sup>2</sup>
- › Amphitheatre area: 3,970 m<sup>2</sup>
- › Prince George Wharf hard landscaping area: 19,100 m<sup>2</sup>
- › Prince George Wharf soft landscaping area: 9,000 m<sup>2</sup>
- › Piers hard landscaping area: 36,900 m<sup>2</sup>

**As of December 2023 the following works were completed for Marine Works of the project:**

The marine works contract was signed on June 10<sup>th</sup>, 2020 and construction works commenced on November 25<sup>th</sup>, 2020 with the issuance of the Notice to Proceed (NTP). The project duration was 20 months and all works within the marine works scope were completed on July 25<sup>th</sup>, 2022 in accordance with the contract.

**As of December 2023 the following works were completed for Upland Works of the project:**

The contract for upland works was signed on May 31<sup>st</sup>, 2021 and the main construction works commenced on December 7<sup>th</sup>, 2021 with the NTP. The project duration was 16 months and construction activities were completed as planned and the project was handed-over to the client in May 2023.

Design, engineering & procurement works, civil, architectural, electrical, mechanical, facade and landscape activities for the upland works were completed according to the project schedule.

The architectural, facade, mechanical and electrical works of arrival building reached completion in 2023 and complete building become operational for the use of Customs and Immigration Department and Port Operation team.

The architectural, construction, façade, electrical and mechanical works of Junkanoo Museum were completed according to the schedule as well.

Moreover, construction works in the market place and new town square were completed and handed over to the client.

The construction of pier and GTA canopies at Prince George Wharf was executed in accordance with the project design and agreement.

The Amphitheatre, designed for concerts and events, was fully completed, including its roof, stage and backstage areas.

All work items within the scope of projects in the Signature Restaurant, situated on the West Marine as part of the marine scope of the project, were also accomplished.

In addition to the constructed buildings at Prince George Wharf, all landscaping works in the area were finalized in 2023.

This encompassed planting/vegetation, hardscaping, softscaping, pedestrian walkways and the installation of all exterior furniture and lighting fixtures.

Both the upland and marine works achieved a 100% completion rate by May 31<sup>st</sup>, 2023.

The project was successfully completed with 2.1 million person-hours and 1,035 days without any lost time incident (LTI).

## OYU TOLGOI UNDERGROUND PROJECT

### STRUCTURAL, MECHANICAL, PIPING, ELECTRICAL & INSTRUMENTATION (SMPE&I) WORKS OF THE CONCENTRATOR CONVERSION CONSTRUCTION

The structural, mechanical, piping electrical & instrumentation (SMPE&I) works of the Concentrator Conversion Construction represent a critical component of the Oyu Tolgoi Underground Project.

ENKA's involvement in the project commenced with the Early Tenderer Involvement phase and subsequently, ENKA was awarded the contract for SMPE&I construction works following a competitive tender process.

Oyu Tolgoi is a copper-gold mine situated in the Umnugovi aimag of Mongolia, approximately 550 kilometres south of the capital Ulaanbaatar. It holds one of the largest high-grade copper deposits in the world.

Oyu Tolgoi LLC is a Mongolian company, jointly owned by Erdenes Oyu Tolgoi LLC on behalf of the Government of Mongolia (34%) and Rio Tinto (66%). Rio Tinto also manages Oyu Tolgoi on behalf of the partnership.

The Oyu Tolgoi concentrator stands as the biggest industrial unit ever built in Mongolia, containing enough steel to build the Eiffel Tower three times.

Spanning 255 meters in length and 144 meters in width, the concentrator, which produced its first copper concentrate on February 1, 2013, and initiated customer shipments on July 9, 2013, has the capacity to process up to 100,000 tonnes of ore daily.

As part of the Oyu Tolgoi Underground Project, the concentrator plant is undergoing upgrades to enable higher-grade ore and increased production.

By the end of 2023, a total of 941,178 person-hours and 245 days were worked on the project without any lost time incident (LTI).

| LOCATION             | CLIENT         | PROJECT DURATION           | CONTRACT TYPE     |

Special Projects

*Various Countries*

HIGH TECHNOLOGICAL MULTIFUNCTIONAL MEDICAL COMPLEX / RUSSIAN FEDERATION

## SHOTTON PAPER MILL

**ENKA signed a contract for the construction of a Paper Mill Factory on the Deeside Industrial Estate in Flintshire, North Wales for Shotton Mill Limited owned by Modern Karton/EREN Holding, one of the biggest manufacturers of paper, cardboard and corrugated packaging products in the sector.**

The project construction site is bordered to the north, west and south by Weighbridge Road/A548. To the south, it is adjacent to an industrial site owned and operated by Tata Steel Limited, while the River Dee is located approximately 1.1 km to the south of the site.

The location of the 1<sup>st</sup> phase of the planned project activities includes the paper production machinery, storage area and shipment area of the existing paper mill.

The conversion project will transform the site from paper production to cardboard, corrugated packaging and tissue paper production. The project entails decommissioning and demolition of existing structures and construction of new facilities to accommodate new manufacturing equipment.

In Phase 1 of the project activities, a new cardboard factory will be constructed, including a new paper mill, warehouse and dispatch area, Chemical Building, Combined Heat and Power (CHP) Building & Water Treatment Plant (WTP), Effluent Treatment Plant (ETP), Recycled Fibre Building (RCF) and Pipe Bridges with the following gross construction areas;

- › Paper mill, warehouse and dispatch – 69,920 m<sup>2</sup>
- › Chemical building – 1,950 m<sup>2</sup>
- › Combined heat and power building & water treatment plant – 10,715 m<sup>2</sup>
- › Effluent treatment plant building – 9,300 m<sup>2</sup>
- › Pipe bridges – 565 lm
- › Approximate total gross area – 101,635 m<sup>2</sup>

**ENKA is responsible for preparation of the working documentation and all of the following construction and installation works of the new facility:**

- › Piling works
- › Excavation and backfilling works
- › Reinforced concrete works
- › Precast concrete column and wall installation works
- › Structural steel installation works
- › Architectural works
- › Roof insulation works
- › Mechanical installation works
- › Electrical installation works
- › External infrastructure works
- › Steel strengthening works
- › Landscaping works

| LOCATION                | CLIENT                                               | PROJECT DURATION        | CONTRACT TYPE |
|-------------------------|------------------------------------------------------|-------------------------|---------------|
| Shotton, United Kingdom | Shotton Mill Limited<br>(Modern Karton/EREN Holding) | November 2022 - Q1 2025 | Turnkey *     |

### **The works carried out on the project within 2023:**

- › Design and engineering works are currently in progress.
- › Subcontractors were mobilized to the site to perform earthworks, piling, pile breaking, reinforced concrete, precast concrete and structural steel.
- › Fabrication work for the precast concrete, steel structure, roof and facade cladding is planned and progressing.
- › Subcontractor selection was made for the tank works package.
- › Procurement activities are currently underway for the architectural works, building MEP and process MEP packages.
- › Foundation earthworks have been completed for the paper mill building, warehouse building, dispatch building, with ongoing earthwork for the CHP building, ETP building, chemical building and pipe bridges.
- › The driven piles in the paper mill building and CHP building have been installed.
- › The foundation for the paper mill building is completed.
- › The precast concrete construction is in progress.
- › Structural steel works have commenced.
- › All work activities are systematically subjected to routine quality and HSE audits, ensuring strict adherence to the Project Quality Plan and HSE Plan.

Project activities commenced in January 2023, achieving 10% overall progress by the end of the same year.

The project, excluding Process MEP, is scheduled for completion in 2025.

The workforce needed to enable the project are present on site.

As of the end of December 2023, a total of 95 days and 215,000 person-hours were expended without any lost time incident (LTI).

Seventeen ENKA project employees have obtained a Site Management Safety Training Scheme (SMSTS) certificate, while an additional 22 project employees have received Construction Skills Certification Scheme (CSCS) certificate.

### **These certifications aim to equip employees with:**

- › Profound knowledge of pertinent United Kingdom legislation essential to their job positions,
- › The development of effective communication techniques in the field,
- › Mastery of their responsibilities in occupational health and safety, along with strategies for cultivating an effective occupational health and safety culture in the field,
- › Enhancement of their competencies in adhering to industry best practices.

## YANDEX HEADQUARTERS

**On December 13<sup>th</sup>, 2021, ENKA signed a shell and core basis contract for the construction of the innovative new headquarters building for Yandex, the global technology leader, in the Gagarinsky District of Moscow, Russian Federation.**

Yandex New Headquarters Project is located on a prominent site near the Moscow River, a short distance from some of the city's leading research institutions and the company's first office. The project will consist of maximum 15 above-ground levels, covering 161,000 m<sup>2</sup> area, along with 5 underground levels spanning 98,000 m<sup>2</sup>. Additionally, it features outdoor terraces with a total area of 3,000 m<sup>2</sup>, resulting in an overall space of 262,000 m<sup>2</sup>.

The new headquarters is designed to offer employees a healthy and sustainable environment for both work and recreation. The facility will include approximately 110,000 m<sup>2</sup> of office space and 47,000 m<sup>2</sup> for parking, accommodating a total of 1,630 parking bays through a multi-parking system.

Three multi-height wings, with the tallest reaching up to 75 m, will be integrated into a unified complex featuring a skylighted central hub. Light-weight and constructible façade will be cladded with titanium panels.

The complex is lifted up to a ground floor that will connect an open public area and green spaces with neighboring streets. The continuous public space will feature restaurants, cafes, a sports complex, and the Yandex Museum showcasing the company's cultural and technological evolution since early 1990s.

The shell and core scope of works for the project has achieved a progress rate of 63%, with the anticipated completion scheduled for December 2024.

The contract for the fit-out works scope of the project was signed on 12 December 2023. The anticipated completion date for the final stage of the fit-out works is set for April 15, 2025.

The fit-out works encompass 17 floors and are divided into five stages, covering a total area of 140,344 m<sup>2</sup>.

Presently, about 2,000 employees from seven different countries are actively involved in the project.

| LOCATION                   | CLIENT     | PROJECT DURATION           | CONTRACT TYPE                            | CONTRACT VALUE                   |
|----------------------------|------------|----------------------------|------------------------------------------|----------------------------------|
| Moscow, Russian Federation | Yandex LLC | December 2021 - April 2025 | Working Design and Construction Contract | EUR 500 Million (Shell and core) |

ENKA is responsible for preparation of working documentation through BIM modeling at LOD-350 level, encompassing all subsequent construction and installation works:

- › External utilities,
- › Reinforced concrete works
- › Steel works,
- › Mechanical works,
- › Electrical and weak current works including automation,
- › Firefighting systems,
- › Architectural, façade and roofing works,
- › Internal finishing works,
- › Vertical transportation,
- › Technological systems such as parking & parking management and façade maintenance,
- › Landscaping,
- › Fit-out works.

The project has implemented HSE management systems aligned with ISO 45001:2018 and ISO 14001:2015 standards.

Utilizing an E-HSE platform for monthly reporting and incident reporting, alongside BIM360 software for inspections, hazard observations, and their subsequent follow-ups.

Approximately 115,346 person-hours of training, excluding new hire orientations, have been delivered to project employees.

Noise measurements at night are conducted monthly by a licensed institution.

A sustainability audit conducted by the Head Office in September led to the establishment of the Project Sustainability Department and all observations from the audit were addressed. Relevant procedures have been implemented under the scope of sustainability, and sustainability targets have been defined.

***Documents prepared within the scope of project-specific sustainability include:***

- › Project Sustainability and Stakeholder Engagement Plan,
- › Green Procurement Plan,
- › Material Efficiency Plan,
- › Community Liaison Implementation Plan,
- › Employee Grievance Procedure

***Actions taken within the scope of project-specific sustainability include:***

- › Initiating ethical and behavioral rules training, achieving a 95% completion rate for white-collar personnel and 98% for blue-collar personnel,
- › Conducting BREEAM awareness training for the Head Office design and project team, involving a total of 73 participants,
- › Reducing kilowatt consumption per square meter by 70% within the scope of electricity consumption,
- › Reducing the amount of waste produced per square meter by 80% within the scope of waste reduction.

***The following activities have been undertaken since the contract signing date:***

- › Substantial progress has been made in concrete works, specifically with the pouring of 43,945 m<sup>3</sup> of foundation concrete, 90,653 m<sup>3</sup> of slab concrete, 21,354 m<sup>3</sup> of wall concrete, and 12,968 m<sup>3</sup> of column concrete. Additionally, 7,508 tons of foundation rebar, 19,208 tons of slab rebar, 3,818 tons of wall rebar and 3,587 tons of column rebar installation have been executed. Structural concrete works were completed as of August 2023.
- › All of lattice beam diagrid soffit structures has been erected out of the approximate design value of 125,000 m<sup>2</sup>.
- › In specific project regions, post-tensioned concrete beam technology has been implemented, allowing for significantly larger spans compared to conventional methods and reducing beam dimensions.
- › Also, in reinforced concrete; composite column technology which consists of steel I pro-

file within a concrete column is used. The interaction of these different materials is provided by using stud-bolt elements having a shear-based behavior under loading.

- › Exposed concrete fine smooth finish comprises circular columns, lattice beam diagrid soffit, core walls, suspended slabs, edge beams and parapet walls.
- › As of the end of 2023 an approximate total of 13,400 tons of structural steel elements have been erected comprised of vertical, horizontal and roof steel structures.
- › 42,350 m<sup>2</sup> of vertical and horizontal water proofing has been executed and 2,165 pieces of retaining wall anchorage head cutting were completed.
- › A total of 14,500 m<sup>2</sup> of façade panel installation was completed.
- › 484 out of 487 units of Klaus multi-level parking system have been installed, with the remaining 3 units awaiting installation following the dismantling of the tower crane at the corresponding location.
- › Forty-two air handling units (AHUs) have been installed and the remaining 256 units are scheduled for installation before May 2024.
- › All 11 chiller units have been installed.
- › Works within the Individual heating center have been completed and hot water supply from the city is scheduled for January 2024.
- › The installation of 36,862 m of heat supply system pipes, 31,669 m of domestic sewerage and water supply pipes, 50,760 m of fire-fighting system pipes has been completed. Additionally, 38,645 m of cable tray and 400,021 m of cables were laid. The installation of 3,133 m of round ventilation section and 49,764 m<sup>2</sup> of rectangular ventilation section has been accomplished.
- › Gas-block wall installation covering 35,979 m<sup>2</sup> and the pouring of 8,675 m<sup>3</sup> of cement-sand screed have been executed.
- › Within the scope of infrastructure works (heat network, domestic sewerage network and water supply) have been completed.
- › Stormwater sewerage network work has reached 80% progress.

## HIGH TECHNOLOGICAL MULTIFUNCTIONAL MEDICAL COMPLEX (HMMC)

Constructed to meet the latest advancements in medical standards, the Multidisciplinary Medical Complex establishes a new benchmark in Russia, not only excelling in a diverse spectrum of medical care areas but also in the quality and sophistication of its medical equipment.

The High Technological Multifunctional Medical Complex consists of main hospital building covering an area of 112,000 m<sup>2</sup>; oncology building with an area of 15,000 m<sup>2</sup>, underground carpark with an area of 22,000 m<sup>2</sup>, diesel fuel tank, collector, galleries which provide connection of all buildings to each other, external works consisting of earthworks and infrastructure, and working design responsibilities are also included in the scope of works.

The complex will have a world-class range of modern diagnostic and medical equipment. It will operate its own ambulance substation, polyclinic, accident and emergency unit, trauma center and hospital.

### In the main hospital building:

- › A total of 17 operating rooms, 2 of which are hybrid,
- › 33 intensive care units, 6 of which are pediatric,
- › 395 patient beds, including 5 high VIP, 36 VIP, 32 pediatric, 32 oncology and 8 infection patient beds,
- › Laboratory that will serve both hospitals and other institutions,
- › It consists of a diagnostic section consisting of 4 MRI device rooms, 4 tomography device rooms, 6 x-ray rooms, a treatment pool and other small sections.

| LOCATION                           | CLIENT                                  | PROJECT DURATION                                                                                                                                                   | CONTRACT TYPE                                                                                                  |

### The Oncology Hospital consists of:

- › Proton therapy center integrated with the nuclear medicine center within the complex,
- › X-Ray therapy center,
- › 5 linear accelerators,
- › 1 Linear MR therapy, 3 tomography and 1 MRI device.

One of the advantages of the new complex will be high transport accessibility due to its location in the Yukkovsky residential area, at the intersection of main highways on the border of the city and the region, and the presence of a helipad on the roof, which will organize the transportation of seriously ill patients.

Constructed to meet the latest advancements in medical standards, the Multidisciplinary Medical Complex establishes a new benchmark in Russia, not only excelling in a diverse spectrum of medical care areas but also in the quality and sophistication of its medical equipment.

The complex is designed based on the principle of minimum energy consumption and maximum energy efficiency. Base on this principle building management system, heating and cooling system, and lighting systems have been completed.

The construction works including architectural, mechanical, electrical of the Multifunctional Medical Complex, oncology, underground parking and communication collector buildings were completed in 2023.

HMMC Project is in the process of being handed over to the client, involving the completion of the punch list works, testing and commissioning of engineering systems and demobilization of temporary facilities.

By the end of December 2023, the project reached 2,531,369 person-hours without any lost time incident (LTI)

Scheduled to commence patient admissions on January 9, 2024, this modern hospital is designed to provide medical care to 20,000 patients annually, thereby creating numerous job opportunities.

## SPECIAL PROJECTS

### ENKA has an agreement with Caddell Construction to provide consultancy and project services for construction of special projects.

The agreement was reached after successful collaboration of ENKA and Caddell on the construction of the US Consulate building project in İstinye, İstanbul, which was completed in 2003.

With this understanding, ENKA consulted up to the completion of special projects in Cameroon in 2005, Guinea, Mali and Sierra Leone in 2006, Algeria and Nepal in 2007, Bosnia and Herzegovina in 2010, Djibouti in 2011, Burundi in 2012, Equatorial Guinea in 2013, the Dominican Republic in 2014, Djibouti Camp Lemonnier, Mauritania, Russian Federation and the Netherlands in 2017, Afghanistan in 2019, India in 2022, Kenya and Saudi Arabia in 2023.

Further projects were awarded to Caddell Construction for 3 more special buildings with similar scope of works in Asia in 2016, 1 in South America, 1 in North America, 1 in Europe, 1 in Africa in 2017, 1 in North America in 2018 and 1 in Europe in 2021, 2 in South America, 1 in Africa and 1 in Asia in 2022. ENKA is currently involved in 11 special building projects, which have a total value of almost US\$ 3.5 billion.

Phase 1 of the project in Central Asia was completed in 2023. Design work has commenced in Phase 2

of the project, with the overall project scheduled for completion in 2027.

Phase 1 of another project in Asia was completed in July 2022. Phase 2 has started and is planned to be completed in January 2024.

Apart from those, 2 projects in Asia have been successfully completed and their guarantee periods have commenced. The 1<sup>st</sup> and 2<sup>nd</sup> Phases of the project in South America have been completed, with the 3<sup>rd</sup> phase scheduled for completion in January 2024.

The project that commenced in Europe in May 2018 is currently undergoing interior finishing and commissioning works, with all phases planned for completion in March 2025. Another project in Europe has completed mobilization, and material supply and construction works are underway. The project is planned to be completed in 2025.

A project in North America undertaken in February 2018 is progressing with ongoing concrete and interior finishing works, aiming for completion in 2024. Another project in North America, which commenced in May 2019, is advancing with continuous concrete and interior finishing works, with a planned completion in 2024.

The project in Africa commenced in January 2018. All phases of the project have been successfully completed, handed over to the employer, and the

guarantee period has started. Another new project has begun in Africa, with mobilization and earthworks currently in progress.

Mobilization, material supply works and piling works have commenced for 2 new projects in South America. Projects are planned to be completed in 2027 and 2029.

In another project in Asia, mobilization and concrete works are started. Project is planned to be completed in 2027.

1915 ÇANAKKALE BRIDGE / TÜRKİYE

# ÇİMTAŞ ÇELİK İMALAT MONTAJ VE TESİSAT A.Ş. (ÇİMTAŞ STEEL) - TÜRKİYE

Çimtaş, having successfully celebrated its 50<sup>th</sup> anniversary in 2023, continues its national and international projects by carrying its half-century experience into the future.

In 2023, Çimtaş completed the structural steel fabrication and transportation works for the Yandex Headquarters Building, situated near the Moscow River and renowned for its eye-catching design. The installation work of structural steel is currently being carried out by ENKA seamlessly.

262 Fifth Avenue Project, another significant skyscraper project located in the center of New York Manhattan, is located on 5<sup>th</sup> Avenue in New York Manhattan, 300 meters away from the historic landmark Empire State Building. With 57 floors and a height of 275 meters, Çimtaş successfully completed the connection design, fabrication, trial assembly and transportation of the structural steel for this skyscraper in 2023.

Çimtaş signed a contract with ENKA Kırklareli Elektrik Üretim A.Ş. in September 2023 as part of the structural steel supply and fabrication works for the turbine and electrical buildings of the Kırklareli Combined Cycle Power Plant, which is an investment of ENKA. Situated in Kırklareli, Türkiye, the project encompasses a total of 2,750 tons of structural steel. Fabrication and shipments are progressing according to schedule, with approximately one-fifth of the project completed by the end of 2023. The remaining fabrication is planned for completion in the 1<sup>st</sup> quarter of 2024.

Çimtaş was awarded the contract for the fabrication of the compression ring structure of the Barcelona Nou Camp Stadium in the last days of 2023. The manufacturing of

the structure, comprising 92 beams to be manufactured from a total of 6,100 tons of S460 grade high-strength steel, is planned for completion in the 3<sup>rd</sup> quarter of 2024.

The first step and one of the most crucial components of the High-Speed Wind Tunnel project, the contract for which was signed in 2021 and planned to be established at the TÜBİTAK Defense Industry Research and Development (SAGE) campus, is the Air Storage System (HDS) project. Within the scope of the HDS project, the manufacturing of 15 horizontal pressure vessels, as well as 13 large-diameter elbows providing connections between the vessels, and 1 Y-Piece channel, valves, instrumentation, and walking platforms around the system were completed. The entire scope was shipped to the SAGE campus between December 2022 and January 2023. The design, analysis, and manufacturing steps of the project were carried out by Çimtaş. As part of the project, field installation, assembly and post-assembly leak tests are also planned to be carried out by Çimtaş in 2024 after the delivery of the system foundations by SAGE.

ENKA KIRKLARELİ ELEKTRİK ÜRETİM A.Ş. PROJECT / TÜRKİYE

In 2022, Çimtaş continues the manufacturing of 5 process columns in three different contracts signed with Ica Fluor for the Salina Cruz Refinery Project, a new investment by Pemex. Çimtaş has undertaken all mechanical designs, transportation analyses, procurement, manufacturing and FAS deliveries of the columns. Two process columns, including one large column weighing 670 tons, were made ready for shipment in November 2023. The remaining three process columns are scheduled to be completed and shipped in the first quarter of 2024. With these projects, closely monitored by the Mexican government, Çimtaş has become the main pressure vessel supplier for Pemex, the country's largest company.

WIND TOWERS FABRICATION

In May 2023, Çimtaş signed a contract with Star Refinery A.Ş., a subsidiary of SOCAR, to supply one debutanizer condenser. The project involves Çimtaş taking on the mechanical design, procurement and manufacturing aspects. The heat exchanger in this project contains a significant amount of monel alloys and requires monel weld overlay, making it a special piece of equipment. The engineering and procurement stages of the project have been completed, and manufacturing is ongoing with delivery scheduled for March 2024.

With low-carbon, sustainable, clean energy targets and the determination of global authorities, wind energy has maintained its sectoral priority in energy projections.

To address this growing demand, Çimtaş, an important turbine tower supplier in the European continent, achieved a significant milestone in 2023 by propelling

ENKA to the forefront in the field of ENR - Wind Generation.

In 2023, Çimtaş carried out a total of 105,000 ton of production with the ongoing production in its Gemlik and Gölçük facilities and renewed its production record in 2022. While 90% of the production is exported, the project destinations are spread across the European continent, including Spain, Croatia, Serbia, Netherlands, Finland, Poland, Germany, England and Sweden.

The rotor and stator business line, being one of the wind turbine energy converter parts with narrow tolerance and precision machining, which has been running for 6 years, continued until the end of the 1<sup>st</sup> quarter of 2023, and the total production during this period reached 1,130 units. In addition to domestic deliveries, 60% of the production was exported and shipped to Portugal.

SOCAR PETKIM HEAT EXCHANGER / TÜRKİYE

YANDEX HEADQUARTERS / RUSSIAN FEDERATION

# CIMTAS BORU İMALATLARI VE TİCARET LTD. ŞTİ. (CIMTAS PIPE) – TÜRKİYE

Located in Gemlik, Türkiye, Cintas Pipe is a leading provider of Integrated Piping Solutions (IPS) for top-tier global customers in power, oil and gas, petrochemicals, mining, metal, nuclear and offshore industries worldwide.

Cintas Pipe engineers, fabricates, assembles, and installs high pressurized piping systems, process skids, and preassembled units for power and petrochemical plants as well as conducting material procurement and manufacturing longitudinally submerged arc welded (LSAW) pipes, butt weld fittings, induction bends, and branch connections to the highest international standards.

In 2023, Cintas Pipe fabricated over 21,285 tons of process and power pipe spools and manufactured 2,525 tons of butt weld fittings, induction bends, branch connections, and 14,530 tons of LSAW pipes for 22 projects. In addition to its fabrication and manufacturing activities, Cintas Pipe provided 141,600 person-hours of multi-disciplinary engineering services and procured 28,465 tons of steel piping and support materials for the following projects:

## Oil & Gas Projects:

- › Bechtel – Pluto LNG (LSAW Pipe Fittings and Pipe Spools)
- › Bechtel – Corpus Christi LNG Project - (LSAW Pipe, Fittings and Pipe Spools)
- › Bechtel – Port Arthur LNG (LSAW Pipe, Fittings and Pipe Spools)
- › Bechtel – Rio Grande LNG (LSAW Pipe, Fittings and Pipe Spools)
- › Baker Hughes – Desuperheaters (Pipe Spools)
- › Kinetics Technology S.p.A. - HBO Project (Pipe Spools)
- › Kinetics Technology S.p.A. - Rijeka Refinery Project (LSAW Pipe and Pipe Spools)
- › Çimtaş Steel – Yandex Headquarters Project (LSAW Pipe)

- › Çimtaş Shipyard – Subsea 7 Installation Aids (LSAW Pipe)
- › Erciyas – Benin Pile Pipe Project (LSAW Pipe)
- › Komotini Refinery (LSAW Pipe)
- › Chiren Gas Storage (LSAW Pipe)
- › SOCAR (Engineering Services)

## Power (Fossil, Nuclear and Renewable Energy) Plant Projects:

- › ENKA - Tripoli West 671 MW Simple Cycle Power Plant (LSAW Pipe, Fittings and Pipe Spools)
- › ENKA – Hinkley Point C Nuclear Plant – IP/LP Spool Fabrication for Power Island Piping (Pipe Spools)
- › GE - Hinkley Point C Nuclear Plant – L40 HP Spool Fabrication, HP Turbine Inlet Piping, IP & LP Piping and Cross Under Pipes (LSAW Pipe, Fittings and Pipe Spools)
- › GE - Turbine Piping - 6B, 6F, 9E, 9F, 9FA and 9HA (Pipe Spools)
- › GE Power - Dolna Odra 1.4 GW Power Plant (Pipe Spools)
- › MPW Americas - IPP Power Plant External Piping (Pipe Spools)
- › MPW Americas (Engineering Services)

## PLUTO LNG TRAIN 2 PROJECT IN WESTERN AUSTRALIA - BECHTEL

**Award Date:** 2021

Cintas Pipe has manufactured 1,981 tons of butt weld fittings, 9,231 tons of LSAW pipes and supplied 7,329 tons of materials in carbon, low temperature carbon and stainless-steel within integrated piping solution strategy.

Project is scheduled to be completed in 1<sup>st</sup> quarter of 2024 with 16,500 tons of spool fabrication.

## CORPUS CHRISTI LNG PROJECT IN TEXAS, USA - BECHTEL

**Award Date:** 2022

Project started in February 2022, involving the manufacturing of 890 tons of butt weld fittings and 5,500 tons of LSAW pipes at Cintas Pipe facilities, encompassing carbon, low-temperature carbon and stainless-steel metallurgies. Additionally, 8,500 tons of materials have been outsourced from the supply-chain.

Within 2023, Cintas Pipe has fabricated more than 7,000 tons of prefabricated pipe spools. The project is planned to be completed in the 3<sup>rd</sup> quarter of 2024 with a targeted total of 14,500 tons of pipe spool fabrication.

**PORT ARTHUR LNG PROJECT IN TEXAS, USA - BECHTEL****Award Date:** 2023

The project commenced in February 2023 with the manufacturing of 660 tons of butt weld fittings and 4,616 tons of LSAW pipes at Cimtas Pipe facilities in carbon, low temperature carbon and stainless-steel metallurgies. Additionally, 1,924 tons of materials have been outsourced from the supply-chain. Manufacturing and procurement activities will be continued in 2024 and 2025 with the new releases. The total project scope is 30,000 tons. The fabrication of pipe spools started in November 2023 and is scheduled to be completed in December 2025.

**RIO GRANDE LNG PROJECT IN TEXAS, USA - BECHTEL****Award Date:** 2023

Project started in 2023 with manufacturing of 104 tons of butt weld fittings and 2,190 tons of LSAW pipes at Cimtas Pipe facilities in carbon, low temperature carbon and stainless-steel metallurgies. Additionally, 1,318 tons of materials have been outsourced from the supply-chain. Manufacturing and procurement activities will continue in 2024 and 2025 with the new releases. The total scope of the project is 25,000 tons; the pipe spool fabrication will commence in January 2024 and is scheduled to be completed in April 2026.

**TRIPOLI WEST 671 MW SIMPLE CYCLE POWER PLANT IN LIBYA - ENKA****Award Date:** 2022

In 2023, Cimtas Pipe completed a total 316 tons of pipe spools for this project.

**HINKLEY POINT C NUCLEAR POWER PROJECT IP/LP SPOOL FABRICATION IN THE UK - ENKA UK****Award Date:** 2022

Cimtas Pipe will fabricate medium and low-pressure piping systems weighting 2,400 tons for ENKA UK as part of its contract, covering all piping systems for the power island at Hinkley Point C Nuclear Power Station. As part of the integrated piping solutions approach, Cimtas Pipe's products consisting of 770 tons of LSAW pipes, 225 tons of elbows and tees in alloy, stainless and carbon steel material grades, were completed in 2022 and are being used for the fabrication of this scope. Shop pre-fabrication of the medium and low-pressure piping systems commenced in October 2023 and planned to continue until the 2<sup>nd</sup> quarter of 2025.

**HINKLEY POINT C NUCLEAR POWER PROJECT IN THE UK - GE****Award Date:** 2022

GE awarded the fabrication of 2,300 tons of L40 High Pressure (HP) Pipe Spools, 1,120 tons of L20 High Pressure Pipe Supports, 30 tons of ST301 HP Turbine inlet piping fabrication and 350 tons of L05 Cross Under Pipe fabrication as part of the Hinkley Point C Nuclear Power Project. The fabrication of L40 Pipe Spools commenced in the 2<sup>nd</sup> quarter of 2022 and was carried out the entire 2023. The project is anticipated to be completed and shipped within the 1<sup>st</sup> quarter of 2024. Additionally, the fabrication of L05 Cross Under Pipe was carried out successfully, meeting the deadline and shipped in September 2023. The completion of ST301 HP Turbine Inlet Piping is scheduled within the year 2023.

**TURBINE PIPING IN FRANCE - GE****Award Date:** Multiple orders since 2002.

During 2023, Cimtas Pipe and GE Power continued their business relationship by collaborating on several projects and ongoing turbine piping fabrication works. Since 2002, Cimtas Pipe has fabricated over 6,500 tons of pipe spools for turbine piping, specifically for GE's 6B, 6F, 9E, 9F, 9FA and 9HA turbines. In 2023, a total of 73 tons of pipe spools for GE gas turbines were fabricated and delivered worldwide.

**DOLNA ODRA IN POLAND - GE****Award Date:** 2021

Cimtas Pipe received two purchase order packages from GE to provide 900 tons of L41 and L42 pipe spools in carbon, stainless and alloy steel pipes including material supply service for the Dolna Odra Power Station. Dolna Odra project was completed in 2023 in accordance with EN 13480 standard.

**IPP POWER PLANTS IN UTAH, USA - MITSUBISHI POWER AMERICAS****Award Date:** 2022

Mitsubishi Power Americas awarded Cimtas Pipe with the contract for external piping works for IPP Power Plants. The project was completed in 2023 with the shipment of 151 tons of pipe spools.

**RIJEKA REFINERY UPGRADE PROJECT IN CROATIA - KINETICS TECHNOLOGY S.P.A.****Award Date:** 2021

The project, involving 2,070 tons of piping and 260 tons of supports, was completed in 2023.

**HBO PROJECT IN POLAND - KINETICS TECHNOLOGY S.P.A.****Award Date:** 2023

Cimtas Pipe started the fabrication and delivery of carbon steel pipe spools in 2023. The project, encompassing 1,007 tons of piping and 138 tons of support, is scheduled for completion in 2024.

**ENGINEERING SERVICES IN TÜRKİYE - SOCAR****Award Date:** 2023

In 2023, Cimtas Pipe performed engineering services for over 50 projects at Petkim Petrochemical Plant, Star Refinery and SOCAR Storage Facility. The scope of work for SOCAR includes process engineering, process safety, plant design and piping, instrumentation and control, electrical, mechanical, structural, and civil design activities.

**ENGINEERING SERVICES, IN USA - MPW AMERICAS****Award Date:** 2023

Cimtas Pipe signed a contract with MPW Americas in 2023, which involved engineering services for the modularization of the complete Gas Turbine Enclosure, encompassing plant and piping, pipe stress and support, structural, instrumentation and control, and electrical design. The product is designed to meet the most challenging design conditions, allowing it to be constructed modularly anywhere in the USA.

## CIMTAS NINGBO MODULAR SKIDS & PIPE SPOOLS (CIMTAS NINGBO) - CHINA

**Cimtas Ningbo is a market-leading company providing high-quality spool fabrication and rigorously assembles skids, jigs and modules. The company established operations in China in 2002 and enlarged its capacity via custom-designed manufacturing technologies in 2019.**

Cimtas Ningbo serves the market with 55,250 m<sup>2</sup> of land and 31,680 m<sup>2</sup> of covered area with approximately 500 employees.

In 2023, Cimtas Ningbo successfully delivered more than 380,000 diameter-inches of gas turbine, boiler, steam turbine piping, assembled skid and turbine auxiliary module systems and quick-disconnect clamp assembly components to its customers, reaching its highest revenue from the establishment. In addition, Cimtas Ningbo has successfully renewed its ASME, ISO27001 and EN1090-1/EN1090-2 certifications.

Thanks to its strong sense of responsibility and dedication of its employees, Cimtas Ningbo surpassed 2023 Covid spread during China opening period smoothly and completed its projects on time without any delays.

In line with sustainability targets, Cimtas Ningbo utilized green energy by implementation of solar panels which supplies approximately 50% of its electric consumption. Our commitment to decarbonization is extended with Renewable Energy Certification (REC) to cover the remaining portion of the electric supply from the grid.

In 2023, Cimtas Ningbo achieved successful deliveries of gas turbine piping accompanied by jig assemblies, skids and modules for Mitsubishi Heavy Industries projects. These projects are as follows:

- › CFE Salamanca, Mexico
- › CFE San Luis Potosi, Mexico
- › CFE Valladolid, Mexico
- › CFE Merida, Mexico
- › Novo Tempo Barcarena, Brazil
- › Intermountain Power Plant, USA
- › Alba Power Station, Bahrain

- › Tashkent Thermal Power Cogeneration, Uzbekistan
- › Qingdao Energy Kaiyuan, China

Cimtas Ningbo continues to strengthen its partnership with Mitsubishi Power, concentrating on delivering engineering solutions that optimize cost efficiency and standardization across their entire product range.

A noteworthy milestone was achieved in 2023, as Cimtas Ningbo successfully assembled and delivered the largest quantity of Modular Skid Enclosures and gas turbine piping, including turbine auxiliary components, since the establishment of the facility. This accomplishment not only signifies a significant achievement but also places the company at the pinnacle of its production capacity. Additionally, Cimtas Ningbo has been honored with the prestigious Certificate of Appreciation for 2023 from Mitsubishi Heavy Industries, recognizing its exceptional contributions.

In collaboration with Siemens Energy, Cimtas Ningbo has manufactured gas turbine piping for their facilities in China, Germany and the United States. Its partnership with Siemens Energy in 2023 has been marked by significant achievements, including the receipt of two prestigious awards: the Siemens Energy Certificate of Appreciation and the Siemens Energy Recognition Award.

During the course of 2023, Cimtas Ningbo has successfully provided piping systems to numerous power plants located worldwide. The projects listed below have contributed to the growth of the company and strengthened its reputation as a reliable supplier of high-quality piping solutions.

- › SCC5-8000H Yuehua Huangpu Power Station, China
- › SMC Batangas LNG Combined Cycle Power Plant, Philippines
- › Shenzhen Dongbu Power Plant Phase II Project, China
- › Mawan Upgrading CCGT Phase I, China
- › Les Awirs Power Station, Belgium
- › Pioneer Generation Station, USA
- › CCC González Ortega Power Station, Mexico
- › CCC San Luis Río Colorado Power Station, Mexico
- › Manzanillo Power Land Power Station, Dominican Republic
- › CCC Tuxpan Phase I Power Station, Mexico

In the modular “Auxiliary Integrated Packages” business line with Siemens Energy, Cimtas Ningbo has actively participated in the production of significant projects, including completed SGT6-9000HL LNG-to-Power UTE GNA II Project in Brazil, Tuxpan Phase I Plant Project in Mexico. Furthermore, the production for the Mintia-Deva power station in Romania is on-going.

In 2023, Cimtas Ningbo proudly continued its long-standing partnership with General Electric as their trusted global solution partner in the energy market. Our commitment to excellence and quality was recognized through notable achievements and significant progress made throughout the year. One of the highlights of our partnership with General Electric was receiving the prestigious “General Electric - Excellence in Quality” award. This recognition reflects our unwavering dedication to delivering exceptional products and services, solidifying our position as a reliable and trusted partner in the industry.

Throughout 2023, Cimtas Ningbo successfully supplied piping systems to various power plants across different locations globally. Some of the notable power plants the company had the privilege to work with include:

- › Nhon Trach Power Station, Vietnam
- › Orot Rabin Power Station, Israel
- › Hamriyah IPP Power Station, UAE
- › Agios Nikolaos Power Station, Greece
- › Plant Crist, USA
- › Ostroleka Power Station, Poland
- › Seraing Power Station, Belgium
- › Besmaya CCGT-13, Iraq
- › CFE HQ Manzanillo III Power Plant Project, Mexico
- › NVE Silverhawk Power Station Project, USA
- › Guoxin Gaoyou Gas Thermal Power Station, China
- › Kindle Energy Magnolia Power Plant Project, USA
- › Okeechobee Clean Energy Center, USA
- › Huaibei Pingshan Power Station, China
- › Taichung Combined Cycle Power Plants Project, Taiwan
- › Guoxin Yizheng Gas Thermal Power Station, China
- › Köln-Niehl Combined Cycle Heat and Power (CHP) Plant Project, Germany

Furthermore, Cimtas Ningbo has been bestowed with the Excellent Supplier Award by Toshiba Energy Systems & Solutions. In 2023, we accomplished the fabrication and shipment of the following various steam turbine piping projects, further solidifying our position as a reliable and accomplished partner.

- › CFE San Luis Potosi, Mexico
- › Vung Ang II, Vietnam
- › Tanawon Geothermal, Philippines

## ÇİMTAŞ HASSAS İŞLEME SANAYİ VE TİCARET LTD. ŞTİ. (ÇİMTAŞ PRECISION MACHINING) - TÜRKİYE

Çımtaş Machining stands as a leading company in the power and aerospace industries by manufacturing structural and rotating gas turbine components directly to the Original Equipment Manufacturers.

Çımtaş Machining has expanded its product range in 2023, notably with the award of advanced parts for GE Vernova's H-class turbines, specifically the 7HA and 9HA. The highlight of these contributions are the AFT frames for 7HA and 9HA turbines, which are integral to the combustion modules. These parts, crafted from nickel-based superalloys, demand high precision and complex manufacturing processes, including 5-axis turning and milling, electron beam welding, and 5-axis fast hole electro discharge drilling.

The company also initiated production of unisleeves and flow sleeves for H-Class turbines, following the previous completion of liner and transition piece parts. These components are characterized by their intricate hydraulic forming, high-velocity oxygen fuel coatings for wear resistance and precision robotic welding.

COMBUSTION CHAMBER TRANSITION ART FRAME / USA

To meet GE's varied technology needs, Çımtaş Machining started producing diverse fleet components like AFS bosses and flanges, successfully launching serial production of 11 different variants.

Repair and refurbishment of gas turbine parts also emerged as a new business line. This includes the refurbishment of 9HA combustion casings and Flow Sleeves, utilizing chemical cleaning, weld build-up, stripping, re-coating, and machining. The first orders were delivered in 2023 to GE's Belfort turbine assembly facility and Toshiba GE turbine services in Yokohama.

The 5-year contract with GE Vernova exceeded with a 50% higher volume than projected for 2023, and orders secured for 2024 have already doubled the contractual volume. Despite facing global supply challenges for nickel-based superalloys, Çımtaş has ensured customer needs are met through expedited procurement and production.

Çımtaş Machining is also involved in concurrent engineering projects like GE's 7HA.03 Advance Gas Path upgrade, Siemens' Rotating Olefins Cracker Phase-2 and Bechtel's cooling ejectors, contributing to cost efficiency, quality, manufacturability and technological advancements.

Collaborating strategically with Baker Hughes, Çımtaş Machining has begun producing parts for Baker Hughes' latest turbines, Nova LT12 and LT16, leading to new opportunities including in Saudi Arabia.

The company continues its partnerships with GE Aerospace, Rolls Royce and TAI, and has successfully met the standards of seven National Aerospace and Defense Contractors Accreditation Program (NADCAP) certification audits.

HIGH PRESSURE COMPRESSOR ROTATING SEAL LOCK / USA

# ÇİMTAŞ GEMİ İNŞA SANAYİ VE TİCARET A.Ş. – TÜRKİYE

In 2023, Çimtaş Shipyard completed the fabrication of 67,402 tons reaching Çimtaş' highest annual wind tower production weight. By exporting all products to Europe, the company has also attained its highest annual export tonnage to date.

Within the fabrication scope for first subsea project of Turkish Petroleum Sakarya Gas Field Development Project, commenced in last quarter of 2022, Çimtaş Shipyard completed the fabrication and delivery of high-pressure service gas transmission piping (Rigid spool) and the temporary parts (Installation Aids) in 2023.

Çimtaş Shipyard continued building of two chemical tankers with a capacity of 6,000 DWT in 2023. Furthermore, a contract has been signed for two more chemical tankers of the same design and their building will commence in 2024.

Çimtaş Shipyard has started the structural steel fabrication for the Kırklareli Natural Gas Combined Cycle Power Plant Project and will complete its scope and ship its scope in early 2024.

In 2023, within the scope of Turkish Petroleum - Sakarya Gas Field Development Project (Phase-2), Çimtaş Shipyard signed a contract for the first subsea manifolds and suction piles fabrication in Türkiye, which is planned to be completed in 2024.

# KASKTAŞ KAYAR KALIP ALTYAPI SONDAJ KAZIK VE TECRİT A.Ş. - TÜRKİYE

**Kasktaş started ground engineering and foundation works in 1957 as an internal department of ENKA and was transformed into an individual company in 1975.**

JEDDAH ISLAMIC PORT PROJECT SHORING WORKS / SAUDI ARABIA

As of the end of 2023, with a total of 309 employees including 57 technical and 46 administrative personnel, Kasktaş offers high-quality and economical solutions through its staff experienced in geotechnical design and all types of soil engineering and its special geotechnical machinery and equipment. In addition to having a large and modern machinery park, the company continues to add new machinery and equipment to its fleet in order to meet the current requirements in the area of soil engineering.

Having successfully completed Third Party Inspection of the ISO 9001 Quality, ISO 14001 Environmental and ISO 45001 Occupational Health & Safety Management Systems, administered by BSI in 2023, Kasktaş upholds its operations with an unwavering commitment to quality.

The Environmental and Occupational Health and Safety System, which had been established in the company headquarters and the main workshop earlier in 2007, was expanded in the 1<sup>st</sup> half of 2009 to encompass all construction sites both in Türkiye and internationally. Additionally, Kasktaş' affiliate in Saudi Arabia has implemented the ISO 14001 Environmental and ISO 45001 Occupational Health & Safety Management Systems, obtaining certification from BSI in 2009.

Kasktaş commenced the year of 2023 with 10 ongoing projects and additional 8 new projects were also undertaken during this period. The major projects completed by Kasktaş in 2023 are presented below:

## Türkiye

- › Akkuyu Nuclear Power Plant Pump Stations and UZP Structures Shoring Works
- › Akkuyu Nuclear Power Plant 50UZQ & 60UZQ Piling Works
- › Akkuyu Nuclear Power Plant 11UQF Soil Improvement Works
- › DSI Ankara Süleymanlı Dam Lake Slurry Wall Works
- › DSI Çorum Sungurlu Dam Lake Slurry Wall Works
- › MBE Metro Project TOKİ Station Shoring Works
- › ENKA Kırklareli Elektrik Üretim A.Ş. 850 MW Natural Gas Combined Cycle Power Plant Piling Works

## Saudi Arabia

- › Jeddah Islamic Port Project Shoring Works
- › King Abdullah Financial District Project Shoring Works
- › Qiddiyah City Rock Stability Works

ENKA KIRKLARELİ ELEKTRİK ÜRETİM A.Ş. 850 MW NATURAL GAS COMBINED CYCLE POWER PLANT PILING WORKS / TÜRKİYE

### AKKUYU NUCLEAR POWER PLANT PUMP STATIONS AND UZP STRUCTURES SHORING WORKS

Following the completion of 10UQA, 20UQA, 11&22 UZP and 12 UZP Structures within the scope of the Akkuyu Nuclear Power Plant Project in Mersin, a contract was signed with IC İctaş Nükleer A.Ş. for the shoring works of 30UQA and 21&32 UZP Structures.

The scope of all contracts includes a total of 45,000 m<sup>2</sup> of diaphragm wall, 4,000 m<sup>3</sup> of barrette pile, 199,000 m of jet grout, 69,000 m of SBMA anchor and 342,000 m<sup>3</sup> of excavation works.

The project commenced in 2020. In 2023, 25,000 m of SBMA anchor and 171,500 m<sup>3</sup> of excavation were executed. The remaining excavation work is planned to be completed as of April 2024.

### AKKUYU NUCLEAR POWER PLANT 50UZQ & 60UZQ PILING WORKS

Following the works at 50UZQ area, the contract for the 60UZQ piling works within the scope of the Akkuyu Nuclear Power Plant, located in Mersin, was signed with Cengiz İnşaat. The project includes a total of 17,500 m of secant pile.

The project commenced in 2022. In 2023 the project was completed by executing 16,500 m of secant pile.

### AKKUYU NUCLEAR POWER PLANT 11UQF SOIL IMPROVEMENT WORKS

The contract for the 11UQF soil improvement works within the scope of the Akkuyu Nuclear Power Plant in Mersin was signed with TSM Enerji. The contract includes the execution of 7,000 m of jet grout.

The project commenced in 2023 and all contracted works were successfully executed within the same year, leading to the timely completion of the project.

### DSİ ANKARA SÜLEYMANLI AND ÇORUM SUGURLU DAM LAKES SLURRY WALL WORKS

General Directorate of State Hydraulic Works is building dams in Ankara and Çorum in order to expand modern irrigation in agriculture, ensure maximum benefit from agricultural lands, deliver healthy and potable water to the taps and protect settlements and agricultural lands against flood risks. Within

the scope of these dams, contracts were signed with DNZ İnşaat and Baraj Grup İnşaat for the slurry wall works of Ankara Bala Süleymanlı Dam Lake and Çorum Sungurlu Dam Lake. The slurry wall works encompass 5,000 m<sup>2</sup> for the Süleymanlı Lake and 12,500 m<sup>2</sup> for the Sungurlu Lake.

Both projects started in 2023 and were completed, involving a total of 17,500 m<sup>2</sup> of slurry wall installations.

### MBE METRO PROJECT TOKİ STATION SHORING WORK

The contract was signed with İctaş for the TOKİ Station shoring works within the scope of the Mahmutbey – Bahçeşehir – Esenyurt Metro Line Project, which is under construction by the Istanbul Metropolitan Municipality. The project includes 32,000 m<sup>3</sup> of diaphragm wall, 10,000 m<sup>3</sup> of barrette pile, 2,000 m of secant pile and 2,000 m of tangent pile.

The project commenced in 2022 and 23,500 m<sup>3</sup> of diaphragm wall was completed in 2023. The remaining barrette pile work is scheduled for completion by March 2024.

### ENKA KIRKLARELİ ELEKTRİK ÜRETİM A.Ş. 850 MW NATURAL GAS COMBINED CYCLE POWER PLANT PILING WORKS

The contract was signed with ENKA İnşaat for the piling works within the scope of the Kırklareli 850 MW Natural Gas Combined Cycle Power Plant Project, located in Kırklareli. The project consists of 4,000 m of bored pile.

The project commenced in 2023 and was completed by executing all the work within the year.

### JEDDAH ISLAMIC PORT PROJECT SHORING WORKS

The contract was signed with PC Marine Services for the shoring works of the Jeddah Islamic Port Berths. The scope of the contract encompasses 23,000 meters of bored pile and 9,500 meters of anchor works. Jeddah Islamic Port is not only at the critical location of the international shipping route between the East and West via the Suez Canal but also one of the biggest ports in Saudi Arabia.

The project commenced in 2023 and 13,000 m of bored pile and 3,000 m of anchor works were completed within the year. The remaining works are planned to be completed by March 2024.

QIDDIYAH CITY ROCK STABILITY WORKS / SAUDI ARABIA

DSİ ANKARA SÜLEYMANLI SLURRY WALL WORKS / TÜRKİYE

MBE METRO PROJECT TOKI STATION SHORING WORKS / TÜRKİYE

#### KING ABDULLAH FINANCIAL DISTRICT PROJECT SHORING WORKS

The contract was signed with Taj Dhabi for the works within the scope of the King Abdullah Financial District to be established in Riyadh. The scope of the project encompasses shoring works and the design process for these works is currently in progress.

The project is planned to begin as of January 2024.

#### QIDDIYAH CITY ROCK STABILITY WORKS

The contract was signed with El Haif Company for the rock stabilization works within the scope of the Qiddiyah City Project Upper Plateau which will be built 45 km from the city of Riyadh as an entertainment megaproject. The contract consists of 123,000 m of anchor and 41,000 m of rock bolt works.

The project commenced in 2021. In 2023, the project was completed by executing 47,000 m of anchor and 33,000 m of rock bolt works.

#### JK ERA COMPLEX SHORING WORKS

The contract was signed with Ant Yapı for the shoring works within the scope of the JK Era Complex

located in Moscow. The project consists of 6,500 m<sup>3</sup> of diaphragm wall.

The project commenced in 2023 and was completed by executing all the work within the year.

#### JK EVER COMPLEX ANCHOR WORKS

The contract was signed with Ant Yapı for the execution of anchor works as the horizontal support element within the scope of the JK Ever Complex located in Moscow. The project consists of 4,000 m of anchor.

The project commenced in 2022. In 2023, the project was completed by executing 1,000 m of anchor.

#### JK ONEST COMPLEX PILING WORKS

The contract was signed with Antteq for the piling works within the scope of the JK Onest Complex located in Moscow. The project includes 1,200 m of bored pile and 84 of pile bottom injection.

The project commenced in 2022. In 2023, the project was completed by executing 500 m of bored pile and 64 of pile bottom injection.

#### OSTROV 6 PROJECT SHORING WORKS

The contract was signed with Ant Yapı for the shoring works within the Ostrov 6 Project located in Moscow. The project consists of 6,000 m<sup>3</sup> of diaphragm wall and 8,000 m of anchor works.

The project commenced in 2021. In 2023, the project was completed by executing 1,000 m of anchor.

#### TVERSKAYA 7 TELEGRAPH BUILDING PILING WORKS

The contract was signed with Ant Yapı for the piling works within the Tverskaya 7 Telegraph Building Project located in Moscow. The project consists of 7,000 m of secant pile.

The project commenced in 2023 and was completed by executing all the work within the year.

#### VARSHAVSKOYE SHOSSE 25 HOUSING PROJECT PILING WORKS

The contract was signed with Bolshaya Medveditsa for the piling works within the scope of the Varshavskoye Shosse 25 Housing Project located in Moscow. The project involves the installation of 36

bored piles and the execution of 4 pile loading tests. All works have been completed in the project started in 2023.

#### VETKINA HOUSING PROJECT PILING WORKS

The contract was signed with MR Group for the piling works within the scope of the Vetkina Housing Project located in Moscow. The project encompasses the installation of 20 bored piles and the implementation of 4 pile loading tests. All works have been completed in the project started in 2023.

#### VICTORY PARK PROJECT SOIL IMPROVEMENT AND PILING WORKS

The contract was signed with Antteq for the soil improvement and piling works of the Victory Park Project, which is being built in Moscow as a multifunctional elite residential complex. The project consists of 7,000 m of bored pile, 8,000 m of anchor and 14,000 m of jet grout.

The project commenced in 2021. In 2023, the project was completed by executing 3,500 m of bored pile, 4,000 m of anchor and 12,000 m of jet grout works.

ADAPAZARI AND GEBZE NATURAL GAS COMBINED CYCLE POWER PLANTS / TÜRKİYE

# ADAPAZARI ELEKTRİK ÜRETİM LTD. ŞTİ. GEBZE ELEKTRİK ÜRETİM LTD. ŞTİ. İZMİR ELEKTRİK ÜRETİM LTD. ŞTİ.

**In 1997, a partnership between ENKA by 40% and InterGen by 60% was awarded by the General Directorate of Turkish Electricity (TEAŞ) and the Ministry of Energy and Natural Resources to carry out the turnkey construction and operation of three natural gas combined cycle power plants in Gebze, Adapazarı and İzmir with a total installed capacity of circa 4,000 MW under the Build-Own-Operate (BOO) scheme.**

The projects commenced in 2000 and the turnkey construction of the Gebze, Adapazarı and İzmir natural gas combined cycle power plants was awarded to the Bechtel-ENKA Joint Venture (BEJV). The Gebze and Adapazarı plants were commissioned in 2002 and the İzmir plant in 2003. Consequently, ENKA, together with its partner InterGen, emerged as the largest private sector electricity producer in Türkiye. During operation period, ENKA acquired the shares of its partner InterGen, establishing itself as the sole owner of the power generation companies.

The Electricity Sale agreements and the Natural Gas Sale Contracts reached their expiration at the end of the BOO period in 2019. Following the BOO period, the power plants obtained generation licenses and commenced operation in the merchant electricity market.

In 2023, the ENKA power plants generated circa 5.0 billion kilowatt-hours of electricity, contributing to a cumulative total of over 465 billion kilowatt-hours throughout their operational history. With an annual production capacity of 32 billion kilowatt-hours, these power plants have the potential to fulfill 10% of Türkiye's total energy consumption.

Throughout the operational period, ENKA has enhanced the infrastructure of its power plants, investing in cutting-edge technology through the implementation of the "Advanced Gas Path and DLN2.6+ Upgrade." This industry-leading technology has not only improved fuel efficiency but has also reduced the emission footprint, while enhancing operational flexibility and reliability.

The ENKA power plants hold certificates of ISO 45001 Occupational Health and Safety Management System, ISO 14001 Environmental Management System, ISO 27001 Information Security Management System, ISO 9001 Quality Management System, and ISO 50001 Energy Management System. Regular audits are conducted to ensure compliance with these certifications.

Furthermore, the Energy Market Regulatory Authority (EPDK) has issued ENKA Enerji Ticaret A.Ş. with an electricity supply license and a natural gas import (spot market) license. These licenses empower ENKA Enerji to participate in wholesale/retail activities in both electricity and gas markets.

GEBZE & ADAPAZARI NATURAL GAS COMBINED CYCLE POWER PLANTS / TÜRKİYE

# ENKA KIRKLARELİ ELEKTRİK ÜRETİM A.Ş. 850 MW NATURAL GAS COMBINED CYCLE POWER PLANT

**ENKA Kırklareli Elektrik Üretim A.Ş. has undertaken the construction of the Kırklareli Natural Gas Combined Cycle Gas Turbine Thermal Power Plant (CCGT-TPP) project located in Kırklareli city in Türkiye as its own investment. The plant is currently being constructed in the Eriklyurdu village zone of Babaeski district of Kırklareli.**

The Notice to Proceed for the project was issued on November 11, 2022, and the project duration is 35 months from the NTP.

The works are being executed on an engineering, procurement, construction and commissioning (EPCC) basis. This encompasses engineering, manufacturing, on-site deliveries, erection works, as well as the operation, commissioning, start-up and testing of the plant.

The power plant will be based on 1x1x1 configuration, equipped with one GE's 9HA.02 gas turbine and hydrogen cooled generator (H78), one D650 steam turbine and air-cooled generator (A78), one triple pressure reheat heat recovery steam generator (HRSG) to be supplied by GE, one air cooled condenser (ACC), one gas regulating metering station (RMS) and all associated equipment and systems.

Upon completion, the plant will achieve an output of 850 MW, utilizing natural gas as its fuel source.

Detailed design documentation and procurement engineering works are ongoing, with progress on procurement related engineering (material requisition release) at 48%. The detailed design progress has reached approximately 45%.

Manufacturers have been already selected for air cooled condenser (ACC), gas regulating metering station (RMS), distributed control system (DCS), transformers, water treatment plant and switchyard.

Additionally, the planned schedule includes the delivery of gas turbine and steam turbine to the site in May 2024, with the delivery of generators for gas turbine and steam turbine to the site planned for July 2024.

The highlights of the progress made on site activities as of the end of December 2023 are as follows:

- Temporary camp facilities (with a capacity of 1,180 people), warehouses, workshop and site office erection works have been completed.
- Excavation and filling works for site leveling have been finalized. Approximately 20,000 m<sup>3</sup> of reinforced concrete has been poured out of the total 70,000 m<sup>3</sup>.
- Structural steel erection works have commenced, with 1,100 tons of structural steel already erected out of 6,595 tons.
- Sandwich panel erection works have begun and 3,350 m<sup>2</sup> of roof cladding has been achieved.

The completion progress for site construction works reached approximately 12% as of December 31<sup>st</sup>, 2023.

The total workforce at the project site by the end of December 2023 is 550, including 48 white-collar staff.

As of December 31<sup>st</sup>, 2023, a total of 942,284 person-hours or 415 days have been worked without any lost time incidents (LTI).

|-------------------------------|--------------------------------------|--------------------------------|---------------------------------------------------------------|-----------------------|
| Babaeski, Kırklareli, Türkiye | ENKA Kırklareli Elektrik Üretim A.Ş. | November 2022 – September 2025 | Engineering, Procurement, Construction & Commissioning (EPCC) | USD 462 Million + VAT |

## KAMENO SOLAR PHOTOVOLTAIC POWER PLANT

Town Up 8 LTD, a wholly owned subsidiary of ENKA, has undertaken a Solar Photovoltaic Power Plant in Burgas, Bulgaria. With a capacity of 45 MWp, the plant is planned to have an annual electricity generation capacity of 63 GWh/year.

| LOCATION         | CLIENT                     | PROJECT DURATION               | CONTRACT TYPE | CONTRACT VALUE |
|------------------|----------------------------|--------------------------------|---------------|----------------|
| Burgas, Bulgaria | ENKA İnşaat ve Sanayi A.Ş. | September 2023 – December 2024 | EPC           | EUR 40 Million |

The investment project of the company will be realised on a total area of 470,000 m<sup>2</sup> and all construction works will be carried out by subcontractors. The main quantities of the project within the project scope of work are as follows:

- › Approximately 80,000 solar panels,
- › 120 inverters
- › Approximately 1,750 tonnes of steel structure
- › 1 Substation centre building
- › 8 units field transformer and switchgear centre
- › Approximately 600 km of solar cable.

The estimated completion duration of the project is about 15 months.

The works carried out on the project by the end of 2023 December:

- › The main activities of the project have not commenced at the site. It is planned to start with steel construction erection in January 2024.
- › The construction site cleaning has been completed.
- › Improvement of connection roads to the project site is ongoing.
- › The construction of the perimeter fence has commenced.
- › Most of the main material items have been tendered and procurement procedures have been finalised.

## ENKA TC

**ENKA TC, formerly known as RamENKA, was established in Moscow in 1997 as an equal partnership between ENKA and Migros with the aim of developing shopping centers and a supermarket chain in the Russian Federation.**

KASHIRSKAYA SHOPPING CENTER / RUSSIAN FEDERATION

In November 1997, the company launched its first Ramstore hypermarket and shopping center in the Kuntsevo District of Moscow. Constructed by ENKA, the complex covered a total area of 19,400 m<sup>2</sup>.

Despite the economic crisis in the Russian Federation, the company sustained its growth. In 1998, it opened its second hypermarket and shopping center in Marinoy Roshcha.

ENKA completed the construction of the 32,500 m<sup>2</sup> Marinoy Roshcha shopping center in a remarkably short time, all while maintaining the highest quality standards.

Between 1999 and 2003, ENKA TC expanded significantly by opening 23 new stores, bringing the total number of its stores to 25 and the number of its shopping centers to 6.

The company initiated its expansion beyond Moscow, with new stores opening in Krasnoyarsk, Kazan and Nizhniy Novgorod during the same period. Despite some closures between 2004 and 2007, the overall number of stores increased to 53, and the number of shopping centers reached 10.

To fund its investments, the company made use of International Finance Corporation (IFC) and commercial bank loans in addition to its own resources. A total of USD 170 million in loans was provided by the IFC between 1998 and 2006, all of which were repaid in 2008, ahead of their maturity dates.

In addition to retail space in shopping centers, the company significantly expanded its operations by renting out office space, starting with the Vernadskogo complex in 2007.

ENKA became the sole owner of the company in 2007 by having acquired the 50% share held by Migros and renamed the company "ENKA TC".

In order to focus on real estate operations as its main line of business, ENKA TC transferred the hypermarket operations in its shopping centers to AUCHAN through rental agreements. Upon the completion of this operation, the leasable area of ENKA TC increased from 167,000 m<sup>2</sup> to 227,000 m<sup>2</sup>.

The shopping malls owned by ENKA TC which operated under the "Ramstore" brand name were re-branded "Kapitoliy" in 2009. In January 2010, the supermarket brand name "Ramstore" was changed to "Citystore".

Aligned with the company's plan to exit the retail business and focus on real estate operations, the retail assets of ENKA TC were sold off to OOO "BILLA" and OOO "BILLA REALTY" in April 2012. Following that, ENKA TC had completely exited the retail sector by the end of 2012.

The rental revenues of the company continued to grow, reaching USD 100 million in 2023.

During 2006 and 2007, two of ENKA TC's most important shopping mall developments were recognized with "Best Shopping Centre" awards by the Commercial Real Estate Committee (CRE) of the Russian Federation. The Kapitoliy Shopping Mall in St. Petersburg was honored with the "St. Petersburg's Best Shopping Centre" award in 2006, while the Kapitoliy Vernadskogo Shopping Mall in Moscow received the "Moscow's Best Large-Scale Shopping Mall" award in 2007.

The Kapitoliy Vernadskogo Shopping Mall was also selected among more than 60 nominated projects as "Best Project in the Sphere of Investment and Construction in Moscow in 2012" by the Moscow Local Administration. Later, it was chosen as the "Best Shopping Complex" at the "100 Best Office and Retail Centers in Russian Federation" awards ceremonies held in St. Petersburg in both 2017 and 2018.

The Kapitoliy Sevastopolsky Shopping Mall in Moscow was named the "Most Convenient Shopping Centre in the South-West Administrative District of Moscow" by Moscow Municipality in 2009.

Aligned with investments made for redevelopment of existing assets, ENKA TC completed the project development phase during the 2<sup>nd</sup> quarter of 2011 and commenced the redevelopment of the Kuntsevo Plaza, originally opened in 1997.

In this project, the existing building covering an area of 19,400 m<sup>2</sup> was demolished and a new, modern complex with a total area of 245,000 m<sup>2</sup> was constructed.

The complex consists of a shopping mall, office buildings and a small number of apartment units. The shopping mall opened its doors upon the completion of construction works at the end of 2014, while the construction of the office buildings was completed in the 2<sup>nd</sup> quarter of 2015. The shopping mall boasts a net leasable area of 61,000 m<sup>2</sup> and the office building a net leasable area of 29,094 m<sup>2</sup>. Additionally, there is an underground parking lot with capacity for 2,028 cars. The total investment cost amounted to USD 484 million.

KASHIRSKAYA SHOPPING CENTER / RUSSIAN FEDERATION

KUNTSEVO SHOPPING CENTER / RUSSIAN FEDERATION

The Kuntsevo re-development project was presented with several awards:

- › The 2012 “Cityscape Future Retail Award in Emerging Markets” at the International Conference for Global Real Estate took place in Dubai, where 36 nominated projects from 13 different countries were showcased.
- › The “Best Shopping Centre” award from the Russian Council of Shopping Centers (RCSC) was received in April 2015.
- › The “Best Retail Architecture Russian Federation”, “Best Retail Development (5 Stars) Russian Federation” and “Best Retail Development Europe” awards at the International Property Awards were received in 2016.
- › The “Best Office Complex” and “Best Shopping Complex” awards were received at the “100 Best Office and Retail Centers in Russian Federation” award ceremony held in St. Petersburg in both 2017 and 2018.

Additionally, Kuntsevo Plaza achieved recognition as one of the Russian Federation’s 37 certified green investment projects by obtaining a green building certificate (Green Standard – GOLD) in April 2013.

In the 2<sup>nd</sup> quarter of 2013, the construction of a shopping mall at Sergiev Posad in the Moscow Region, commenced. The mall opened for retail operations at the beginning of September 2014, featuring a total area of 36,750 m<sup>2</sup>, a leasable area of 24,883 m<sup>2</sup>, and a car park with capacity for 696 cars. This project involved an investment of USD 59 million.

In the 4<sup>th</sup> quarter of 2015, construction work began on the construction of the new Kashirskaya Shopping Mall, replacing the existing mall, which had been demolished to make way for it. The new building boasts a total area of 196,750 m<sup>2</sup> and a leasable area of 70,000 m<sup>2</sup>. The total investment cost, including construction, design, infrastructure works, approvals, road works etc., amounted to USD 232 million. The new shopping mall commenced operations in March 2018.

Kashirskaya Plaza has been honored with several important awards:

- › The “Best Shopping Centre” among projects at the implementation stage in the “Large Shopping Centers” category at the RCSC Awards in 2018.
- › The winner of the prestigious international European Property Awards in two nominations (Retail Architecture, Moscow, Russian Federation; Retail Development, Moscow, Russian Federation) simultaneously in 2018.
- › The “Best Large Shopping Center” in the Commercial Real Estate Moscow Awards in 2019.
- › The “Best Implemented Project in the Field of Construction of Multifunctional Shopping Centers and Complexes” in the awards ceremony organized by the Department of Urban Policy in 2019.
- › “Global Best Project” in the Retail / Mixed Use Development Category in Engineering News-Record (ENR) 2019 Global Best Projects Competition.

## CITY CENTER INVESTMENT B.V.

**City Center Investment B.V. (CCI) was established in 2003 for the development of the Naberezhnaya Tower complex, one of the most prestigious business centers in Moscow honored with a Commercial Real Estate Award for being the best Class-A business center.**

Situated in Moscow's international business center, it serves as a model of inspiring architecture and state-of-the-art innovative design. CCI has successfully cultivated long-term relationships with its tenants, thanks to its competitive advantages in the commercial real estate market.

Naberezhnaya Tower complex comprises three blocks, boasting a total leasable area of 163,000 m<sup>2</sup>. Currently, 109 employees involved in office leasing, facility management and operation, and the provision of fit-out works. In 2023, approximately 4,000 m<sup>2</sup> of fit-out works were undertaken for tenants.

The political and global financial crises that started in 2022 continued in 2023. Despite the challenging conditions, a recovery was noted in the Russian office market compared to the previous year, attributed to the increased activities of local companies.

Notwithstanding, through the constructive and professional approach and the correct planning, the occupancy rate of the building was maintained at a high

level of 95% in 2023. With this strategic approach, CCI managed to extend contracts with existing tenants, covering a total rentable area of over 28,000 m<sup>2</sup>, as well as to conclude new lease agreements with a total area of more than 16,500 m<sup>2</sup>.

The CCI operations team diligently provides comprehensive and regular maintenance for the business center, overcoming disruptions and challenges in the international supply chain. The maintenance was conducted on-site and in full, with additional measures implemented.

Noteworthy tenants at CCI include reputable corporations such as Alibaba, Arconic, Berlin Chemie, Seamless, Eli Lilly, Elanco, Forward Energy, General Electric, GE Healthcare, Haleon, IBM, Kept, Marie Tecnimont, Medtronic, Merz Pharma, Mitsui & Co, Mubadala, Ozon, Pfizer, Renaissance Capital, Richemont, SMS Group, Unipro, Novonordisk and Segezha.

## LLC MOSENKA

In 1991, ENKA leveraged its robust business relations in the Russian Federation, as well as the country's stable economic progress, founded LLC MosENKA as its first investment company in Moscow, together with a group of Russian partners. The main goal was to meet the increasing demand for office space in the Russian capital while introducing real estate services that align with western standards to the country.

MOSENKA 2 / RUSSIAN FEDERATION

Currently, fully owned by ENKA, MosENKA remains committed to the development and leasing of office spaces. The company has successfully renovated 6 historic buildings, boasting a cumulative construction area of 46,500 m<sup>2</sup>, transforming them into contemporary office structures.

M1 and M5 buildings underwent restoration and handed over in 2012 and 2019 respectively.

As of 2023, the company is operating 4 buildings that have undergone modernization.

The occupancy rate for these buildings stood 91% at the end of 2023.

Tenants of MosENKA include well-known local and international companies such as Accor, Atlas Chain, Becton Dickinson, EcoFinance, Ipsen, MGCom, Saipem, Sinara, TopTech and Varian Medical System

The company employs staff of 77, and its turnover in 2023 amounted to approximately USD 10 million.

MOSENKA 6 / RUSSIAN FEDERATION

MOSENKA 3 / RUSSIAN FEDERATION

MOSENKA 4 / RUSSIAN FEDERATION

## LLC MOSKVA KRASNYE HOLMY

**Moskva Krasnye Holmy (MKH) commenced its operations in the summer of 1995.**

Fully owned by ENKA, the company was established following an investment agreement with a number of Russian partners, including the Municipality of Moscow, for the development of the Russian Cultural Center, which will be built in five phases and include office, commercial, cultural and sports buildings on a 7-hectare plot of land leased for 49 years in the center of Moscow.

The company, owned by ENKA, successfully completed the office spaces, a hotel, a conference center, an art gallery and parking lots covering a total area of 156,000 m<sup>2</sup>.

By the end of 2023, the office buildings had sustained an occupancy rate of 81%. Noteworthy ten-

ants of LLC Moskva Krasnye Holmy include reputable corporations such as ADV, Air Liquide, Avtozavod Saint Petersburg (Ex Nissan), El6, Givaudan, Keysight Technologies, MIC, RBC and Vegas Lex.

The corporate policy strongly emphasizes institutionalization and aims to increase productivity and profitability by engaging the most qualified local staff and top-tier local subcontractors, in coordination with a core Turkish management team.

Presently, the company employs a staff of 98 and the company's turnover in 2023 was approximately USD 23 million.

## LLC "OTEL MOSKVA - KRASNYE HOLMY", SWISSOTEL KRASNYE HOLMY

**Established in 2005, Swissotel Krasnye Holmy is a 5-star hotel featuring 236 rooms.**

Situated in the heart of the Russian capital, the hotel provides exceptional service and luxury, complemented by breathtaking views of the city. The hotel boasts a remarkably convenient location in Moscow's business district, surrounded by major office complexes and financial institutions, such as the Paveletskaya Tower, the Aurora Business Park and the Vivaldi Plaza. Additionally, its proximity to Paveletsky railway station provides a significant advantage for business travelers transferring to Domodedovo Airport.

Swissotel Krasnye Holmy Moscow became a finalist in the Top 15 Awards 2023, nominated for "Best Site for Newlyweds."

The hotel's bars and restaurants host various Moscow and international gastronomic festivals and workshops of world-renowned bartenders. City Space Bar & Restaurant at the top of the hotel is ranked among the best bars in the world. This very popular destination has also won the World Travel Awards and is the perfect place to have a cocktail while enjoying breathtaking 360-degrees views of Moscow.

In 2023, the hotel achieved a turnover of around USD 12 million, with a workforce comprising 168 employees.

## ENKA INVEST

ENKA Invest commenced operating in 1994 as part of ENKA's real estate investment division, which has been active in Moscow since the early 1990s.

PAVELETSKAYA PLAZA / RUSSIAN FEDERATION

It owns and operates four complexes situated in the center of Moscow, boasting a total leasable area of 76,000 m<sup>2</sup>. Paveletskaya Plaza, Tsvetnoy Palazzo, Sretenka Complex and Chaplygina House are all built, owned, developed and operated by ENKA Invest.

The company, which employs a staff of 61, specializes in office and residential leasing, and building and facility management, and provides construction services for tenants' fit-out works. Its exceptional facilities and services have fostered long-term relationships with tenants.

ENKA Invest team closely monitors the evolving political situation that began in 2022, extending into 2023, and its delayed effects on the commercial real estate industry. The team adjusts its marketing strategy accordingly.

While some international companies suspended their business activities in the Russian Federation, the presence of Russian legal entities that succeeded them has expanded. ENKA Invest occupancy rate is at 79%. Despite the challenges posed by political crises, lease contracts totaling approximately 22,000 m<sup>2</sup> were extended and over 3,000 m<sup>2</sup> of new contracts were signed, including the expansion of Flexity, an ENKA project that offers tenants fully fitted out and furnished premises with a full scope of service operation.

In 2023, approximately 2,420 m<sup>2</sup> of renovation work undertaken for existing and new tenants delivered on time without compromising quality. ENKA Invest operations team provides comprehensive and regular maintenance of the business center, overcoming disruptions and difficulties in the international supply chain. This is executed on-site and in full, with additional measures taken.

As of the end of 2023, ENKA Invest's tenants included major multinational firms such as AxTeam, Bulgari, B1 Consult, HSBC, IATA, LG Electronics, Zarubezhneft Production Kharyaga, Lundbeck A/S, Data.ru, Hytes Communication, National Oilwell Varco, Nestle, Alfa Sigma, Clarins, UBS, Club "Valdai" and Wheely.

## ENKAMOS REGION B.V. OVCHINNIKOVSKAYA BUSINESS CENTER

The Ovchinnikovskaya (OVC) Business Center is located on Ovchinnikovskaya Embankment and offers working opportunities at the heart of the Russian capital.

Its proximity to the Kremlin, Red Square, and other iconic landmarks enhances its significance. Previously owned by the Russian Ministry of Economic Development, the building with the iconic Soviet-style architecture was reconstructed by ENKA in 2022 as a modern Class A office building within a year. The renovation seamlessly combined local architectural elements with state-of-the-art technology to provide users with a comfortable and secure workspace, thoughtfully designed to align with the city's structure.

The facility comprises a 10-storey building with an outdoor parking lot, offices, retail spaces, lobby areas and a multifunctional conference hall. The total construction area of the building is 28,000 m<sup>2</sup> with a total leasable area is 20,000 m<sup>2</sup>.

Designed by the "WELL", a certified international architectural bureau, the complex provides clients with the opportunity to work in a high-quality, well-connected environment that meets all their needs and enhances work efficiency.

Also featuring meditation rooms, green common areas, gyms, shower and game zones, the OVC Business Center offers a unique work environment. The project can accommodate up to 2,700 work desks over 80 meeting rooms, coffee points and lounges. One of the unique opportunities offered by the facility is the multifunctional conference room with an area of 400 m<sup>2</sup> and a capacity of 250 people.

## FLEXITY

**The Flexity concept was introduced by LLC ENKA Flex Offices and 2023 was a year of strengthening positions, broadening the scope of activities and enhancing the provided services. Over the past year, Flexity has expanded its portfolio to over 3,500 work stations, achieving full occupancy of all premises by the end of September 2023.**

In 2024, the target of the company will be to respond to this high demand observed across the company's portfolio.

Flexity attributes its performance last year to ENKA's strong corporate culture and solid managerial approach.

Despite the challenges that unfolded globally over the past year, Flexity managed to maintain a strong market position and currently stands as the largest serviced office operator in the Russian capital. This year, some well-known large companies as Samsung, Octapharma, Sberbank and Aeroflot placed their trust in Flexity for their office needs in Moscow.

Flexity continues its dedication to delivering on its promise of creating and managing environments conducive to thriving. As of the end of 2023, the company takes pride in servicing its partners and enhancing their office experience each day. The regular events organised within its built-in environments, including meditation sessions, quiz nights, and table tennis tournaments, contribute to making coming to the office more appealing than ever.

2023 marked a year of restructuring internal processes, implementing crucial changes within the team, and expanding Flexity's business strategy. Thanks to a robust marketing plan and the utilization of various digital platforms, the company achieved and maintained 100% occupancy of its premises with long-term tenants in 2023. Additionally, through Flexity Meetings & Events, the company has started to lease its halls and meeting rooms to a broader market for short-term leases.

2023 was also a year of fine tuning operations and facility management of Flexity. A comprehensive assessment of main vendors of the company for key services and market offerings led to partnerships with several new key vendors, aimed at elevating the quality of its services.

Despite being mindful of the surrounding risks, the company maintains confidence in the future of its operations.

In 2024, Flexity's focus will be on expanding the portfolio, boosting online presence, continuous improvement of service quality, and the launch of a new business line catering to entrepreneurs and small businesses.

# TRADE

ENKA Pazarlama İhracat İthalat A.Ş.

ENTAŞ Nakliyat ve Turizm A.Ş.

AirENKA Hava Taşımacılığı A.Ş.

# ENKA PAZARLAMA İHRACAT İTHALAT A.Ş.

Established in 1972, ENKA Pazarlama entered the Turkish construction market by specializing in the sale and servicing of Hitachi excavators and wheel loaders. From day one, the company embraced a strategic approach, focusing solely on representing the most renowned and esteemed global brands.

ENKA Pazarlama is a prominent provider in the heavy construction, lifting equipment, machinery and industrial machinery sectors. The company provides sales and aftersales services throughout Türkiye via its five regional branches, three sales office, one liaison office, 57 sub-dealers and authorized service providers.

ENKA Pazarlama provides sales and after-sales support to customers through five TSE approved service centres, each holding ISO 9001:2015 and ISO 27001:2013 quality certificates. Guided by its mission to be "reliable solutions partners", the company strives to ensure customer satisfaction and excellence in its services.

ENKA Pazarlama owns and operates open and covered machinery and equipment parks in İstanbul, Ankara, İzmir, Adana and Mersin Free Zone.

With its advanced technical expertise and customer satisfaction-oriented approach, ENKA Pazarlama stands as one of the foremost companies in its field in Türkiye.

Recognizing its responsibilities to stakeholders and the broader environment, particularly after the earthquakes centered in Kahramanmaraş in 2023, ENKA Pazarlama took several initiatives to enhance the sustainability of its operations and contribute to social support efforts.

ENKA Pazarlama has established its own C-type bonded warehouse to enhance its service to customers. The company remains committed to delivering high-quality and cost-effective solutions to its customers, guided by the ISO 9001 Quality System and ISO 27001 Information Security Management System and by closely following the latest technological developments.

As a distributor for the world's leading manufacturers of construction and industrial machines and equipment, ENKA Pazarlama specializes in marketing and distributing the following product groups:

## CONSTRUCTION MACHINERY GROUP:

- › **Hitachi:** Hydraulic excavators, wheel loaders, mining hydraulic excavators and rigid dump trucks
- › **XCMG:** Graders, rollers and asphalt equipment
- › **Bell:** Articulated dump trucks
- › **Tana:** Landfill compactors and shredders
- › **Shantui:** Dozers

## INDUSTRIAL PRODUCTS GROUP:

- › **Mitsubishi:** Marine engines and industrial engines
- › **Shanghai Diesel:** Marine engines and generators
- › **SDMO:** Generators and lighting systems

## LIFTING EQUIPMENT GROUP:

- › **TCM:** Forklift and warehouse equipment
- › **Heli:** Forklift and warehouse equipment
- › **HSC – Sumitomo Heavy Industries:** Crawler cranes
- › **Tadano:** Rough terrain and all terrain mobile cranes and crawler cranes
- › **Palfinger:** Truck mounted loading and recycling cranes, on truck forklifts, hydraulic ramps and crawler mobile cranes
- › **XCMG:** Drilling rigs, telehandlers, skid steer loaders and aerial platforms

ENKA Pazarlama successfully expanded its distributorship territories to include Azerbaijan and Georgia, contributing to a substantial increase in turnover to over Euro 240 million. This achievement further solidifies the company's distinctiveness, reliability and superiority in the sector.

## ENTAŞ NAKLİYAT VE TURİZM A.Ş.

**ENTAŞ was established in 1976 and joined the International Air Transport Association (IATA) in 1982.**

ENTAŞ is also a member of the American Society of Travel Agents (ASTA) and the Universal Federation of Travel Agents Associations (UFTAA), as well as national organisations such as the Association of Turkish Travel Agents (TÜRSAB) and the Association of Istanbul Travel Agents (ISAD).

ENTAŞ offers a diverse array of cultural and business travel options for both individuals and groups, catering to both national and international customers. Its commitment to delivering high-quality service has solidified its enduring position in the sector.

ENTAŞ is dedicated to precisely understanding customer requirements, consistently enhancing the quality of its services, and, most importantly, ensuring complete customer satisfaction to uphold its extensive range of products and enduring collaborations. Furthermore, it strives to contribute to the sector's development by closely monitoring global best practices and implementing them in Türkiye.

ENTAŞ has consistently been at the forefront of adopting cutting-edge online international reservation systems in Türkiye, incorporating platforms such as Amadeus, Galileo and Troya.

ENTAŞ provides a comprehensive range of services, including:

- › Global airline ticket sales, hotel reservations, transfers and rent-a-car services
- › Tailored solutions for private or business trips and holidays
- › Luxury packages designed for both individuals and groups
- › Exclusive "Blue Voyage" yacht expeditions and specialized rail and cruise packages
- › City tours, with or without a professional tour guide
- › Expertly crafted cultural, religious, sports, health, adventure and nature tours and holidays
- › Customized programs for education and language schools

- › Private plane rental and VIP services
- › Coordination of conferences, seminars, fairs and symposia
- › Organization of dealer conventions and motivational trips
- › Corporate event planning, encompassing personnel dinners, award ceremonies, anniversaries and product launches
- › Arrangement of contracts with singers and performers, along with the provision of technical equipment, stage design and venue decoration services
- › Catering services, visa assistance and travel insurance options

Beyond its call center services, ENTAŞ is adept at generating customized purchasing reports aligned with the preferences of its corporate clients. These reports can be seamlessly forwarded to the designated individuals within the specified timeframe, ensuring efficient and tailored communication.

ENTAŞ has maintained its prominent position over the years, consistently securing a place among the top 5 national agencies in airline ticket sales for more than a decade. Notably, it boasts the highest turnover among agencies operating from a single location without any branch offices.

ENTAŞ was awarded the "Sustainable Aviation Fuel with Lufthansa" certificate in 2023 which is a first in Türkiye.

For the journeys of employees of ENKA, the CO<sub>2</sub> emissions resulting from the combustion of jet fuel have been offset with Sustainable Aviation Fuel (SAF) on flights operated by Austrian Airlines, Brussels Airlines, Lufthansa and SWISS.

With this, ENKA has compensated for 76 kg of CO<sub>2</sub> and has helped to accelerate progress towards a more sustainable future.

## AIRENKA HAVA TAŞIMACILIĞI A.Ş.

AirENKA Hava Taşımacılığı A.Ş. (AirENKA Air Transport Corp.) was established in 2002 with the aim of providing air taxi services for both domestic and international routes. The company obtained an Operational License (No. 2002-HT-04) from the Directorate General of Civil Aviation in Türkiye, commencing on 22 April 2002.

AirENKA operates a Gulfstream G450 type jet aircraft, manufactured in 2015, equipped with state-of-the-art onboard technology.

The highly experienced flight crew consistently undergoes refresher training in the USA to ensure compliance with international aviation regulations.

In 2023, major maintenance operations were conducted at the Gulfstream facility in Farnborough and Jetaviation AG in Basel. Minor maintenance procedures were carried out at Sabiha Gökçen Airport with Turkish Technic. Monthly tasks and navigation database updates were performed by AirENKA CAMO at Sabiha Gökçen Airport as well.

In 2023, the company recorded a total of 349 flight hours to 39 different cities.

## SOCIAL ACTIVITIES

ENKA Foundation, İstanbul

ENKA Sports Club, İstanbul

ENKA İstanbul Schools

ENKA Adapazarı Schools

Private ENKA Vocational and Technical Anatolian High School, Kocaeli

Private ENKA Science and Technology High School, Kocaeli

ENKA Sanat, İstanbul

## ENKA FOUNDATION

The ENKA Foundation was founded in 1983 with the idea of preserving the strong tradition of foundations in Turkish culture and sustaining the concepts that are the building blocks of civilisation.

The inherent mission of the foundation is to educate individuals through scientific methods, fostering their development into modern, productive and inquisitive individuals, while unlocking their potential in an environment seamlessly integrating sports, education, culture and the arts.

Established in 1983 on the gentle slopes of İstinye, Istanbul, the Sadi Gülçelik Sports Complex is a testament to these principles. Its core values encompass ethics, morality, respect, trust, sincerity, openness and innovation.

In addition to the ENKA Sports Club, the ENKA Foundation encompasses ENKA Schools and ENKA Sanat. ENKA Schools originated with the establishment of ENKA Schools İstanbul in İstinye in 1996, followed by the launch of ENKA Schools Adapazarı in the wake of the 1999 earthquake. The Private ENKA Technical and Vocational Anatolian High School opened its doors in Kocaeli in 2008 and the ENKA Kocaeli Science and Technology High School started teaching in 2014. All units and members of the foundation are committed to disseminating and sharing the wealth of its heritage with society at large.

## ENKA SPORTS CLUB

**The ENKA Sport Club set out with the slogan “The Future Belongs to the Youth”. To this end, a quality training system is employed to equip thousands of children in the club teams and sports schools with outstanding intellectual and physical qualities, and every year many young talents are gained for Turkish sport.**

Since its foundation in 1983, the club has trained 9,147 certified athletes. At present, a total of 1,904 athletes comprising 1,472 licenced and 432 in the youth setup are actively continuing their training under the supervision of expert trainers and representing the club and the country in national and international events across the various sports in which the club involved.

## WATER POLO

### International Events:

ENKA Water Polo A-team won its first three matches in the LEN Challenger Cup qualification group matches in Malta between 19-22 October 2023, defeating KVT Komodor of Bulgaria 25-3, Cetus Espoo of Finland 22-1 and EVK Zaibas of Lithuania 11-8. However, it trailed by 14-10 in its match against the host country's representative Valletta. The ENKA team ended up with the same points as the two other top teams in the group but missed out on a place in the finals by a goal difference of one, finishing the tournament in 3<sup>rd</sup> place.

ENKA players Bertan Haskumru, Emir Alp Atam and Ata İşbeceren were included in the Turkish National Team which came 9<sup>th</sup> in the European U-17 Championship.

ENKA players Batur Alp Yıldız, Batın Efe Koca, Demir Pekcanlı, Batu Bora Kutlu and Emir Akbaş represented Türkiye in the European U-15 Championship in Montenegro. The Turkish National U-15 team came 8<sup>th</sup> in the event.

### National Events:

**U-12 FESTIVAL:** ENKA were Champions at the U-12 Boys Water Polo Festival.

**SADİ GÜLÇELİK WATER POLO TOURNAMENT:** ENKA were Champions in the Water Polo Tournament organised as part of the 36<sup>th</sup> Sadi Gülçelik Games.

**U13 LEAGUE:** ENKA came 2<sup>nd</sup> in the Mert Aksoy Turkish U-13 Championship in İzmir.

**U15 LEAGUE:** ENKA were Champions in the Ali Arda Akıncılar Turkish U-15 Championship.

**U17 LEAGUE:** ENKA Water Polo team came 3<sup>rd</sup> in the Turkish U-17 Championship.

**U19 LEAGUE:** ENKA Water Polo Team came 4<sup>th</sup> in the Turkish U-19 Championship.

**SÜPER LEAGUE:** ENKA were Champions in the 2022-2023 Season Water Polo Super League.

## GRANTS

A total of 275 talented athletes who were also successful at school but in need of financial support earned the right to receive grants in 2023-2024.

## SUMMER AND WINTER SPORTS SCHOOLS

In all, 1,639 students successfully completed ENKA 2023 Summer Sports School. ENKA 2023-2024 Winter Sports School activities are under way with 1,211 students.

## SOCIAL MEMBER ACTIVITIES

ENKA fitness centre, outdoor and indoor tennis courts, 50m outdoor swimming pool, which can be enclosed with an inflatable cover in winter, 25m and 25x33m indoor pools, various other sports grounds, indoor sports hall, international synthetic athletics track, health centre and club social centre are at the service of 4,994 adult and junior club members.

# ENKA İSTANBUL SCHOOLS

**Founded in 1996, and well established within the Turkish educational system, ENKA İstanbul Schools educate a total of 1,234 students at pre-school, primary school, middle school and high school levels.**

## ACCREDITATION

The ENKA İstanbul Schools are accredited by the Turkish Ministry of National Education (MEB) and are subject to its principles and regulations. In addition, ENKA Schools are internationally accredited by the Council of International Schools (CIS) and the New England Association of Schools and Colleges (NEASC). ENKA Schools are authorized by the International Baccalaureate Organization (IB) to offer the Primary Years Program (PYP), the Middle Years Program (MYP) and the Diploma Program (DP), making it a full K12 IB continuum school.

ENKA İstanbul Schools are authorized to offer Advanced Placement (AP) courses and has served as an AP & SAT exam center since 2020. AP courses are offered to 11<sup>th</sup> and 12<sup>th</sup> grade students as elective courses. ENKA İstanbul Schools currently provide 14 AP courses.

ENKA İstanbul Schools completed its synchronized CIS/NEASC/IB re-accreditation and re-authorization in September 2023.

ENKA has six staff members certified by CIS as accreditation evaluators, which supports internal auditing of standards.

To further bolster the school's process of policies and ensure all needed policies exist and are regularly audited, following the CIS/NEASC/IBO accreditation, a staff team was created for ISO and trained in ISO 9001 theory and practice. The school has begun assessing current needs and will begin creating relevant policies and implementing ISO standards across school systems and processes. The first ISO audit will be conducted in March 2024.

The Board of Directors has updated the school's strategic plan and has revised their bylaws and board member appraisal procedure.

## HIGH SCHOOL REQUIREMENTS

All ENKA İstanbul High School Students meet the requirements for a Turkish High School Diploma, study

a third language from grades 5 till 12, and receive most of their instruction in English, with 55% of all courses taught in English for grades 9-10 and 75% of all courses are taught in English for grades 11-12.

In addition to International Baccalaureate Diploma Programme (IBDP), our AP Program was launched in 2019 and now offers 14 AP classes to students. For their 11<sup>th</sup> and 12<sup>th</sup> grade curriculum, grade 10 students select one of the following pathways based on their career targets and academic ability:

- › Option 1: Turkish Diploma
- › Option 2: Turkish Diploma + Full IB Diploma
- › Option 3: Turkish Diploma + 1-6 AP courses

The breakdown of program selection for the Class of 2024 is:

- › 29% pursuing MEB (Turkish national curriculum)
- › 35% pursuing MEB + IB Diploma
- › 36% pursuing MEB + AP

## ACADEMIC RESULTS

### Class of 2023 IBDP Results

ENKA's Class of 2023 performed exceptionally well on their IBDP Exams, exceeding the world average by nearly 3 points. Overall average of ENKA İstanbul

Schools was 33, with a 100% pass rate and with ENKA students exceeding the world averages in 22 subjects.

### Class of 2023 AP Exam Results

Class of 2023 AP exam results in the 2022 Advanced Placement (AP) exams, ENKA İstanbul Schools students excelled impressively, with an average of 4.24 out of 5 in all exams, exceeding the averages both in Türkiye and globally. Of 48 test takers, 31% earned AP Scholar with Distinction status.

## SCHOLARSHIPS

The school provides three different scholarship options for students, including two different academic merit scholarships from the school and the ENKA Foundation, as well as athletics scholarships from the Ministry of Sports. While the school has had a longstanding commitment to provide financial aid to every enrolled student whose family demonstrates need, six years ago the school decided to add academic scholarships to its bursary offerings. Since doing so, the school's supporting foundation has granted 148 full academic scholarships to transfer students, who typically rank scholastically in the top 1% of the nation. In combination with the other bursary options, this means that currently 41% of ENKA's high school is on full scholarship.

### TRKISH NATIONAL TEAM SCHOLARS & ATHLETES

The school has a long tradition of scholastic and athletic achievement. Since the school's inception, it has had 64 students on national teams. In 2023, the school has 21 students on the national team for their sport or activity:

#### 13 Students currently on Turkish National Athletic Teams:

- › 1 Basketball (grade 10)
- › 1 Football (grade 12)
- › 1 Skiing (grade 7)
- › 7 Swimming (grades 9, 10 and 11)
- › 1 Synchronized Swimming (grade 11)
- › 1 Tennis (grades 6 and 9)

#### 8 Students currently on National Academic Teams:

- › 6 Chess (grades 9, 10, 11 and 12)
- › 1 Math (grade 12)
- › 1 Sudoku (grade 10)

Of note, the school's chess team, which features two students who have completed their second norm for grandmaster status, won the 2023 FIDE World Schools Chess Championship in undefeated rounds with no draws. Similarly, at the 11<sup>th</sup> World Mathematics Invitational (WMI), ENKA's student won the Diamond Award and Star of the World honor.

### ENTRANCE TO UNIVERSITY IN TRKİYE AND ABROAD

Typically, 100% of ENKA İstanbul Schools graduates go on to university. Approximately 80% select universities abroad.

For the Class of 2023 students opting for international universities, they won over USD 3.5 million in scholarships, with 32 acceptances to 14 QS 100 Schools.

Each year, ENKA İstanbul Schools graduates are admitted to leading international universities such as MIT, Harvard, Princeton, Stanford, Dartmouth, Columbia, Brown, Northwestern, Duke, John Hopkins, Oxford, Exeter, Edinburgh, Imperial College, King's College, Manchester, Warwick, Toronto, McGill and British Columbia.

For the Class of 2023 students opting for Turkish universities, 2 students placed in the top 1.000 of the TYT, 3 students placed in the top 5.000 of the AYT, 3 students placed in the top 1.000 of the YDT.

Graduates are currently studying at top universities in Türkiye including the Middle East Technical University, Boğaziçi (Bosphorus) University, Özyeğin University, İstanbul Bilgi University, Koç University, İstanbul Technical University and Sabancı University.

ENKA's Class of 2023 students opted for the following majors:

- › 45% Engineering
- › 22% Pre-Med
- › 11% Physics
- › 22% Other

### CURRICULUM DEVELOPMENTS

Building on work of the previous year, the school furthered its faculty differentiation training to provide personalized education by content, process, environment, and product to better meet student needs.

Following our whole staff collaboration on defining a common understanding of global citizenship, ensuring the intentionality of teaching global citizenship in every lesson as achieved through reconfiguring lesson plan templates schoolwide.

Further developments in curriculum include the ongoing evolution of the Language Integration Program (LIP) created for differentiated language acquisition. Electives and courses to expand the offerings for students include creation of a middle school Turkish Critical Reading course, Computer Science and Software course, and a Critical Thinking and Debate course. To articulate critical thinking skills down into the middle school, to complement the Critical Thinking and Debate course, a middle school debate team was formed and ENKA launched and hosted the first national middle school debate tournament. Also supporting the development of critical thinking skills, running for the third consecutive year, the school runs a schoolwide month-long Theory of Knowledge (philosophy) activity through all sections of the school to get students thinking about thinking.

For the early years, the school began embedding the national curriculum Pre-School Scope and Sequence into its PYP curriculum more explicitly to ensure the intentional implementation in the planning process across all subjects. In addition, in 2022 the Pre-School began adopting the UFLI Foundations as its Phonics Program.

### STAFF PROFESSIONAL DEVELOPMENT

ENKA İstanbul Schools have a strong culture of peer-to-peer PD, with staff trainings provided onsite and available asynchronously. Staff are also encouraged to identify external professional development opportunities. In 2022-2023, 258 independent PDs were requested, 75% of which were approved, resulting in 195 trainings, providing more than 2,000 hours of external professional development time. This represents a 47% increase in PDs over the previous school year.

The school's culture of PD includes a robust Teachers Teaching Teachers (TTT) volunteer-based peer PD program. This includes professional development sessions after school every Monday, rotating between EdTech trainings, IB trainings, peer-to-peer, or other targeted subjects. During these sessions, faculty members share best practice and subject specific examples. For these and other trainings, the school maintains a compendium of asynchronous learning materials recorded by the EdTech team and made available for teachers over their website.

ENKA İstanbul Schools serve as a certified national training center for Turkish schools wishing to learn how to implement the IB curriculum. The school offered 23 IB workshops in 2022-23 and will offer 14 IB workshops in 2023-2024.

## HEALTH, SAFETY, SECURITY

In 2023, the school purchased a subscription to TES/ EduCare's Safeguarding online trainings to provide internationally certified child protection training, which is required annually for the entire staff. The TES portal also provides 40 other health, safety, safeguarding and wellbeing training accessible to all staff members.

School policies and procedures were revised and developed, with the following policies updated and finalized: Accidents and Incidents Reporting, Academic Integrity, Admissions, Assessment, Child Protection, Code of Ethics, E-Safety, Grievance, Hiring Academic Staff, IB Complaints, Inclusion, Language, and Risk Assessment.

The opportunity for First Aid Training and Certification is provided for all staff every year, and is mandatory for certain staff members, like PE teachers and for those who have specific roles in the Emergency Preparedness Plan. In 2023, 57 staff members were first aid certified and another 20 will take training in December 2023.

The school was audited and accredited for its hygiene by the Turkish Standards Institute.

## ETHICAL PRACTICES

The school's E-Safety Policy was finalized and implemented. E-safety training is run twice annually to all staff which includes review of ethical communications, elements of the school's Code of Ethics and a review of the country's protection of personal privacy laws. The training includes workshopping case scenarios. Included in the training is a review of how to assess risk in the school environment.

The grievance policy for employees was significantly revised and includes the school's policy on diversity, equity and inclusion (DEI), harassment, and the school's ethical stances on numerous issues.

The school's Code of Ethics for all employee's was revised. The school's Academic Integrity policy was revised as well as the IB Complaint Policy for parents.

An intranet was developed in English and in Turkish which serves as a single location from which em-

ployees and find General Information, information on Health & Safety, Rights & Responsibilities, Supporting Students, Processes-Policies-Procedures, Routines, a "How To" Guide, Using Technology at ENKA, Curriculum Documents & Publications, staff directory and Onboarding for New Faculty.

## BOARDING/RESIDENTIAL PROGRAM

In 2022-2023, the boarding facility extended its operations from a 5-day to a 7-day service.

Residential students are selected from the top performing students in the school's annual transfer exam, which typically has an average of 700 students participating from different provinces of Türkiye. Quotas are allocated for students who apply from outside of İstanbul to provide opportunities for students from different cities of Türkiye.

In 2022-2023 academic year, the number of residential students reached 38, from nine different cities: İstanbul, Tekirdağ, Kocaeli, Sakarya, Bursa, Ordu, Samsun, Adana and Hatay.

The number of 2023-2024 scholarship recipients this year is approximately 50% more than in previous years, bringing the total of boarding students to 62.

The school's residential halls consist of two buildings, gendered segregated, located approximately 100 meters away from the high school building, student cafeteria, swimming pool and fitness center, and approximately 200 meters away from the athletics track, open-air theater and tennis courts. The residential halls have security seven days a week. The location ensures that students remain safely on campus safely while also offering them many opportunities to participate in extracurricular activities.

Special events are conducted just for residential students, including monthly birthday parties, school trips and ENKA Sanat concert tickets are provided free to the boarding students. Events in 2022-23 included:

- › İstanbul TÜYAP Book Fair Trip
- › Philosophy Onsite Workshop
- › Dialogues in the Dark Museum Trip
- › Mother's Dinner Potluck

- › Taksim Chocolate Factory Trip
- › Environmental Safety Awareness Onsite Workshop
- › Fenerbahçe Beko – Anadolu Efes EuroLeague Basketball Game
- › Fenerbahçe Beko – Olympiacos EuroLeague Basketball Game
- › Creative Drama Workshop
- › Numerous music and drama performances held by ENKA Sanat

On the CIS Community Survey, conducted with residential students, the responses received in the form of agree and strongly agree are as follows:

- › 83% are satisfied with the residential program experience.
- › 81% feel that the induction and support program for residential students meets their well-being needs.
- › 81% says they have a staff member whom they can turn to for personal guidance and support.

## CAMPUS FACILITIES

ENKA İstanbul Schools boast world-class facilities on a 33,680 m<sup>2</sup> campus within the ENKA Sadi Gülçelik Sports Complex, with the school buildings providing a total of 23,750 m<sup>2</sup> of usable space. The school has residence halls for its boarding students, which in 2023 include 62 academic scholarship students from 14 provinces. This accounts for 15% of the total high school student body.

2023 improvements to facilities and infrastructure include:

- › Work has begun on a rooftop solar panel system to subsidize the school's electricity needs. This system is planned to eventually provide 100% of the school's electricity needs.
- › To provide additional support to our boarding students, a recreational hall specifically for boarding students will be constructed in January 2024.

Technology improvements include:

- › Upgraded internet speed from 500Mbps to 1Gbps and implemented a backup internet for precaution.

- › Bring Your Own Device program was launched for Grade 4. Grades 5-12 were already in the BYOD program.
- › Zoom conferencing capability acquired for large meetings up to 500 people.
- › Laptops were distributed to all 25 scholarship students.
- › Teacher iPads have been updated to 9<sup>th</sup> Generation iPads.
- › Increased number of EdTech and other applications to facilitate learning.
- › Additional enterprise sized photocopy machine in copy room.
- › Renewal of the network infrastructure's switch devices and the fiber cabling between the school blocks in accordance with latest technology.
- › Renewal of the wireless connection points (access points) and its management panel. With the cabling and connection point improvements, the ability for users to transfer much faster and larger data has been provided.

## CLUBS & ACTIVITIES

Clubs, community service activities, extra-curricular activities and school teams all play as important a role as academic pursuits in the program of education. Activities like these emphasize the development of leadership and communication skills, promote a sense of responsibility, and stimulate self-confidence and a taste for discovery. They provide opportunities for students to develop their individual aptitudes and interests and help them prepare for their futures. They also help ensure that ENKA students become responsible citizens sensitive towards populations in need.

The school offers clubs for each school division, with 24 clubs in High School, 29 in Middle School and 40 in Primary School, including the Model United Nations Chess teams, the Debating Society, Scientific and Technical Research Council of Türkiye (TÜBİTAK) teams, English Drama, Film Production, Dance, Yoga and more.

ENKA students represent ENKA İstanbul Schools throughout Türkiye and abroad via many of these clubs and activities. Students have achieved both

national and international rankings and records in math, chess, fencing, tennis, swimming, skiing, gymnastics, judo, sailing, fencing, modern pentathlon, rock climbing, water polo and equestrian sports. Some of these international achievements are listed here.

## MATHEMATICS DISTINCTIONS

- › World - 11<sup>th</sup> World Mathematics Invitational (WMI)
  - › Diamond Award
  - › The Star of the World Honor
- › World - Gold Medal - 19<sup>th</sup> International Zhautykov Olympiad
- › World - Silver Medal - International Mathematics Olympiad
- › World - Silver Medal - 40<sup>th</sup> Balkan Mathematical Olympiad (BMO)
- › World - Gold Medal - Junior Balkan Mathematics Olympiad

- › National - Kangaroo International Mathematics Competition
  - › Gold Medal
  - › 2<sup>nd</sup> Place

## National Team Selections

- › 1<sup>st</sup> seed draft pick - U18 Turkish Sudoku National Team
- › 1<sup>st</sup> seed draft pick - Turkish Sudoku National Team
- › 2<sup>nd</sup> seed draft pick - TÜBİTAK Math Olympiads Junior National Team
- › 4<sup>th</sup> seed draft pick - U18 Turkish Brain Team
- › 14<sup>th</sup> seed draft pick - Turkish Brain Team

## SCIENCE DISTINCTIONS

- › World - International STEM Olympics
  - › 1<sup>st</sup> Place & Gold Medal
  - › 2<sup>nd</sup> Place & Gold Medal

- › National - 2<sup>nd</sup> Place - TÜBİTAK 54<sup>th</sup> High School Students Research Projects Competition
- › National - 1<sup>st</sup> Place - TEAMS Competition (Tests of Engineering Aptitude, Mathematics, and Science)

### CHESS DISTINCTIONS

- › World - 1<sup>st</sup> Place - 2023 FIDE World Schools Team Championship  
Undeclared rounds, no draws
- › World - 1<sup>st</sup> Place - Azerbaijan U16 Chess Olympics
- › World - 1<sup>st</sup> Place - Marienbad Indoor GM Norm Chess Tournament
- › World - 39<sup>th</sup> Capelle La Grande Open Chess Tournament
  - » 1<sup>st</sup> Place - U18
  - » 1<sup>st</sup> Place - U16
- › World - 1<sup>st</sup> Place - European Schools Chess Championship
- › World - World Schools Chess Championship
  - » 1<sup>st</sup> Place - 17YO
  - » 2<sup>nd</sup> Place - 15YO
- › World - 2<sup>nd</sup> Place - Elite Category Chess Tournament
- › National - 3<sup>rd</sup> Place - Türkiye Stars Chess Tournament 16YO
- › Local - 1<sup>st</sup> Place - İstanbul Youth Chess Provincial Championship
- › Local - 1<sup>st</sup> Place - İstanbul Youth Chess Tournament
- › Local - 1<sup>st</sup> Place - İstanbul Chess Tournament

### DEBATE DISTINCTIONS

- › National - ECNAIS Debate Türkiye League National Tournament
  - » 1<sup>st</sup>, 2<sup>nd</sup> and 5<sup>th</sup> Best Speakers

### ATHLETIC DISTINCTIONS

#### Swimming

- › World - 1<sup>st</sup> Place - 400m Medley, Multinations Junior Swimming Championship
- › World - 2<sup>nd</sup> Place - 4x100 m overwater relay, 17<sup>th</sup> CMAS Finswimming World Cup
- › World - International Swimming Tournament Grand Prix Burgas 2023
- › 1<sup>st</sup> Place and New Turkish Record - 4x50m Freestyle Relay
- › 1<sup>st</sup> Place - 400m Individual Medley and 4x50m Medley Relay

- › 2<sup>nd</sup> Place - 200m Backstroke, 200m Medley, 200m Butterfly,
- › 4x50m Freestyle Relay, 50m Freestyle, 50m Backstroke
- › 3<sup>rd</sup> Place - 200m Freestyle, 200m Medley, 100m Breaststroke

#### Water Polo

- › National - Turkish National Water Polo Competition
  - » 1<sup>st</sup> Place - U11 Boys
  - » 2<sup>nd</sup> Place - Girls' A Team
  - » 3<sup>rd</sup> Place - U19 Girls
  - » 3<sup>rd</sup> Place - U17 Girls

#### Tennis

- › World - Tennis Europe International Cudi Cup
  - » 1<sup>st</sup> Place - Singles Girls
  - » 1<sup>st</sup> Place - Doubles Girls
- › National - 16YO Türkiye Championship
  - » 2<sup>nd</sup> Place - Doubles Girls
  - » 3<sup>rd</sup> Place - Singles Girls
- › Local - 1<sup>st</sup> Place - 16YO Singles Girls Winter Cup
- › Local - İstanbul Inter-School Tournament
  - » 3<sup>rd</sup> Place - Boys
  - » 4<sup>th</sup> Place - Girls

#### Fencing

- › World - 7<sup>th</sup> Place, U14 Fencing Euro Cup
- › World - 6<sup>th</sup> Place, International Children's Fencing Cup
- › National - 3<sup>rd</sup> Place - U14 Epee, Turkish Fencing Tournament

#### Track & Field

- › Regional - Provincial Schools Athletics Championship
  - » 2<sup>nd</sup> Place - 80m
  - » 3<sup>rd</sup> Place - Long Jump

#### Judo

- › Local - 3<sup>rd</sup> Place, Inter-school Judo Competition

#### Equestrian Sports

- › National - Inter-school Equestrian competition
  - » 2<sup>nd</sup> Place - Juniors Category
  - » 3<sup>rd</sup> Place - Stars Category

## ENKA ADAPAZARI SCHOOLS

**ENKA Adapazarı Schools were founded by ENKA Foundation on October 24<sup>th</sup> 1999 to provide opportunities for a free education to children who lost their parents in the 1999 Marmara Earthquake.**

ENKA Adapazarı Schools continue to prioritize children who have lost their parents for various reasons, ensuring equal opportunities by covering their educational expenses. Financial aid is also extended to students who cannot afford tuition.

The high school program at ENKA Adapazarı Schools spans 5 years, and a comprehensive English program is implemented in the preparatory class.

ENKA Adapazarı Schools are subject to the regulation of the Ministry of National Education. The Primary Education Curricula of the Ministry of National Education is considered based on the inquiry within the framework of the International Baccalaureate Organization (IB) Primary Years Program (PYP).

ENKA Adapazarı primary school authorized by the PYP in 2012 underwent assessment visits in 2015 and 2020.

Since 2017, following the school's authorization for the International Baccalaureate (IB) Middle Years Program (MYP), educational activities and teacher professional development programs have been implemented according to MYP standards.

Education started in prefabricated buildings within a 56,500 m<sup>2</sup> campus area and continues in permanent structures completed as of 2016. Additionally, there are 22 studio flats to meet the accommodation needs of the school teachers.

Beyond the school buildings, the campus provides an extensive living space for both staff and students, featuring an indoor swimming pool, sports hall, tennis courts, lodgings, social facility, computer and science labs, three libraries housing a total of 62,012 books, a dining hall and an auditorium.

ENKA Adapazarı Schools, committed to providing equal opportunities in education, aim to nurture creative individuals proficient in critical thinking and communication skills across all disciplines. The goal is to encourage questioning, self-expression in multiple languages, fostering a deep respect for diversity and instilling international awareness.

Technology education in ENKA Adapazarı Schools spans from kindergarten to high school. Students are enabled to practice during education given in smart classrooms and laboratories. Utilizing various educational technology tools such as Microsoft SharePoint, Apple School, Seesaw, Google School, Britannica School Edition, Toddle and Turnitin, both students and teachers actively participate in interactive learning experiences.

Since 2014, students have been utilizing their iPads as educational tools in all classes, beginning from the 4<sup>th</sup> grade.

The school teachers have attended training sessions facilitated by the authorized Apple educators. Students undergo training in basic computer skills, operating systems, computer-based graphic web design, programming, coding, and technical drawing courses before graduating from high school. The school personnel take professional development sessions in line with developing training technologies. Notably, 11 teachers completed the required procedures and were qualified as Apple Teachers. The teaching staff of the school includes 2 Apple

Distinguished Educators (ADE), 3 Apple Professional Learning Specialists (APLS), 16 Apple Teachers and 1 Microsoft certified teacher.

The PYP Coordinator of the school has started to take part in the roles of 'PYP Evaluation Leader' and 'IBEC Faculty Member' as an IBEN member.

Within the PYP studies the vice principal of the school attended "Head of School" workshop and 29 of the teachers attended in-school workshop and the school principal attended IB Global Conference.

Our MYP Coordinator successfully completed the training organized by the IB Educator Network and was entitled to become an "IB MYP Program Leader".

MYP Evaluation Visit was successfully completed.

Project-based learning is implemented at the school to enhance students' skills in creative and scientific thinking, research, teamwork, technology use, self-regulation and self-management as well as their worldview to enable them to generate solutions to future challenges.

Aligned with this objective, 33 Middle School students, presenting 14 projects and 39 students from High School, showcasing 22 projects, applied to TÜBİTAK and TEKNOFEST.

Notably, 3 students in Technological Design, 3 in History, 1 in Biology and 2 in Educational Technologies have successfully participated in the regional finals. Currently, 45 students are actively involved in the development of 18 projects.

ENKA Adapazarı Schools aim to cultivate confidence in students when communicating in a foreign language, ensuring their ability to effectively apply language skills in the learning process and seamlessly integrate acquired knowledge into their daily lives.

In addition to these activities, students are provided with opportunities to participate in overseas exchange student programs, which can serve as significant milestones in their future education and careers. As evidence, 5 students extended their high school education by residing with volunteer families in a different country through the AFS exchange program, becoming integral participants in an extraordinary intercultural learning and exchange experience.

The academic staff of the school consists of highly qualified teachers in their respective fields who actively pursue professional development and embrace innovation. With the goal of fostering students who are inquisitive, critical thinkers, respectful of differences, internationally minded and creative, the school teachers remain abreast of technological developments in education and adopt a student-centered approach.

The average age of the school's staff is 39, with the age range distributed as follows:

- › Age 20-30: 14.18%
- › Age 31-40: 45.39%
- › Age 41-50: 35.46%
- › Age above 51: 4.96%

Teaching staff and staff retention are important at ENKA Schools. More than 60% of the staff have been working for Adapazarı ENKA Schools for more than 5 years. The working year range is as follows:

- › 0-1 year 18.44%
- › 1-3 years 9.22%
- › 3-5 years 14.18%
- › 5-10 years 21.28%
- › 10+ years 36.88%

ENKA Adapazarı Schools provide education to a total of 647 students with a full-time teaching staff of 96, which includes 4 international appointees and 10 part-time teachers. The overall student-to-teacher ratio is 6 to 1. Notably, 28% of ENKA Adapazarı Schools teachers hold master's or PhD degrees. In a commitment to professional development, 63 different Professional Development programs were offered during the 2022-2023 Academic Year, encouraging teachers to engage in opportunities aligned with their professional goals and the school's development plan.

Recognizing the significance of extracurricular activities in developing students' lifelong skills and fostering creativity, the school places importance on providing diverse hobbies.

Planned arts, sports and cultural activities contribute to students' self-realization by instilling positive psychological effects such as self-esteem and self-control. Additionally, these activities enable the development of skills and competencies crucial for social life.

The extracurricular activities chosen by students aid in the development of responsibility, entrepreneurship, leadership and time management skills. Engaging in these activities not only transforms students into active individuals both within and outside the school but also offers them an environment to cultivate essential social skills.

In this context, the school hosts 76 students clubs, including Model United Nations (MUN), European Youth Parliament (EYP), Debate, Dance, Chess, Yoga, Swimming, Darts, Tennis, Basketball, Organic Living, International Schools Theatre Association (ISTA), Future Problem Solving International (FPSPI), Drama, Short Film, Linguistics, Coding, School Magazine (Yazadurmak), English Debate, STEM Workshop and the TÜBİTAK Project Club.

At ENKA Adapazarı Schools, the primary objective in preparing for the Higher Education Institutions Examination (YKS) is to assist students in pursuing education at institutions that align with their aspirations. Throughout their high school journey, studies are conducted to provide opportunities for students to explore their interests and talents at each grade level, ensuring they are positioned in the most suitable higher education programs.

As part of the school's academic program, students aspiring to pursue university education in Türkiye are offered university courses designed to prepare them for the university entrance exams. The program is specifically tailored for 11<sup>th</sup> and 12<sup>th</sup> grade students and is led by experienced teachers in their respective fields.

The school counseling department organizes promotional activities featuring experts in various professions and alumni. These initiatives are designed to mitigate the impact of exam-related stress on students, encompassing their learning and exam performance.

The department aids students in selecting the most suitable school and department based on their interests and abilities after the examination process.

Moreover, for students aspiring to pursue education abroad, support is provided during university research, application and exam preparation stages.

Additional programs are organized to prepare students for international exams such as TOEFL, SAT and IELTS. These efforts, conducted in collaboration

with the Mathematics Department and the native teachers of the Foreign Languages Department, persist throughout the academic year.

ENKA Adapazarı Schools celebrated its inaugural graduating class in 2004, and since then, our graduates have consistently pursued higher education at prestigious universities in Türkiye including Boğaziçi (Bosporus) University, Middle East Technical University, İstanbul Technical University, Koç University, Sabancı University, Bilkent University and Bilgi University.

In the academic year 2022-2023, 8 students have been accepted by international universities, where they will pursue their education abroad.

Among the 731 students who continue to receive support from the ENKA Foundation throughout their university education, 80 are also employed by ENKA companies.

ENKA Adapazarı Schools also strive to foster a school community dedicated to life-long learning, social awareness and actively generating solutions for societal challenges.

The school implements “Eco-Schools Programme”, delivering environmental awareness, environmental management and sustainable development education to its students. The school’s commitment to health and quality of life is reflected in the receipt of the “TSE White Flag” and “My School is Clean” certificates. These certifications aim to enhance school health, improve the quality of life, and contribute to the upbringing of healthy generations through comprehensive education.

This year, we have taken important steps to express sensitivity to the difficult moments experienced in many parts of our country and extend a helping hand. Particularly, following the earthquake in Kahramanmaraş on February 6, a series of aid activities were organized in the school to stand by and support the victims of the earthquake.

The efforts have been focused on providing optimal support to students who have lost their families, relocated from the earthquake-affected regions, aiming to alleviate their pain and help them make a new start.

Five students who experienced family loss have become part of the school community, with three of them being accommodated by volunteer teachers on the school campus. Various programs and sup-

port groups were implemented to integrate these students into the school, creating a suitable environment for them to continue their education. The activities conducted in this context included:

**Aid Campaigns:** Organizing aid campaigns with the participation of students, parents and staff, including donations of food, clothing and essential items for earthquake victims.

**Psychosocial Support Programs:** Conducting psychosocial support programs for students who have experienced family loss. These programs, led by experts, aim to support the emotional well-being of student.

**Education Support:** Organizing various courses and summer camps to support the education of students.

These initiatives not only strengthen the sense of solidarity but also play a crucial role in providing a sense of hope and unity to students who are enduring their pain.

#### THE MAIN ACCOMPLISHMENTS OF ENKA ADAPAZARI SCHOOLS IN 2023 ARE LISTED BELOW:

The 12<sup>th</sup> grade student, İbrahim Emre Erden, had his research project titled “The Effect of Smartphone Ad-

diction on Vessel Wall Thickness, Which Is A Predictor of Atherosclerosis” was published in Cambridge University Press, the world’s oldest publishing house and one of the most respected academic publishers.

Two projects were qualified for the Regional Final of the High School Students Research Projects Competition organized by TÜBİTAK.

In the regional final of “Turkish Inter-School Intelligence Games Championship” organized by the Türkiye Intelligence Foundation with the approval of the Ministry of National Education and the support of TÜBİTAK, the school’s team secured the 3<sup>rd</sup> place.

The “2023 Green Difference” competition, an initiative of “Project Green Schools,” showcased exceptional projects worldwide. In this competition, the project “ALGAE” by the 10<sup>th</sup>-grade student Eylül İlhan was recognized as one of the top two projects in the “Land, Air, Natural World” category among hundreds of entries.

Two students from the school took part in the “Pascal, Cayley and Fermat International Mathematics Competition”, organized by the University of Waterloo every year to foster global interest in mathematics.

Three of middle school students were accepted to the YGA Global Impact Middle School program in Türkiye and were entitled to participate education among 25 other students.

Notably, the 8<sup>th</sup> grade student Elif İzmirilgil took 2<sup>nd</sup> place in “Fakir Baykurt Story Contest” annually organized by Sarıyer Municipality with her story “A Deal with the Devil”.

The High School Debate Team became the Champion in the 4<sup>th</sup> debate tournament organized by Emine Örnek Educational Institutions and the student Elif Çalgın came 3<sup>rd</sup> in the best speaker ranking.

The Middle School Debate team became the Champion in the Sakarya Inter-Secondary School Debate Tournament and the student Ali Şamil Gelleci became the 1<sup>st</sup> in the best speaker ranking.

According to the final results of the 5<sup>th</sup> ADAMAT Mathematics Olympics organized this year, the 7<sup>th</sup> grade student Kaan Işık and 11<sup>th</sup> grade student Kubilay Erol received honorable mention awards as 6<sup>th</sup> in their categories across the province.

One of the school’s students received an exhibition award in the TMMOB Şener Özler Children and Architecture Painting Competition.

#### Interschool Swimming Competitions

- › 1<sup>st</sup> place in Sakarya - Little Girls Team
- › 1<sup>st</sup> place in Sakarya - Little Boys Team
- › 1<sup>st</sup> place in Sakarya - Junior Boys Team
- › 4<sup>th</sup> place in the region - Junior Boys Team
- › 1<sup>st</sup> place in Sakarya - Stars Girls Team
- › 2<sup>nd</sup> place in the region - Stars Girls Team
- › 1<sup>st</sup> place in Sakarya - Young Girls Team

#### **School Sports - Sakarya Chess Championship**

- › 1<sup>st</sup> place in Sakarya – in the category of Little Participants
- › 2<sup>nd</sup> place in Sakarya – in the category of Junior Participants
- › 2<sup>nd</sup> place in Sakarya – in the category of Stars Participants
- › Stars Category Kocaeli Chess Provincial Championship

#### **School Sports - Athletics**

- › 1<sup>st</sup> place in Sakarya – in the category of Little Boy participants
- › 3<sup>rd</sup> place in Sakarya – in the category of Little Girl Participants

#### **School Sports - Basketball**

- › 1<sup>st</sup> place in Sakarya – in the category of Little Boys Basketball Team
- › 2<sup>nd</sup> place in Sakarya – in the category of Junior Boys Basketball Team
- › 3<sup>rd</sup> place in Sakarya – in the category of Star Boys Basketball Team
- › 2<sup>nd</sup> place in Sakarya – in the category of Junior Girls Basketball Team
- › 2<sup>nd</sup> place in Sakarya – in the category of Young Boys Basketball Team

### **SUSTAINABILITY**

#### **Symposium on Spatial Perception in Texts**

The Yazadurmak Club organized a symposium titled “Spatial Perception in Texts” emphasizing the literary

and cultural values of students. The goal was to encourage their exploration and comprehension of key aspects of Turkish and world literature. Focused on “Sait Faik Abasıyanık,” the symposium gathered 86 participants and featured three speakers to facilitate discussions and insights into the topic.

#### **Human Rights Symposium**

In this symposium organized for high school students throughout the Sakarya province, 120 high school students discussed various aspects of human rights violations, issues and solutions within the scope of Human Rights Week activities. The symposium aimed to address the impact of global events and current issues on people, fostering interaction and awareness among the masses. Participants worked collaboratively to formulate solutions for the identified problems.

#### **Free and Independent Turkish Women Workshop**

The workshop was conducted with the participation of 6 lawyers, 1 doctor, 1 psychologist, 13 parents, 5 teachers and 61 students, aiming to foster collaboration among women, empowering them to address negative or unfair situations they may encounter solely based on their gender and to advance their common interests.

#### **Tree Planting Event**

As part of the school’s anniversary celebration, a tree planting activity was organized with the participation of 10 parents and 16 students.

#### **TÜBİTAK 2204-D Climate Change Project Competition**

The project, titled “A Climate Classroom in Every School” aims to increase environmental awareness by enabling students in every school to make direct observations. It involves designing a sustainable Ecology Classroom consisting of low-cost yet comprehensive stations that are self-sufficient.

Wind catchers, traditional architectural elements historically used for natural ventilation and cooling purposes across various cultures, play a key role in this project. By combining these ancient techniques with modern needs, it is possible to reduce the energy consumption from air conditioners and minimize our impact on the environment. Wind catchers capture natural wind currents, providing cool and clean air to indoor spaces, making them a more environmentally friendly alternative to air conditioners. In this context, the aim of the project “Climate Control with Wind Catchers” is to develop solutions that can replace air conditioners.

#### **Debate Academy**

An event was organized with the aim of offering fundamental debate training for students who lack the opportunity to receive debate education in the province, attracting the participation of 20 individuals.

#### **Yazadurmak Magazine Printing**

The school magazine, Yazadurmak, has been printed using recycled paper.

#### **Sustainable Learning Centre**

As part of an effort to raise awareness about the effects of microplastics in the water ecosystem, an activity was organized in the corridor where hand-made fish and octopus from waste materials were displayed. A game was designed to create awareness and along with this game, all students were encouraged to play TEMA Foundation’s sustainability game ‘A to Z’ as part of the event.

#### **Climate Action by 8<sup>th</sup> Grade Students**

In this community service project, 8<sup>th</sup> grade students prepared banners to draw attention to the climate crisis and raised awareness within the school community.

#### **Herkese Kitap Foundation Project Manager**

Our high school library coordinator serves as a volunteer project planner and executor for Herkese Kitap (Books for Everyone) Foundation, a non-profit civil organization engaged in nationwide activities. The foundation has been working since 2014 to increase awareness of books in the society we live in by creating book-focused projects for disadvantaged social groups.

### Artificial Intelligence Education

Training sessions, organized by the information technologies department every year, help the school's teachers keep up with the times and maintain qualified education. In this year's two different sessions, discussions centered on the concepts of artificial intelligence, its practical applications and the integration of various tools into lessons. Teachers were empowered with the skills to incorporate technology, and a platform was established for sharing ideas on personalizing educational materials and creating artificial intelligence-supported learning resources.

### Translation of the Guide for the Inclusion of the HPV Vaccine in the National Immunization Program (WHO)

The aim of the project is to expedite the inclusion of the HPV vaccine in the national immunization program, raise awareness and educate the public about cervical cancer. Through this project, the students of the school have emphasized the Sustainable Development Goals of promoting a healthy and quality life.

### Art and Sports Workshop

The project aims to inform and raise awareness among high school students about sports and art. In line with the project, 80 high school students from the entire province participated in the workshop, where the requirements of a healthy and quality life were dis-

cussed through the lens of the role of sports and art in our lives.

### Sustainability Community Service

The project aims to provide information about sustainability to 2<sup>nd</sup> grade students within the scope of the WWF Türkiye Nature Pioneers program and raise awareness by creating an interactive discussion environment. The target audience of the project is 48 primary school students. In terms of its objectives and process, the project emphasizes sustainable cities and communities from the Sustainable Development Goals.

### Green Crescent Project

The aim of the project is to increase social awareness about addiction in collaboration with the Green Crescent and to disseminate methods of combating addiction. The students, through awareness activities organized in collaboration with the Green Crescent, have conveyed the obstacles to maintaining a healthy and quality life posed by addiction. They have ensured the awareness of both their peers and their surroundings.

### Transform, Don't Dispose

The aim of the project is to inform authorities about the environmental damage caused by the burning of

surplus materials used in tractor manufacturing at a tractor factory in the city after their use and to create awareness about recycling methods that reduce the resulting harm. Through this project, students have advocated for the prevention, reduction and awareness of the harm caused by factory waste, promoting the reuse of materials through recycling and contributing to the reduction of environmental pollution.

### Clean Parks for the Children of Adapazarı

The aim of the project is to ensure that children, especially in the city, have safe, inclusive and accessible green spaces. In pursuit of this goal, students, through collaboration with local institutions, regularly cleaned children's playgrounds in their surroundings. Throughout this process, they raised awareness among both children and the local community about the importance of preserving parks.

### Gender Equality

In order to develop students' information literacy skills in the Youth unit, a discussion and questioning study was first conducted on SDG 5 Gender Equality through the life of Malala Yusufzay. Then, creative posters were created by the 7<sup>th</sup> grade students as a result of research on gender equality.

### ENKA Promises

In November 2023, the video "ENKA Promises" was prepared by 7 students from different age groups in the Sustainable Impact Club with the data collected from the whole school community to raise awareness about the Sustainable Development Goals. This video was shared with the whole school community both via email and on the screen at the entrance of the school.

### World Water Day

As part of the March 22<sup>nd</sup> World Water Day activities, the clean drinking water collected by Adapazarı ENKA Schools as part of the "Sen de Can Suyu Ol" campaign was delivered to Hatay province. The departure of the collected water once again emphasizes the importance that the school community attaches to social responsibility projects for regions in need of water. The campaign, which was realized with the active participation and support of the ENKA family, aims to raise awareness of social responsibility as well as emphasizing the vital importance of water.

## PRIVATE ENKA SCIENCE AND TECHNOLOGY HIGH SCHOOL - KOCAELİ

In the school, established in 2014 with a modern education campus, qualified teaching staff, and equipped with laboratories, 119 students are currently being educated. The most important goal in founding the school is to nurture individuals of high quality who can lead Türkiye to its rightful place in the future.

The school's educational program spans five years, commencing with a one-year English language preparatory class. Additionally, German is taught as a second foreign language.

The main objectives of ENKA Science and Technology High School are:

- › To provide project-based education,
- › To provide students an academic education for further study in leading departments of top universities,
- › To provide advanced foreign language education,
- › To provide up-to-date technological education,
- › To provide the intellectual level of students by means of education and activities organized in the fields of culture, arts and social.

The school is located in the same building with Private ENKA Vocational and Technical High School that has a total covered area of 15,000 m<sup>2</sup> and is situated in a green field on a 30,750 m<sup>2</sup> plot in the Kocaeli Machinery Specialized Organized Industrial Zone. Students share various amenities, including the dining hall, sports hall, tennis court, football pitch and other campus areas, with students of Private ENKA Vocational and Technical Anatolian High School.

All of the students get full scholarships and all services including education, transport and meals, and preparation courses for the university entrance examination are all provided free of charge.

In addition to the science high school curriculum, elective courses are given in line with the goals and tendencies of the students from 10<sup>th</sup> grade onwards. Students who are inclined to study medicine are taught genetics in the genetics laboratory, and students who are thinking of studying engineering are taught mechatronics and computer programming languages in workshops.

A number of students are sent to a language school in the city of Canterbury in the United Kingdom during the summer vacation to enhance their foreign language skills with the sponsorship of the Directorate of the Machinery Specialized Organized Industrial Zone.

Students are able to follow 12 periodicals in the school library with 16,000 books, including digital sources such as Encyclopedia and Britannica ImageQuest.

In addition to applied sciences laboratories equipped with the latest technology for physics, chemistry and biology, our school has a LEGO robotics studio, a model aircraft/drone workshop, a science center, a visual arts studio, and a music studio where our school orchestra and bands rehearse.

Having achieved great success, a total of 22 students from ENKA Science and Technology High School and ENKA Vocational and Technical Anatolian High School received medals at the 30<sup>th</sup> National Science Olympiads award ceremony. The students won 3 medals in mathematics; 7 in physics; 6 in astrophysics; 2 in chemistry; 3 in biology and 1 in the field of computer science.

They kept on succeeding in the first stage exams of the 31<sup>st</sup> TÜBİTAK Science Olympiads. Among a total of 44 students; 8 from physics, 5 from astrophysics, 14 from biology, 7 from chemistry, 7 from mathematics and 3 from computer science, were successfully qualified to participate in the 2<sup>nd</sup> stage. In 2023, the school achieved the top position in Türkiye for having the highest number of students who successfully passed the 1<sup>st</sup> stage in the Science Olympiads.

The students of the school, who have proudly represented our country in various competitions, demonstrated exceptional performance after being selected for the Turkish National Team in international science Olympiads.

116 students from 21 countries participated in the 57<sup>th</sup> Mendeleev Chemistry Olympiad, between April 30<sup>th</sup> and May 6<sup>th</sup>, 2023, was organized in Astana, the capital of Kazakhstan. The students of the school, Azra Şekercioğlu and Kadir Kaan Erbaş, who represented our country in the National Team, were awarded bronze medals.

In the 40<sup>th</sup> Balkan Mathematics Olympiad, two students from the school represented the Turkish National Team among 131 students from 22 countries, Mehmet Can Baştemir won the gold medal and Serdar Bozdağ received the silver medal.

In the 64<sup>th</sup> International Mathematics Olympiad held in Chiba, Japan, with the participation of 612 students from 112 countries, the students from the school, Mehmet Can Baştemir received a gold medal and Serdar Bozdağ a silver medal.

Among 300 students from 80 countries, the students from the school, Kerem Aydın, received a bronze medal at the 34<sup>th</sup> International Biology Olympiad held in Al Ain, United Arab Emirates, and Azra

Şekercioğlu, who is in the Turkish National Team, received a silver medal in the 55<sup>th</sup> International Chemistry Olympiad (ICHO) held in Zurich, Switzerland.

In the 16<sup>th</sup> International Astronomy and Astrophysics Olympiad, held in Katowice, Poland, the students from the school Tuna Tülümen, received a silver medal and Mehmet Öztürk a bronze medal among 236 students from 50 countries.

Among 35 students who took part in the International Mathematics Competition organized by the University of Waterloo-Canada Anıl Çelen, Ada Mirza Ergene, Uğur Emre Uzun and Harun Vicdan shared the 30<sup>th</sup> place in the world with 142 points in the 10<sup>th</sup> grade category. Mehmet Can Baştemir received 142 points in the 11<sup>th</sup> grade category and was ranked 18<sup>th</sup> in the world.

In 2023, the graduates of Science and Technology High School attained remarkable success in the university entrance exams. In the Higher Education Institutions Examination (YKS), 10 students from the school featured among the top 1,000 students according to their placement score types. According to the placement results, 13 students were admitted to the faculty of engineering, 4 to the faculty of medicine, 2 to universities abroad and 4 to other types of undergraduate education.

In order to support the students in making their career choices, the school arranges a careers introduction event featuring the participation of professional associations, universities and representatives from organized industrial zones. This event provides students with the opportunity to gain detailed information about a wide range of occupations.

## PRIVATE ENKA VOCATIONAL AND TECHNICAL ANATOLIAN HIGH SCHOOL - KOCAELİ

**ENKA Vocational and Technical Anatolian High School (ENKA Technical Schools) is the first private vocational school founded in Türkiye, where all students study on full scholarship.**

Founded in 2008, the school initially operated from a temporary building and later re-located to its main campus in 2010. Currently, our school provides education to 377 students across three major disciplines: industrial automation, machinery technologies and chemical technologies.

The school was founded with the primary goal of providing comprehensive training in professional fields essential to meet market demands. Utilizing state-of-the-art technological equipment and contemporary methodologies, the mission of the school is to cater to the social and cultural needs of students while instilling a strong sense of responsibility, work ethic, moral values and sensitivity. The school is dedicated to fulfilling the objectives of industrial sectors by nurturing individuals with top-tier knowledge and experience, and aims to prepare students to make substantial contributions to future research and development units. The school's ultimate objective is to empower graduates, enabling them to contribute substantial value to production processes and adeptly meet the demands of vocational and technical education institutions.

The school envisions being a pioneer in Turkish education, setting the highest standards in a manner befitting the esteemed name "ENKA." By delivering education responsibly, the school aspires to become a trailblazer, serving as a positive example for other institutions. Additionally, it aims to actively contribute to the advancement of vocational technical education, establishing a notable presence both nationally and internationally.

All students in the school benefit from full scholarships, encompassing services such as education, transportation, meals and the university preparatory course, all of which are provided free of charge.

Our school, which implements its own original training program, serves with technical facilities and qualified teaching staff. Spanning a covered area of 15,000 m<sup>2</sup>, the campus is situated amidst greenery on a 30,750 m<sup>2</sup> plot donated by the Kocaeli Machinery Specialized Organized Industrial Zone Directorate.

The school building comprises 27 classrooms, 5 laboratories, 13 workshops, machinery technologies, industrial automation and chemical technologies, a dining hall and a gym. In line with international collaboration, the school has developed its premises, equipment and educational program in partnership with similar institutions abroad, particularly in Germany.

To enhance practical training, the school features cutting-edge physics, chemistry and biology laboratories. Moreover, it boasts specialized spaces such as a LEGO robot studio, model aircraft-drone workshop, science center, visual arts studio, and a dedicated rehearsal studio for the school orchestra and music bands.

Students receive an exceptional level of technical education with a project-based educational philosophy in state-of-the-art CNC machines, high-level chemistry laboratory devices and mechatronics workshops in accordance with industry 4.0. Students can easily implement the projects they designed with the wide workshop machinery park and 3D printer facilities offered in the computer laboratory.

Students produce 3D printers, 3-axis and 5-axis CNC machines and mechatronics test sets which they use in their own workshops. Technical trips to the factories are organized for students to integrate with the industry, to gain production culture, and to see the production on the site.

The mutual relations with the vocational schools abroad are strengthened by the sister school project. Annually, a designated group of students embarks on vocational internships in Germany, fostering international collaboration. Guest students from the sister schools are hosted at ENKA Technical School in Türkiye.

To enhance students' foreign language proficiency, a selected number of students participate in language programs at Canterbury, England, sponsored by the Regional Directorate of Machinery Specialized Organized Industry.

The school holds the ISO 9001:2015 Quality Management Certificate and the "Clean School Healthy School" Certificate given by Turkish Standards Institution.

The school has successfully completed two European Union Erasmus Projects in the past, and its commitment to international collaboration continues with the third project.

Initiated in 2021 the ongoing robotics project titled "Europe Drives Together Programmed to the Target – Development and Production of a Programmable Vehicle in the Context of Robotics," spans three years and involves partnerships with schools in Poland, Belgium, Germany, Italy and Hungary.

In November 2023, the school hosted a project meeting, extending a warm welcome to teachers and students from its partner schools.

During their visit, the guests conducted workshops on Arduino and control cards in the school workshops. Additionally, technical visits were organized to FARBA and SEW-Eurodrive Factories, enriching the experience within the framework of the project.

In June 2023, 89 students graduated from the school and 5 graduates of the school managed to rank among the first 1,000 students in Türkiye in the Higher Education Institutions Exam (YKS).

The school's student Efe Bekteş achieved great success by placing 7<sup>th</sup> in Türkiye in the YKS rankings. All of our 76 graduates, who made their selection based on their university placement scores, were placed in high-profile undergraduate programs at top universities. 44 students were placed in engineering and architecture faculties, 11 students in medical faculties, 3 students in dentistry and 18 students in various faculties.

Graduates, under the umbrella of the graduates' association they established, continue to embody the

"ENKA Culture" and collaborate in various areas including internship opportunities, the circulation of job opportunities and the implementation of social responsibility projects.

Students participate in many national and international competitions every academic year and achieve great successes.

The 27<sup>th</sup> National Mediterranean Mathematics Competition by Akdeniz University was held in two stages. The first stage was held online on 15<sup>th</sup> April 2023 and the final stage was held face-to-face at Yeditepe University on 6<sup>th</sup> May 2023. In the first stage, among 2,000 students, 29 students from the school passed. In the final stage, among 421 students, the students of the school received a total of 14 medals, including 3 gold, 7 silver and 4 bronze.

The school constantly receives more achievements in vocational fields every year.

In previous academic years, the school used to purchase electronic cards for controlling robots in robotics competitions, and now electronic cards designed by the teachers and students of the school are actively utilized.

A multifunctional electronic educational board "The #ENKatron Modular Robotics Board" was designed and produced by Industrial Automation Department teachers and students at the school. The board, which can be programmed with Arduino IDE, is a professional microcontroller development board that can be used easily in middle and high-level projects. The students, who have achieved great successes in assertive areas such as university entrance exams, Science Olympiads and TÜBİTAK projects, continue to work at the same pace in R&D studies, too.

In one of the FRC Off-Season competitions held at the Kurtköy Sports Hall, the school team with the robot - 6985 ENKATECH - built in the school workshops won the "Winner" award in the Robocube Off-Season. Having been ranked as the first, the school also received the "Excellence in Engineering Award", a recognition we had previously earned.

In the 2023 TEKNOFEST finals, where we presented 5 projects, two of our projects received 1<sup>st</sup> prizes in their respective categories:

Zeynep Bakırkaya and İpek Kahraman, along with their advisor teacher Mevlüt Erdoğan, with their project of production of shape memory plastic material/cable/plastic with sustainable bioplastic from rice straw in the Environment and Energy Technologies category;

Necla Naz Bahar and Naz Duru Ardoğlu, and guided by their advisor teacher Fatih Yıldırım, with their Multifunctional Disabled Vehicle project in the Technology for the Benefit of Humanity Category.

The 15<sup>th</sup> robot competition, organized every year by the Ministry of National Education, was held in Bursa this year. Having participated in the competition in different categories with the high participation of especially vocational high schools from different parts of Türkiye, the students of the school with 7 works won the 1<sup>st</sup> place in the free category and the 2<sup>nd</sup> place in the themed category.

The "International Butterfly Robotics Olympiads", conducted for the 4<sup>th</sup> consecutive year by Gebze Technical University, was held among 310 competitors in 4 different categories. In the category of barrier-free living technologies, the students of the school came 2<sup>nd</sup> with the smart glove project called "Translator", which enables hearing-impaired individuals to communicate with healthy individuals through voice or text, and it also provides an accessible learning experience through a designed game for those newly acquainted with sign language.

Gebze Güzeller OIZ hosted the "I Have a Patent Idea" project competition award, organized by Marmara Teknokent, Turkish Patent Movement, Adres Patent, and Adem Ceylan Final Technical College. The event witnessed the presence of esteemed officials, including the Kocaeli Deputy Governor, Gebze District Governor, Provincial Director of National Education, Provincial Industry and Technology Director, Marmara Teknokent Representatives, Gebze Güzeller OIZ and other protocol members.

In this competition, featuring participation from vocational schools across Kocaeli, the students of the school excelled by securing the 1<sup>st</sup>, 3<sup>rd</sup> and 5<sup>th</sup> places.

Last year, the students of the school again won the first 3 places in the same competition.

The Enkatech Seniors 25255E team of the school received the Design Award at the Vex Robotic Competition (VRC) Türkiye finals, where teams from various schools participated. The event took place at Istanbul Caferağa Sports Hall. The exceptional skills demonstrated by the students of the school in both robot construction stages and software aspects received high praise from visitors who explored the school stand.

Cooperation protocols covering education, science, arts, sports and cultural fields were signed between the school and Sabancı University and Gebze Technical University in order for students to conduct scientific studies, research and projects in cooperation with universities, and to benefit from social facilities such as laboratories, libraries, conference halls and sports halls.

The student of the school Tuna Kayra Döndü became the 1<sup>st</sup> in the Yıldırım Chess Tournament held by the Turkish Chess Federation, Kocaeli.

In the “Young Girls B Category” in the school sports orienteering competitions organized by the Provincial Directorate of Youth and Sports at the campus of Gebze Technical University, the student of the school Bilge Şahin came 1<sup>st</sup> and the boys’ team got the 4<sup>th</sup> place in the high school category in the tennis competitions and the girls’ team won the 2<sup>nd</sup> place.

In the quiz competition organized by the Ministry of Youth and Sports in Kocaeli, in which 49 teams participated, the students of the school Ada Mirza Ergene, Kerem Aydın and Yiğit Koca won the 1<sup>st</sup> place.

Having participated in the International Music and Folk Dance Festival held in Ohrid, Macedonia, the school’s folk dance team of 24 people represented the school and our country in the best way with their performances.

The school magazine named “ENKA’nın Sesi”, which is completely prepared by the students of the school, continues its publication life by being published twice a year. All issues of the magazine are published on the school’s website and can be read at the <https://www.enka.k12.tr/kocaeli/okulda-yasam/okul-dergileri/>.

The school students visit various schools across European countries and Türkiye, actively participating in Model United Nations (MUN) simulation organizations.

In 2023, the school attended foreign MUNs including CALSMUN organized by Cals College in Nieuwegein, the Netherlands; MUNSCE organized by Stedelijk College in Eindhoven, the Netherlands; FAMUN organized by Farel College in Amersfoort, Netherlands; BERMUN organized by John F. Kennedy School in Berlin, Germany; and OLMUN organized by Weser Ems School in Oldenburg, Germany. Additionally, the school students participated in national MUN programs such as ENIMUN organized by ENKA

Schools on İstinye Campus, TÜBİTAKMUN organized by TÜBİTAK High School and EDMUN organized by TED College.

As part of the Youth and Sports Day celebration during the week of May 19<sup>th</sup>, the students organized the 5<sup>th</sup> ENKA FEST youth festival on the school campus.

The school submitted 24 projects for the 54<sup>th</sup> TÜBİTAK High School Students Research Project Competition. Among the projects, 12 from our school in the İstanbul Asian Region were chosen for the regional exhibition.

Following the regional presentations on 3-4 April, a chemistry project from the school secured the 1<sup>st</sup> position in the region and a biology project was ranked 3<sup>rd</sup>.

The school’s students, Berrak Demir and Miray Özcan, along with their advisor teacher Elif Yılmaz, secured the 1<sup>st</sup> position in the regional exhibition and advanced to the Türkiye finals. In recognition of their achievement, they were honored with an incentive award for ranking among the top four in the field of chemistry nationwide. In the project on the investigation of the biodiesel production capacity of Halotolerant *Bacillus Australimaris* at different salt concentrations, biodiesel production was carried out by breaking down lipids in waste vegetable oils by means of lipase enzyme obtained from halotolerant bacteria developed at different salt concentrations.

The school represented Türkiye in the article titled “International Mapping Study on Good Practices of Applied Research in Vocational Education and Training” prepared by the European Training Foundation (ETF), which was established to assist the EU’s neighboring countries in reforming their education and training systems as part of the EU foreign relations policies.

Before the report, the educational activities conducted at the school underwent examination by the Netherlands CINOP Research Center on behalf of ETF, and various interviews were held with the school administration, teachers, and students. Particular emphasis was placed on TÜBİTAK research projects and Erasmus studies prepared by the students of the school. You can access the report on the school website at <https://www.enka.k12.tr/kocaeli/akademik-faaliyetler/mun-model-birlesmis-milletler-2/avrupa-birligi-iyi-ornekler-raporu/>.

## ENKA SANAT

ENKA Sanat celebrated its 40<sup>th</sup> anniversary with a variety of culture and arts events and special projects and programmes that continued throughout the year. In its events season, ENKA Sanat offered a wide selection for different age groups and interests, including innovative examples and masterful renditions in the many branches of the arts.

The programme this year included plays that appeal to all age groups and best loved works of classical, jazz and popular music. ENKA Sanat hosted Türkiye's acclaimed artists as well as promising young talent. The programme of films selected in cooperation with Başka Sinema offered a unique viewing experience in the open air, under the stars. Moreover, ENKA Sanat celebrated the 100<sup>th</sup> anniversary of the Republic with artists and arts lovers through a series of events held from September to the end of the year.

Among the theatrical plays and performances staged this year were: "Toz" (by ID İletişim), "Yaşamaya Dair" (Dostlar Tiyatrosu), "Nuh'un Gemisini Aramak" (produced by ENKA Sanat), "Güzel Son" (Semaver Kumpanya), "Acındırma Propaganda Birimi" (Oyun Atölyesi), "Bir Terennüm" (Orchestra Theatre), "İmparator" (Dostlar Tiyatrosu), "Aşkın En Kısa Gecesi" (Nilüfer Kent Tiyatrosu), "Ayağa Kalk Dans Et" (MSGSÜ İDK Modern Dance Department and "Taşdıklarımız" (Eira & Çıplak Ayaklar Kumpanyası).

Among the classical and jazz music concerts held at the Auditorium and the Open Air Theatre this year were: Fazıl Say & Genco Erkal, Borusan Quartet (New Year's Concert with Republican Period Turkish Composers and Piazzolla), Burçin Büke & Güvenç Dağüstün (world premiere of the 100<sup>th</sup> Anniversary Waltz composed by Burçin Büke, with lyrics by Güvenç Dağüstün), Cihat Aşkın & Jerfi Aji (Hatlar), Semplice Quartet (Guest soloists: Gökhan Aybulus, Esen Kıvrak), Kerem Görsev Quartet, Boğaziçi Youth Choir (Conductor: Masis Aram Gözbek), Jamal Aliyev & Ece Dağıstan (Songs of the World), AyşeDeniz Gökçin Piano Recital (world premiere of the 100<sup>th</sup> Anniversary March composed by AyşeDeniz Gökçin).

Among the popular music concerts held at the Open Air Theatre, one of the best-loved summertime venues were: Teoman, Birsen Tezer (featuring Sabri Tuluğ Tırpan), Kardeş Türküler (featuring Jülide Özçelik), Sertab Erener & Emre Kula, Barabar, Büyük Ev Ablukada and the Yekpâre Trio (Ceylan Ertem, Coşkun Kandemir and Cenk Erdoğan).

The Turkish and foreign award-winning films shown in the open air this year were: Karanlık Gece, Elvis, The Whale, Daliland, Frankenstein, Masquerade, Ela ile Hilmi ve Ali, Carmen and The Crime is Mine.

ENKA Sanat undertook the marketing, publicity and PR activities for these events. The number of news items about the events published via traditional and digital media was 1,450, with 32,897,106 views.

Embracing all arts lovers with its special promotions, advertising and PR activities this year, ENKA Sanat offered tickets for TRY 40, aiming to contribute to the access of young people to the arts. In film viewings, all arts lovers were able to benefit from the "buy a ticket, get one free" offer. The shuttle bus to the metro station was well utilised by audiences. A total of 17,124 people attended the events held throughout the year.

## ENKA SANAT INCREASES ITS SUPPORT FOR YOUNG ARTISTS

### Lale Tara Arts Scholarship Launched

ENKA Sanat, which has run numerous support programmes for young artists in various fields in the past, launched a new support programme in its 40<sup>th</sup> year: the Lale Tara Arts Scholarship. The scholarship aims to support the undergraduate and post-graduate study of talented young artists abroad. This year it focused on the field of classical music. The selection committee for the scholarship included cellist and MSGSÜ İstanbul State Conservatory faculty member Dilbağ Tokay, world famous pianist and composer Fazıl Say, pianist and Ankara University of Music and Arts faculty member Prof. Dr. Gökhan Aybulus, ENKA Sanat director Gül Mimaroğlu – representing ENKA Foundation – and İstanbul State Symphony Orchestra flutes section leader and Borusan İstanbul Philharmonic Orchestra solo flautist Bülent Evcil. Among the students awarded the scholarship following the preliminary selection round and interviews with the selection committee were Efe Şen

(piano), who was accepted into Prof. Alfredo Perl's class at the Hochschule für Musik Detmold in Germany for undergraduate studies, and Yağmur Tuna (violin), who is studying at the Moscow Tchaikovsky State Conservatory.

Pre-applications for the scholarship were completed over the "online application system" on ENKA Sanat's website. 28 applications were received and 10 candidates were assessed in the second stage which included the interview. The number of news items produced about the scholarship via traditional and digital media was 371, with 2,489,212 views

### ENKA Sahne's young talents achieve great success

This year's group of young talents included in the ENKA Sahne (ENKA Stage) project, which ENKA Sanat has been running for three years now to support promising young classical musicians, were selected by Advisory Board members viola player Efdal Altun, violin virtuoso, composer and academic Cihat Aşkın, pianist and academic Gökhan Aybulus, pianist and composer AyşeDeniz Gökçin, pianist and composer

Fazıl Say and cellist and academic Dilbağ Tokay. As part of the project, for which Cihat Aşkın acted as the artistic director, the young artists Derya Köftecioglu (harp), Atahan Dinç (violin), Ela Talay (harp), Can Saraç (piano), Taylan Süha Yeşil (violin), Adil Kerem Ünal (piano) and Ali İlhan Çeliksü (cello) played at the ENKA Sahne Gala Concert held as part of the events commemorating Şarık Tara. Academic and pianist Çağdaş Özkan accompanied the young musicians playing at the ENKA Auditorium as répétiteur. Under the project, the ENKA Sahne Gala Concert was filmed by famous documentary filmmaker Selçuk Metin and sound was recorded by Can Aykal. The professional sound and image recordings were presented to the artists to contribute to their portfolios and were aired on ENKA Sanat's YouTube channel on April 22<sup>nd</sup>, the birthday of Şarık Tara. The ENKA Sahne New Year's Concert was broadcast on Borusan Klasik radio on January 1<sup>st</sup> 2024, as has been done every year.

2023 was a year in which ENKA Sahne's young talents achieved success. 13-year old Arya Su Gülenç

became the youngest pianist ever to win first place in the International Pianele Piano Competition, the 16<sup>th</sup> of which was held in Germany this year with 26 pianists between the ages of 13-29 taking part. 16-year old pianist Can Saraç was awarded the Arturo Benedetti Michelangeli grand prize at the Piano Academy Eppan, held in Italy.

ENKA Sanat undertook the marketing, publicity and PR activities for these events. The ENKA Sahne Gala Concert 2023 received 1.200 views on the YouTube channel. In all, 21 young artists from nine provinces in Türkiye have been hosted by this project over the past three years, during which the concerts, digital and radio broadcasts reached audiences in seven countries. Over the last three years, the concerts held under the project have received approximately 13,200 views and reached 4,300 physical viewers and radio listeners (excluding previews and social media). Traditional and digital media have carried items a total of 2015 news items about ENKA Sahne and 64,602,127 views.

## ENKA SANAT BRINGS CHILDREN AND ARTISTS TOGETHER!

### *The Fun World of Classical Music with Efdal Altun*

ENKA Sanat continues to welcome all children, especially ENKA Schools students, at plays and classical music concerts suitable for their age, and to introduce them to artists and engage them in workshops and open practice activities. In its 40<sup>th</sup> year, ENKA Sanat continued its longstanding mission of creating the artists and audiences of the future by bringing children and musicians together in the “Fun World of Classical Music with Efdal Altun” event as part of the “Happy Sundays” concept it has been running for years. The event is free for children and aims to introduce them to the various entertaining aspects of classical music. By means of various effects, dialogues and imitations, it provided an enjoyable adventure in the world of music and instruments in the company of musicians. It was well attended by children and adults.

### *Pianist AyşeDeniz Gökçin practices the 100th Year March with ENKA Schools Students*

In the second event of the year, pianist AyşeDeniz Gökçin, who has gained international renown with her novel approach to classical music, practiced the 100<sup>th</sup> Anniversary March she composed and wrote the lyrics to on the 100<sup>th</sup> anniversary of the Republic of Türkiye with ENKA İstanbul Schools Students. The school choir and orchestra performed the march to a crowded audience consisting of students and parents during celebrations on April 23<sup>rd</sup> National Sovereignty and Children's Day.

## INTERNATIONAL PRODUCTIONS IN TÜRKİYE SUPPORTED BY ENKA SANAT!

### *İstanbul Music Festival & İstanbul Theatre Festival*

For many years now, ENKA Sanat has managed ENKA Foundation's sponsorship activities. This co-operation, which goes back almost 40 years, dates to the first concert held by the İstanbul Culture and Arts Foundation (İKSV) with ENKA support in 1984. Since then, we have regularly supported the İstanbul Music Festival and the İstanbul Theatre Festival organised by the İKSV. In addition to this support, we make the ENKA Open Air Theatre and ENKA Auditorium available for events to support the festivals with their venue needs.

At the 51<sup>st</sup> İstanbul Music Festival held between 1-17 June 2023, one of the greatest baritones of our times, Matthias Goerne, was accompanied by the Camerata RCO, established by Amsterdam's famous Royal Concertgebouw Orchestra, one of the most venerated symphony orchestras in the world, at the CRR concert hall.

This year, as the “Major Events Sponsor”, we also supported two international productions included in the 27<sup>th</sup> İstanbul Theatre Festival organised by the İKSV and curated by Işıl Kasapoğlu, one of the top names in Turkish theatre over the last 40 years. Thanks to our support, audiences got to watch the play “Feste” by the Berlin-based Familie Flöz, which is considered the forerunner of the Mask Theatre, and the play and mockumentary “The Republic of Baklava”, written and directed by Anestis Azas, which critics have hailed as the avantgarde of the new generation of Greek theatre.

The two organising institutions undertook the marketing, publicity and PR activities for these events. The number of news items produced about the İstanbul Music Festival in traditional and digital media was 2,015, with 64,602,127 views. The number of news items appearing in traditional and digital media channels about the İstanbul Theatre Festival was 1,275, with 62,396,019 views and an advertising value equivalent of TRY 20,065,807.

### *İstanbul Fringe Festival*

ENKA Sanat hosted two successive international performances under its venue sponsorship of the İstanbul Fringe Festival, which celebrated its fifth year as one of the most important festivals in the field of performing arts. The first performance was “Bunker + Vault” by Canadian choreographer and dancer Rebecca Margolick, who Dance Magazine featured in its list of “25 best artists to watch”. The second was “Re-price” by dancer Becca Hoback, whose choreographies question “what it means to be a human forming a relationship with their body”.

The two organising institutions undertook the marketing, publicity and PR activities for these events. The number of news items about the İstanbul Fringe Festival appearing in the traditional and digital media was 129, with 458,246 views.

## DOCUMENTARIES ON THE MASTERS OF TURKISH THEATRE AVAILABLE ON NETFLIX!

### *Documentaries on Yıldız Kenter and Genco Erkal*

Two great productions which ENKA Sanat has sponsored to record and convey to younger generations the inspiring stories of cherished artists who form the cornerstones of Turkish theatre history are now available on Netflix. Both were produced by Porte Film and directed by Selçuk Metin, one of these productions is the autobiographic work “Genco”, on the life of Genco Erkal. This work not only recounts the

career of the artist but also sheds light on a great and significant period of Turkish theatre through memoirs and anecdotes. The second production, “Caniko”, focuses on the personality and life of Yıldız Kenter and the mark she has left on the theatre.

With the broadcasting of the productions on a digital platform, ENKA Sanat has reached its target of reaching a much wider audience following the premieres and previews. “Caniko”, about Yıldız Kenter, was watched 400,000 times in six months. “Genco”, about Genco Erkal was watched 100,000 times.

# CORPORATE GOVERNANCE

## SECTION I - STATEMENT OF COMPLIANCE WITH CORPORATE GOVERNANCE PRINCIPLES

The Corporate Governance Committee of the company is elected by the resolution of the Board of Directors dated 28.03.2023 and Board Members Fatih Osman Tar (Chairman) and Erdoğan Turgut (Member) as well as Gizem Özsoy (Member) which has the Capital Market Activities Advanced Level License and the Corporate Governance Rating Specialists License are selected. According to the same resolution it is decided that scope of activities of Nominating and Compensation Committee will be carried out by the Corporate Governance Committee. Principles and responsibilities of the committees are approved by the Board of Directors on 28.05.2012 and have been announced to the public.

On 11.06.2014, the duties and working principles of the committees were revised to ensure compliance with the legislation and were declared on company's official website. There are no compulsory principals, which are stated on the annex to the Capital Markets Board's Corporate Governance Communiqué No. II-17.1 and which are not applied. For the non-compulsory ones, principles 1.5.2, 3.3.8, 4.2.5, 4.2.8, 4.4.7, 4.5.5, 4.6.1 and 4.6.5 are not being applied by our company and the reasons for not applying them are explained in the relevant sections of the Corporate Governance Compliance Report. There is no conflict of interest in our Company due to not fully complying with these non-compulsory principles.

Corporate Governance Committee's main objectives are; to present the proposals for the corporate governance policies of the company, enhance the quality of the corporate governance applications and inform the Board of Directors about the effective pursuit of the legislation of the Capital Markets Board related to the corporate governance principles and the generally accepted corporate governance principles of the international capital markets, and about implementing those principles which it deems applicable. The Corporate Governance Principles Compliance Report and Corporate Governance Information Form of the Corporate Governance Committee has been presented to the review of our stakeholders in the Annual Report and website as well as at the company information page of the Public Disclosure Platform (PDP).

## SECTION II - SHAREHOLDERS

### 2.1. INVESTOR RELATIONS UNIT

The Investor Relations Management was established in 2002 within the structure of ENKA İnşaat ve Sanayi A.Ş., for the purpose of arranging the relations with the shareholders.

The Investor Relations Department reports to İlhan Gücüyener, the Member of the Executive Committee of the company and reports on activities.

The main activities conducted by the unit can be summarized as answering the questions on financial statements, activities of the company, conditions to participate in the company's General Assemblies, announcements to public, capital increases, information on issuance of new share certificates and preparation of the company's annual reports. The numerous applications to the unit and the responses to the investors are generally made through telephone. The members are; Sinan Yavuz Aktürk, Leyla Yüksel, Ali Aslan and the manager Gizem Özsoy of the Investor Relations Unit. Gizem Özsoy holds Advanced Level License (205945) and the Corporate Governance License (700865). The Investor Relations Unit can easily be accessed through the general telephone numbers of our company, which is +90 212 376 10 00.

The details of the changes in the Capital and the Shareholding Structure within the year has been given under the Capital section of the Independent Audit Report.

### 2.3. DIVIDEND RIGHT

The Profit Distribution Policy of ENKA İnşaat ve Sanayi A.Ş. which has been approved at the General Assembly held on March 27, 2014 is as follows:

The Board of Directors of ENKA İnşaat ve Sanayi A.Ş. ("the Company") takes into account the performance of the Company of that year, economic conditions, the finalized projects, investments and the cash flow of the Company as well as Turkish

Commercial Code, the relevant articles of Capital Markets Law, regulations and the practices of the Capital Market Board when presenting the profit distribution proposal to the General Assembly.

The principal policy adopted and applied by the company in aspect of profit distribution is to act always in compliance with the applicable criteria as provided in the Capital Markets Legislation while considering a fair balance between the interests of the Company and that of the shareholders thereof. In this manner, at least 20% of the distributable profit which is calculated in accordance with the Capital Markets Board regulations and other relevant legislation is distributed as cash and/or bonus shares.

Under the framework determined by profit distribution policy and the Capital Markets Board, after reserving the 1<sup>st</sup> dividend pursuant to the provisions of Article 36 of the Articles of Association, dividends are distributed to the Bonus Certificate holders as per the rate stated in the Articles of Association (total 7.5%).

Dividends are distributed equally at once to all existing shares as per their rates regardless of date of issuance and acquisition dates. Distribution of cash dividends is planned to be paid no later than one month after the General Assembly where the date of dividend distribution is resolved by the General Assembly.

The place and date of the profit distribution, agreed upon during the General Assembly in accordance with the relevant legislation provisions, is announced to the shareholders through the Public Disclosure Platform and by the announcement on the website of the Company.

The Board of Directors may distribute dividend advance if it is authorized by the General Assembly as well as in compliance with the regulations of the Capital Market. The authorization given to the Board of Directors by the General Assembly is limited with that year in which the authorization is given.

The distribution of profit, which takes place in the Annual Report, is made within the period required by the provisions of the Capital Market Law, as set forth in the Profit Distribution Policy. Until this day, profit distributions have been done without any delays.

The Board of Directors of our Company resolved, as a result of the resolutions of the Ordinary General Assembly for the year 2020 of our Company as held on 30.03.2021 regarding the distribution of the year 2020 profit, it has been resolved to distribute TL 1,120,000,000 dividend starting from April 13, 2021, by taking into account the legal status of the shareholders representing the TL 5,600,000,000 equity, as being 35.714286% gross and 30.357143% net dividend and was distributed thereof

Basing on the power vested in the Board of Directors by the Ordinary General Assembly for year 2022 held on March 28, 2023, the Board of Directors resolved to distribute, a total of TL 1,680,000,000 from the net profit of 2022, a total of TL 500,000,000 from the returned earnings; totaling TL 2,180,000,000 and TL 35,614,745 as cash dividend to founder shares. The Dividend decided to be distributed was distributed on 12 April 2023.

Additionally, based on the power vested in the Board of Directors by the Ordinary General Assembly for year 2022 held on March 28, 2023, the Board of Directors resolved to distribute, a total of full TL 3,000,000,000 from the net profit of the current period as indicated on the financial statements comprising the interim period from 01 January 2023 – 30 September 2023 to the holders of share certificates representing the share capital amounting to full TL 6,000,000,000.

#### DONATION AND AIDS

In 2023, within the framework of the existing Donation and Aids Policy; ENKA İnşaat ve Sanayi A.Ş. on its own has donated TL 122.216.785 while its subsidiaries have donated TL 26.204.640.

#### SECTION III - STAKEHOLDERS

##### Employee Training

Within the scope of ENKA Academy, a total of 6,882 person-hours of training was carried out in 2023 with approximately 488 hours of training.

Personnel Training Hours by Category of Gender at ENKA Headquarters:

|                             | WOMAN       | MAN          |
|-----------------------------|-------------|--------------|
| Total Hours of Training     | 17,674      | 177,783      |
| Training Hours Per Employee | 45.8        | 54.8         |
|                             | BLUE COLLAR | WHITE COLLAR |
| Total Hours of Training     | 133,258     | 62,199       |

- › All ENKA employees have the right to a 50% discount at ENKA Sports, which is one of Türkiye's leading sports clubs.
- › All ENKA employees have the right to a 20% discount for events organised by ENKA Culture & Arts, which hosts a variety of well-respected artistic performances.
- › One day of volunteer leave right in a month is provided to employees who want to take part in volunteering projects.
- › Every year, sailing programmes are organised especially for employees with and without sailing experience, at basic and advanced levels.
- › Health services in clinics established at the head office and projects are offered free of charge.
- › Suitable menus are being prepared for vegetarians and for employees needing special diets.

#### SECTION IV - THE BOARD OF DIRECTORS

##### 4.1. STRUCTURE AND FORMATION OF THE BOARD OF DIRECTORS

The target in determining the company's board members is to create a structure which will enable the members to make productive and constructive activities, to take decisions quickly and rationally, and to form committees in order to organize their activities in an effective way. Although the aim is to have one female member at the Board of Directors, the proposal of the Board Members submitted to the General Assembly has been formed in line with the above-mentioned targets. The Board of Directors which is approved by General Assembly consists of 5 members; as two executive members, one non-executive member and two independent non-executive members.

Regarding the independent members, 2 nominees were submitted to Corporate Governance Committee, which undertook authority of Nominating Committee on January 04, 2023 and were approved on the same day by the Board of Directors.

Declaration of Independent Members of the Board of Directors about their independency is as follows:

In the context of my nomination being "Independent Member of the Board of Directors" at ENKA İnşaat ve Sanayi A.Ş.'s ("ENKA") Ordinary General Assembly Meeting of 2022 which will be held in 2023;

- › No relationship was formed in employment, in capital or in important trading activities, neither by me nor by my spouse, nor by my blood or affinity relatives up to the 3<sup>rd</sup> degree within last five years did not have any direct or indirect relationship with ENKA, 3<sup>rd</sup> parties in relation with ENKA or legal entities who have relation with shareholders of ENKA having a share of 5% or more,
- › Within the last five years, I have not been a partner (5% or above), employed as an executive having a significant duty and responsibility, or as a member of the board of directors in a company, which is primarily serving as auditing (tax audit, legal audit and including any internal audit), consulting and rating of ENKA, which undertakes material business activities under an agreement, in the period where the services or goods have been purchased or sold,
- › As being an independent member of the board of directors, I have the required professional training, knowledge and experience for undertaking the duties of the position,
- › I will not to be a full-time employee of public authorities and institutions after being elected, except being an academic member at university provided that is in compliance with the relevant legislation.
- › I am a resident in Türkiye in accordance with the Income Tax Law no 193 dated 31.12.1960,
- › I have strong standards of ethics, professional reputation and experience for adding positive contribution in activities of ENKA, for securing my independency about subjects in relation with the conflicts of shareholders and for making independent decisions with taking into account of stakeholders' rights,
- › I will be able to spend necessary time for fulfilling the requirements of the position and monitoring processes of the activities of the company,
- › I have not been on the board of ENKA for more than six years within the last ten years,
- › I am not an independent board member in more than three of the companies which are controlled by ENKA or its controlling shareholders and in more than five companies listed on the stock exchange,
- › I am not registered as a board member elected for the legal entity,

I hereby declare my independency within the framework of relevant legislation in force, articles of association of ENKA and criteria mentioned above.

In accordance with the Articles of Association of the company, the Board of Directors is responsible for the management of ENKA İnşaat ve Sanayi A.Ş. and its representation. Validity of all documents to be given by ENKA İnşaat ve Sanayi A.Ş. and all the agreements to be concluded require the names of two persons authorized to represent the company under the official heading and per the signature circular of ENKA İnşaat ve Sanayi A.Ş.. The Board of Directors assembles at the beginning of each fiscal year and divides up the tasks as well as the management and representation authorizations between the board members. With Ordinary General Assembly resolution dated March 28, 2023, the Board of Directors has been resolved to a tenure of one year with a task division as below:

**BOARD OF DIRECTORS**

| NAME, SURNAME     | PROFESSION                                | POSITION                                                 |
|-------------------|-------------------------------------------|----------------------------------------------------------|
| A. Mehmet Tara    | Civil Engineer                            | Chairman of the Board                                    |
| Cem Çeliker       | Lawyer                                    | Vice Chairman of the Board                               |
| Erdoğan Turgut    | Civil Engineer M.Sc.                      | Member of the Board (Non-Executive Member)               |

Fatih Osman Tar meets the criteria applicable to Independent Board Members within the scope of the Corporate Governance Principles of the Capital Markets.

#### 4.2. OPERATIONAL PRINCIPLES OF THE BOARD OF DIRECTORS

The Board of Directors which was approved at the Ordinary General Assembly dated March 28, 2023 made 9 meetings until the end of report period and the average of attendance rate is 97%. Prior to each meeting, the secretariat of Board Directors personally informs board members about the meeting agenda. Since the IPO of ENKA İnşaat ve Sanayi A.Ş., no divergent views have been suggested by board members. There are no privileged voting rights for any member of the Board of Directors.

The Board of Directors were authorized at the Ordinary General Assembly for execution of written transactions listed in articles No. 395 and 396 of the Turkish Commercial Code and to transactions were done with this authority.

In 2022, there were no administrative and judicial sanctions imposed on the Company's governing body and members due to practices contrary to the provisions of the legislation.

The Board of Directors of the Company had discussed about the Affiliated Company Report and the declaration is as follows: "On such date on which the relevant legal steps as mentioned in the report have been taken, always a proper counteract has been undertaken for/towards each of such legal steps in accordance with such terms and conditions and circumstances as being to our knowledge. In this aspect, there is neither any measure to be taken or to be avoided to be taken nor any loss to be suffered by the company."

#### 4.3. NUMBER, STRUCTURE AND INDEPENDENCE OF THE COMMITTEES ESTABLISHED WITHIN THE BOARD OF DIRECTORS

Three committees officiate in affiliation with the Board of Directors of ENKA İnşaat ve Sanayi A.Ş.. The committees assemble as often as it is necessary. Board of Directors' resolution dated 28.03.2023 about these committees is as follows:

For the Audit Committee to elect for a tenure of one year:

Fatih Osman Tar (Chairman) and Mehmet Mete Başol (Member)

For the Corporate Governance Committee to elect for a tenure of one year:

Fatih Osman Tar (Chairman), Erdoğan Turgut (Member) and Gizem Özsoy (Member)

For the Early Identification of Risks Committee and to elect for a tenure of one year:

Mehmet Mete Başol (Chairman) and Erdoğan Turgut (Member)

Also, it has been resolved that according to the structure of the Board, the issues falling within the scope of activities of the Nominating Committee and the Remuneration Committee to be carried out by the Corporate Governance Committee and for the working principles of the committees and task fields to be identified by the committee members and to be submitted to the Board of Directors. Purposes of committees as established thereof, have been stated below:

##### **Purpose of the Audit Committee:**

It is to ensure the duly supervision of the independent audit of the accounting system and financial data of the company as well as of the functioning and efficiency of the internal control system.

##### **Activities of the Audit Committee:**

The Audit Committee convened 5 times during the year. Committee:

- › Review options for the independent auditor for the fiscal year 2023 and submitted KPMG Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik A.Ş. to the Board of Directors' for approval.
- › Reviewed the interim and annual financial reports of the Company and submitted the reports to the Board of Directors for the approval of the Board of Directors after detecting that they reflect the truth.
- › It examined the reports submitted to them as a result of the audits conducted by the Internal Control Unit with the Corporate Quality, Finance, Sustainability & Compliance, Human Resources and HSE departments within the scope of internal audit.

##### **Purpose of the Corporate Governance Committee:**

It is to propose suggestions regarding the corporate governance of the Company; to ensure the increase in quality of the corporate governance applications; to pursue efficiently the legislation of the Capital Markets Board regarding the corporate governance principles and any other corporate governance principles generally accepted on the international capital markets as well as to advise the Board of Directors on the implementation of any applicable ones thereof; to make the necessary workings for the nomination, assessment and training of the proper candidates for the Board of Directors of the Company, and for the determination of the principles of remuneration of the Members of the Board of Directors and top managers of the Company and to propose suggestions to the Board in this aspect.

##### **Purpose of the Early Identification of Risks Committee:**

It is to early identify any potential risks that might jeopardize the existence, development and continuation of the Company, and to take and implement the necessary measures and preventive actions for the elimination of such detected potential risks as well as to perform any workings related to risk management and to review at least once a year any applied risks management systems.

Due to the formation of the Board of Directors as being in total 5 people, some of the members of the Board of Directors are assigned in more than one committee.

In 2023 Audit Committee made 5 meetings, Corporate Governance Committee made 2 and the Early Identification of Risks Committee made 6 meetings within the months stated below.

Moreover, in addition to these committees, Executive Ethics and Compliance Committee, Sustainability Committee, OHS (Occupational Health and Safety) Board, Information Security Committee, Risk Management Working Group under the Board of Directors continue their activities. These committees also report annually to the Board of Directors regarding their activities.

##### **Purposes of the Executive Ethics and Compliance Committee:**

The Executive Ethics and Compliance Committee reporting to the Board of Directors is formed to ensure the Corporate Values to be supported by the Ethics and Compliance Program. This Committee, furthermore, provides support to the Company in the application of an effective Ethics and Compliance Program, in the determination of the basic principles of such Program as well as in the continuously promotion of creation of a Corporate Culture that attaches importance to ethical business conduct and compliance with laws.

##### **Purpose of the Sustainability Committee:**

The Sustainability Committee (the Committee) was formed to assess economic, social and environmental risks and opportunities that may have an impact on ENKA's assets and trading activities, to monitor and analyse relevant sustainability issues, to identify the sustainability strategy and to undertake projects to realise goals. The Committee is led by the ENKA's Chairman of the Board of Directors and reports results obtained from all sustainability efforts to ENKA's senior management.

The Sustainability Committee which consists of managers of different units and departments at the Company and subsidiaries representing all main functions, continued its activities in 2023 by reviewing the sustainability strategy, ensuring ownership of sustainability goals and activities at every level and monitoring the sustainability performance.

**Purpose of the Information Security Committee:**

The Information Security Committee was established to support the execution of the necessary works within the framework of the operation, maintenance and efficiency of the company's information security management system and to report the performance of these efforts to the Board of Directors.

In this context, the Information Security Committee is primarily responsible for; ensuring the confidentiality, integrity and accessibility of information belonging to ENKA and its stakeholders, protecting information assets, satisfying information security requirements within the scope of applicable terms and conditions and international standards, determining and systematically managing information security risks, performing monitoring and measurement activities, improving information security management system performance, and implementing and promoting information security policies and procedures within the company.

The Information Security Committee, which consists of asset and risk owners that may affect the information security, meets once a year.

**Purposes of the OHS (Occupational Health and Safety) Board:**

The OHS Board, consisting of the Employer Representative, OHS Specialists, Workplace Physician/Nurse, Human Resources Specialist, Administrative Affairs Officer, Employee Representatives and any related experts as to be assigned pursuant to the relevant agenda items, and holding its meetings in 3 months intervals, is formed for the purpose of properly identification and assessment of any potential risks related to occupational health and safety at Head Office and accurately determination and assessment of any measures to be taken there against, and reporting the same to the Board of Directors.

Besides the OHS Board, in all our projects, also HSE Boards are formed under the guidance of the relevant Project Managements and the Project Health, Safety and Environment (HSE) Departments. These Boards hold regularly on weekly and monthly basis the so-called "Zero Accident Team Meetings" and review the HSE performance of the project and decide on any main actions required to be taken.

**4.4 RISK MANAGEMENT AND INTERNAL CONTROL MECHANISM**

The Internal Control Unit within the structure of the company, which periodically inspects the projects and the group companies in advance and proposes the necessary solutions for any deviations from the objectives, as well as all of the potential risk factors to the management. The internal control systems and its structure is organized in a way that can eliminate all risks to be encountered by the company, especially the ones which could adversely affect the activities and proactively works for the solution without encountering any problems even in the crisis period. Increasing strength of the company's financial position is an indication of this system working effectively.

**Purposes of the Risk Management Working Group:**

The Risk Management Working Group is formed in accordance with the Resolution of the Company's Executive Ethics and Compliance Committee dated 28.11.2017 in order to ensure the proper identification of any corporate risks of ENKA, the accurate determination of the applicable risk mitigation methods and the precise assessment and review of such risks as identified.

Amongst the basic tasks of the Risk Management Working Group is the application of an effective Risk Management Program throughout the Company, the identification of the principles and methods underlying such Risk Management Program, and the assurance of continuous development of Risk Management as a Corporate Culture extending to and through the projects, units and individuals.

The main risks faced by the Company and the policies related to the management of these risks are given in detail under 34<sup>th</sup> note of the Independent Audit Report in the following headings.

- › Capital risk management
- › Interest risk
- › Foreign currency risk
- › Credit risk
- › Liquidity risk

**4.5. MISSION, VISION AND OBJECTIVES OF THE COMPANY****Our Mission:**

To design, build and deliver safe, high-quality and cost-effective construction projects on schedule for our customers while providing quality employment and career growth opportunities for ENKA Employees.

**Our Vision:**

To be one of the best and innovative engineering & construction companies serving globally.

**Our Performance Objectives:**

- › To be open to innovations, using advanced technologies and always seeking the better,
- › To be prudent and sensitive about work security and environment protection,
- › To train our young employees in accordance with our culture as creative, hardworking and honest employees and to ensure that our employees work as individuals who have self-confidence, are able to communicate and use discretionary power and take responsibility, and
- › To seek our competitive power and profit in perfecting our management and technical skills.

**Pursuit of the Objectives and Achievement of Goals:**

The objectives that reflect of our sensitivity about completing the works before the end of the planned time frame and delivering to the client are pursued very diligently at the highest and most detailed level. The members of the Executive Board pursue the objectives and the degree of their achievement in relation to the projects carried out in those countries where they are responsible and periodically resolve in the Executive Board to find out the leading motives of the deviations, whether the deviations affect the result of the project and if it is necessary to create new targets and to take the necessary measures about the personnel who have responsibility in such delay.

The Remuneration Policy Applicable to the Board Members and Administratively Responsible Managers was submitted to the shareholders at the General Assembly dated March 27, 2014 which was published on our internet site is as follows:

**1. Objective and Scope**

The purpose of the policy described hereunder is to determine, in compliance with and under consideration of such regulations, obligations and principles as specified in the Capital Markets Legislation and the Capital Markets Board's corporate governance principles, any rules, requirements, principles and modus of implementation applicable to the remuneration of the Board Members and Administratively Responsible Managers of ENKA İnşaat ve Sanayi A.Ş. as approved by the Board of Directors thereof. Any rights, benefits and remunerations to which the Board Members of the Company are entitled to, and any modus of and requirements applicable to the payment thereof are defined in the Articles of Association of the Company, and such rights, benefits and remunerations are concluded and fixed each year by the General Assembly thereof in its annual meeting under a separate item of agenda and the same are published thereafter in the website of the company. The remuneration policy hereunder aims the sustainability and enhancement of the performances of the Board Members and Administratively Responsible Managers of the Company.

## 2. Principles Applicable to Remuneration

### Remunerations Payable to the Members of the Board of Directors

Independent Members and Non-executive Board Members: The Independent Members and Non-executive Board Members of the Board of Directors are entitled to a monthly attendance fee as honorarium in such amount as to be determined each year by the General Assembly. The amount of such monthly attendance fee is not fixed on the basis of the performance of the Company so that the independency thereof is not impacted of the Independent Members thereby.

Executive Board Members: The Executive Board Members are paid a monthly attendance fee in the same amount as payable to the Independent Members as aforesaid, besides such below mentioned bonuses as payable to the same on the basis of their performances and contributions to the company as well as their level of reaching the targets as set.

### Remunerations Payable to Administratively Responsible Managers

Remunerations payable to Administratively Responsible Managers include performance determined bonuses besides the fixed pays to be determined and calculated in accordance with the scope of duties and responsibilities thereof under consideration of the requirements and the experiences designated for each position. Executive Committee Members are entitled to a monthly attendance fee as honorarium as well as bonuses and fixed pays.

## 3. Performance and Remuneration Methods

### Fixed Pays:

In the determination of the attendance fees payable to the Members of the Board of Directors as well as of the fixed pays to the Administratively Responsible Managers as aforesaid, the preservation of the company's internal balances and the compliance thereof with strategic targets and the ethical values of the company are always considered. The amount of the fixed pays is determined and calculated for each position in accordance with the scope of duties and responsibilities of the relevant payee under consideration of various factors such as economic conditions in the market, the size of the company, any long-term targets and the level of realization thereof as well as the position and the level of experience of the relevant payee. In the determination and calculation of the remunerations payable to the Board Members and Administratively Responsible Managers of the Company, no short-term performance-based payment plans such as Company's profit or income shall be applicable.

### Performance Pays (Bonus Payments):

Also, in the determination and calculation of the performance-based bonus payments, various factors such as bonus policies applicable in the market to any staff in similar or equivalent position, the level of reaching and realization of the company targets and the individual performances are taken into account, and they are determined and calculated so that the equity of the company is not impacted thereby. Within the scope of this policy, no Board Member or Administratively Responsible Managers of the Company is lent any money or granted any loan or any personal credit by virtue of any third parties or provided any securities or guarantees. Any remunerations and benefits paid to Board Members and Administratively Responsible Managers of our company are disclosed to public in the Annual Report thereof.

# SUSTAINABILITY PRINCIPLES COMPLIANCE REPORT

The Company's Environmental, Social and Governance (ESG) systems, efforts, performance, and goals are presented to all stakeholders under the heading "Sustainability Principles Compliance Report" of the Annual Report. Information on the Company's ESG practices provided in this report and all other statements on sustainability are presented in detail in ENKA Sustainability Report published in May of every year, at the latest.

The scope of the Sustainability Principles Compliance Report is parallel with the Company's annual Sustainability Report. The list of the companies included in the scope is listed below. Environmental data of the companies marked with (\*) in the following list were not included in the calculations of quantitative values shared in respect to the Environmental Principles in the report. Policies shared within the ESG system are applicable to all companies covered by the Annual Report. This report covers the period between January 1<sup>st</sup>, 2023 and December 31<sup>st</sup>, 2023.

ENKA, with its sustainability management approach, manages its social, environmental and economic impacts resulting from its operations in different sectors, including engineering, construction, energy, real estate and trade in different parts of the world in a responsible, effective and transparent manner. For this purpose, it identifies environmental, social and governance risks and opportunities; determines material sustainability issues with the participation of different stakeholder groups every two years and updates its policies, strategies and procedures established in this regard. ENKA's ESG policies can be found on ENKA's corporate website ([www.enka.com](http://www.enka.com)).

ENKA updated its Sustainability Strategy in line with these policies and strengthened its sustainability targets. ENKA's Sustainability Strategy and the Sustainability Targets set for 2030 and 2050 can be accessed via the links below. The Company's 2023 performance against these targets are summarized in ENKA Sustainability Targets table at the end of the Sustainability Principles Compliance Report.

## Sustainability Strategy:

<https://www.enka.com/sustainability/strategy/>

## ENKA Sustainability Targets:

<https://www.enka.com/sustainability/sustainability-targets/>

ENKA Sustainability Committee, which was established in 2017 in order to integrate sustainability into the company's business strategies and lead the actions towards this regard with the participation of managers of different units and departments in ENKA Headquarters and subsidiaries representing ENKA's all main functions. The Committee leads the Company's strategies and efforts in the fields of environment, climate change, human rights, social responsibility and ethics and ENKA's Chairman of the Board, who leads the committee, has the primary responsibility for the issues referred above.

ENKA, which has been a signatory of the United Nations Global Compact since 2017, publicly publishes

its sustainability performance, goals and activities every year through its Sustainability Report. In addition to this sustainability report prepared in accordance with the Global Reporting Initiative (GRI) Standards; guided by the Industry Standards of the Sustainability Accounting Standards Board (SASB) and by the United Nations (UN) Global Compact and UN Sustainable Development Goals (SDGs) and by taking account of the International Financial Reporting Standards (IFRS) and Türkiye Sustainability Reporting Standards (TSRS) "S<sub>1</sub> - General Requirements for Disclosure of Sustainability-Related Financial Information" and "S<sub>2</sub> - Climate-related Disclosures" together with the "Governance, Strategy, Risk Management, Metrics and Targets" approaches referred to in the standards, ENKA also reports annually to the public within the scope of Climate Change and Water Security programs of the Carbon Disclosure Project (CDP). Material sustainability issues that define the framework of ENKA's Sustainability Report are linked to the following goals of the United Nations 2030 Sustainable Development Goals (SDGs).

ENKA, with its sustainability performance in 2023, continues to be included in Dow Jones Sustainability Index and FTSE4Good Index as well as Borsa İstanbul Sustainability Index.

As part of the verification of sustainability statements, greenhouse gas emissions arising from the operation of ENKA Energy companies are audited by accredited organizations every year in accordance with applicable legislation. In addition, ENKA's sustainability report receives limited external assurance for selected energy, greenhouse gas emissions, water and occupational health and safety indicators. The audit process regarding 2023 energy, water, greenhouse gas emissions and occupational health and safety is in progress and audit reports are included in ENKA's Sustainability Report and CDP report every year.

## ENVIRONMENTAL PRINCIPLES

ENKA establishes and conducts its environmental management and its commitments in this direction in accordance with the laws of the countries where it operates and in line with international environmental management standards. The Company's environmental management complies with ISO 14001:2015 Environmental Management System Standard.

ENKA recognizes the importance of identifying and effectively managing the risks and opportunities related to climate change. Risks related to climate change are assessed by the Early Identification of Risks Committee and the Risk Management Working Group, with the support of the Sustainability Committee and the Corporate Sustainability and Compliance Department. ENKA closely monitors legal and technological developments within the scope of transition risks related to climate change and carries out various practices at the points where there is a risk. Thus, ENKA realizes the importance of good management of all Environmental, Social, Governance (ESG) risks, including climate change, in terms of reputation, foreign investment and financing and it implements appropriate policies and strategies.

ENKA believes that not only transitional risks, but also physical risks pertaining to climate change are of critical importance. As both acute and chronic physical impacts of climate change are increasing worldwide day by the day, especially in -Türkiye and in all regions ENKA operates, the intensity of acute effects such as extreme climate events, heatwaves and heavy rains have increased in recent years.

Scenario analyses are conducted in ENKA İnşaat operations against these risks and climate events are closely monitored. In all ENKA İnşaat projects, assessments are carried out for the environmental and social impacts of the project. Specifically, in the projects where work activities are conducted in close proximity to water bodies, watershed regulations are considered and additional emergency procedures are intently applied against incidents such as flooding. ENKA regularly keeps records of the energy and fuel consumptions of its subsidiaries and it has been regularly calculating its carbon footprint and the amount of reduction achieved as a result of improvement efforts and measures undertaken since 2016.

The greenhouse gas emissions resulting from ENKA's operations and energy consumption in 2023 as compared with previous years are presented in the table below. Direct (Scope-1), indirect (Scope-2) and other indirect (Scope-3) greenhouse gas emissions from 2023 activities of ENKA were included in the calculations. Greenhouse gas emissions resulting directly from ENKA's activities are categorised as "Scope-1 – direct greenhouse gas emissions", while greenhouse emissions due to energy consumption from externally sourced electricity, heat and steam are categorised as "Scope-2 – indirect greenhouse gas emissions due to energy consumption". The methodologies used for calculating were the ISO 14064-1 and the GHG Protocol Corporate Accounting and Reporting Standards. For conversion factors IPCC, DEFRA, US EPA, T.C. ETKB, Climate Transparency Report, IEA and IRENA data were used.

### ENERGY CONSUMPTION BY YEARS\*

| ENERGY CONSUMPTION (TJ)                                | 2021          | 2022          | 2023          |

| <b>TOTAL</b>                                  | <b>5,766,347</b> | <b>5,410,477</b> | <b>3,223,789</b> |

ENKA transparently publishes all environmental impacts stemming from its operations on public platforms through its Sustainability Report and CDP reports. Within the scope of ENKA's environmental reporting, all environmental issues (greenhouse gas emissions, energy management, water and wastewater management, air quality, waste management, and biodiversity activities) are included and reported for three years comparatively. ENKA, which realizes high investments and carries out various projects every year to reduce its environmental impacts, transparently discloses the amount of reduction and savings in greenhouse gas emissions, energy consumption, water consumption and waste generation in its Sustainability Report.

Aside from the environmental impacts arising from its own operations, ENKA considers the minimization of effects resulting from the products and services it provides as an important part of its sustainability strategy. ENKA, which works to completely prevent the damage that may be caused to people and nature in all investments, has carried out 14 of its projects in accordance with LEED or equivalent green building certification programs. The ongoing Yandex Headquarters Project is being carried out in accordance with the BREEAM standard. Two multi-functional shopping centers operated by ENKA Real Estate in Russia have Russian Green Building certificate and have set precedents in this sense. Within the scope of power plant projects with the high expertise of ENKA, the highest level of efficiency is achieved in constructed power plants and during construction activities.

It is ensured that all suppliers and subcontractors working with ENKA are expected to act just as sensitively, training opportunities are provided and audits are carried out within this scope. The environmental approach and performance that ENKA expects from its suppliers are clearly stated in ENKA Supplier Code of Conduct and in the supplier selection, evaluation and auditing procedures.

## SOCIAL PRINCIPLES

ENKA is committed to comply with the Universal Declaration of Human Rights, ILO Conventions ratified by Türkiye and the legal frameworks and legislation regulating the employment and human rights in Türkiye through ENKA Code of Business Conduct. The Code of Conduct, which is the ethics policy of the company, includes issues on compliance with human rights, non-discrimination, prevention of forced labour and child labour and combating bribery and corruption and details regarding the implementation of the relevant policy. Code of Business Conduct has been translated into 7 languages and published on the corporate website. The Supplier Code of Conduct has been published and communicated in order to encourage these practices in the Company's value chain.

The results of the "ENKA Employee Loyalty Survey" which was conducted by an independent research company in 2021 indicated that the level of employee loyalty was 90% across all ENKA group companies and 91% at ENKA İnşaat.

\*Provided values for 2023 are the values prior to external assurance. The assured values will be published in the 2023 Sustainability Report.

In ENKA Academy, which was established to improve the professional competences, process awareness, technical knowledge, and leadership and management skills of employees, trainings are organized in 3 main categories; namely management training, technical training and social skills training. Approximately 488 hours of training were given and a total of 6,882 person-hours of training in engineering development and social skills was provided during the reporting period. In addition to ENKA Academy, Project Training Departments, which are established separately at each project and are in constant communication with the Istanbul Headquarters, have provided approximately 12.395 million person-hours of training to date. These training programs also include informative trainings on the Company's ESG policies and practices.

ENKA maintains an Ethics Hotline and an email to ensure open and transparent communication and make it possible for employees, local communities, and all parties engaged in a business relationship (suppliers, subcontractors, employees of subcontractors, customers, business partners etc.) to be able to report behaviour that violates the Code of Business Conduct or company policies and to receive advice for matters that are unclear to them. Reports made to the Ethics Hotline and email are categorised and reported to the Executive Ethics and Compliance Committee. All reports within the execution area of the Ethics Hotline are assessed, investigated and concluded and the complainant is informed accordingly.

The Occupational Health and Safety (OHS) structure at ENKA begins with the strong commitment by the senior management. This strong commitment forms the basis of all activities and the management system and it is shared with all stakeholders through the Health, Safety, Social and Environment Policy (HSSE Policy). The commitment clearly described in the HSSE policy is effectively implemented through internal procedures and training courses, workshops, plans, instructions, checklists, forms and other instruments that are developed in line with these procedures. Areas that are open to improvement are identified through audits, management system is reviewed based on the results of the audits and necessary actions are taken in line with the principle of continuous improvement.

More than 1,090,148 person-hours of HSE training was provided to ENKA employees in 2023. A total of 143 recordable incidents occurred among all ENKA employees and its subcontractors. 30 of these incidents were recorded as lost time incidents. The total number of lost days due to occupational incidents were 516, Lost Time Incident Frequency Rate and Lost Time Incident Severity Rate were 0.09 and 1.50 respectively.

#### ENKA GROUP'S OHS STATISTICS\*

| TOTAL (COMPANY AND SUBCONTRACTOR) | 2021 | 2022 | 2023 |
|-----------------------------------|------|------|------|
| Number of Lost Time Incidents     | 39   | 34   | 30   |
| Lost Time Incident Frequency Rate | 0.12 | 0.10 | 0.09 |
| Lost Time Incident Severity Rate  | 2.57 | 1.54 | 1.50 |
| Number of Fatalities              | 1    | 1    | 4    |

#### ENKA Social Responsibility and Social Investment:

The total social investment made by ENKA Foundation and ENKA İnşaat as well as its subsidiaries in 2023 in the fields of education, health, sports, social and environment in line with the material sustainability issues of ENKA has approximately 323 million TL. Social responsibility efforts in 2023 are included in the ENKA corporate website and in Sustainability Report published every year.

\*Provided values for 2023 are the values prior to external assurance. The assured values will be published in the 2023 Sustainability Report.

## ENKA SUSTAINABILITY TARGETS

ENKA shares its performance against the Sustainability Targets and the change in this performance over the years in its annual Sustainability Report and CDP responses. The company's performance against some of these targets are summarized below.

### 2030 GLOBAL TARGETS

| OUR BUSINESS AND PRINCIPLES                                                                                                                                                                                       | 2023 PERFORMANCE                                                                                                                           |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| We will conduct at least 1 audit to prevent corruption and bribery per year, in all projects and subsidiaries.                                                                                                    | 1 audit took place at each project. 100% of subsidiaries were audited.                                                                     |
| We will conduct Sustainability Audits (covering environment, ethics and compliance, human rights, social compliance and occupational health & safety) on 10% of "high risk" suppliers and subcontractors.         | 32% of suppliers were evaluated in terms of sustainability. Sustainability audits took place at 1% of suppliers.                           |
| We are committed to have at least 25% women members in our Board.                                                                                                                                                 | The rate of female employees working in the senior management positions is 14%. Efforts continue for the target of the board of directors. |
| We have set our sights on organizing and assembling "ENKA Sustainability Congress" in 2027 with participants from various sectors and societies.                                                                  | 2027 Sustainability Target.                                                                                                                |
| ENKA Schools will continue their support of education by conducting partnerships and collaboration at least once a year with a public school in close proximity regarding sustainability activities and training. | Target has been met.                                                                                                                       |
| We aim to provide ENKA Code of Business Conduct training to 100% of our employees in the primary risk group.                                                                                                      | 76% of the relevant employees completed the training.                                                                                      |
| Our aim is to have our customer satisfaction rate at 95% in all group companies.                                                                                                                                  | 91%                                                                                                                                        |

| OUR PEOPLE AND COMMUNITY                                                                                                                                                             | 2023 PERFORMANCE                                                                                                                                        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| We aim to have women employees comprise 35% of all ENKA Group white collar employees by 2030.                                                                                        | 28.4%                                                                                                                                                   |
| All ENKA İnşaat projects are expected to complete at least 2 social responsibility projects in their lifetime.                                                                       | Target has been met.                                                                                                                                    |
| We intend to conduct an employee loyalty survey once every two years and to increase satisfaction ratio to 90% by 2030.                                                              | Employee loyalty survey was not conducted in 2023.                                                                                                      |
| Being the most important of our stakeholders, we genuinely care about our employees and intend to increase our training investment per year by 5% every year until 2030.             | 20.9% increase was achieved.                                                                                                                            |
| Health & safety of our employees is a core value in every work activity we conduct. We will continue to work in accordance with our Zero Incident Policy with no compromises at all. | Target has been met.                                                                                                                                    |
| We encourage our employees to take part in corporate volunteering and aim to have 5% of our white collar employees participate in corporate voluntary projects.                      | 2.5%                                                                                                                                                    |
| In order to spread sustainability studies, we will continue supporting development of youth by sponsoring student assemblies at least 2 times every year.                            | There has been an achievement above this target through the 6 events attended & sponsored by ENKA İnşaat and other collaborations of ENKA subsidiaries. |

| Intending to generalize corporate volunteering and voluntary approach in our community, we aim to conduct at least 5 voluntary work projects every year. | 15 projects were conducted.                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|
| We will ensure that each and every student in ENKA Schools to participate in at least 1 social responsibility project every year.                        | Target has been met.                                                                     |
| ENKA Foundation intends to increase voluntary community investment amount by 20% by 2030.                                                                | Compared to 2022, 78.7% increase were achieved.                                          |
| As ENKA Group we aim to collaborate at least 5 times every year with NGOs and other organizations that conduct sustainability studies.                   | There has been an achievement above this target through 18 collaborations by ENKA Group. |
| OUR PLANET                                                                                                                                               | 2023 PERFORMANCE                                                                         |
| To decrease our blue water footprint, we plan on realizing at least 2 projects that aim water reuse within ENKA Group.                                   | 4 projects were conducted.                                                               |
| Working with diligence, we are committed to never encountering a Tier III (>20m3) environmental incident in any ENKA subsidiary.                         | Target has been met.                                                                     |
| Addressing the needs of our planet, we intend to conduct at least 2 projects within ENKA Group to increase renewable energy use.                         | 8 projects were conducted.                                                               |
| We strive to decrease our carbon footprint and commit to contributing to carbon offsetting by supporting at least 1 forestation project ever year.       | 2 projects were conducted.                                                               |
| As ENKA Group, we intend to never compromise from our policy that banned PET bottle usage.                                                               | The policy is being reintroduced throughout ENKA Group.                                  |

The Sustainability Principles Compliance Report, which was prepared following the formats determined by the CBM's Decision dated 23.06.2022 and numbered 34/977 and approved by the Company's Board of Directors, is attached to the ENKA 2023 Annual Report (pages 209-220). The relevant document is also accessible from the Company page on the Public Disclosure Platform.

| A4.1 | Company's ESG Key Performance metrics have been verified by an independent third party and publicly disclosed.                                                                                                                                                                                                                                       |                   |    | x       |     | Greenhouse gas emissions arising from the operations of ENKA's power plants are inspected by accredited organizations every year in accordance within the framework of the relevant regulations. In addition, ENKA receives limited external assurance for its selected energy, greenhouse gas emissions, water withdrawal and occupational health and safety indicators included in its Sustainability Report. Verification process for 2023 is currently ongoing and the audit reports will be included in the Sustainability Report and CDP responses. | The external assurance report for 2022 can be found in the 2022 Sustainability Report. **Independent Auditors' Report**

To the Shareholder's of Enka İnşaat ve Sanayi Anonim Şirketi,

*Opinion*

We have audited the consolidated financial statements of Enka İnşaat ve Sanayi Anonim Şirketi ("the Company") and its subsidiaries and joint operations (collectively referred to as "the Group"), which comprise the consolidated statement of financial position as at 31 December 2023, the consolidated statements of profit or loss, the consolidated statements of other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRS").

*Basis for Opinion*

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code") together with the ethical requirements that are relevant to our audit of the consolidated financial statements in Turkey and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Revenue recognition generated from construction contracts

Refer to Note 2.4 and 2.5 to the consolidated financial statements for summary of significant accounting policies and significant accounting assessments, estimates and assumptions for revenue recognition generated from construction contracts.

| Key Audit Matter                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | How the matter was addressed in our audit                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Revenue from construction contracts constitutes 60% of the Group's total revenue.</p> <p>The subsidiaries of the Group operate in the construction sector have revenues that is obtained amounting to USD 1,955,824 thousand against costs of USD 1,557,049 thousand as at 31 December 2023.</p> <p>The recognition of the amount and timing of the revenue generated from construction contracts in the period in which they are incurred calculated and accounted for by using the input method under IFRS 15 Revenue from Contracts with Customer. By using the input method revenue is recognized by comparing the costs incurred by the Group for the fulfillment of performance obligations in a construction project to the expected total costs for the fulfillment of the performance obligation in the consolidated financial statements.</p> <p>The measurement of contract revenue and estimation of the contract costs are based on a variety of uncertainties that depend on the outcome of future events and demand of revision to the projects which requires significant management's estimates and judgements.</p> <p>Revenue recognition from construction contracts was determined as key audit matter, due to the significant management estimates and the level of judgement applied by management.</p> | <p>Our audit procedures for testing revenue recognition included below:</p> <ul style="list-style-type: none"> <li>- We evaluated and tested the design and implementation of controls over the relevant processes regarding the accuracy and timing of revenue recognized in the financial statements.</li> <li>- We assessed the terms and conditions of the significant contracts in order to evaluate the management's estimate whether revenue is recognized within the appropriate financial period.</li> <li>- We evaluated the variation orders are included in the contract revenues in accordance with the relevant accounting policies and the effects of these variations on project costs.</li> <li>- The costs incurred by the Group in ongoing construction projects have been tested by using sampling method.</li> <li>- The mathematical accuracy of the contract revenue calculated by the stage of completion method associated with the construction contract have been tested by using recalculation method.</li> <li>- We assessed the management's ability to deliver contracts within budgeted margins by analysing the historical accuracy of forecasting margins and the relationship of cost versus billing status on contracts.</li> <li>- We assessed the adequacy of the disclosures of revenue in the notes to consolidated financial statements.</li> </ul> |

#### Fair value measurement of investment property

Refer to Note 2.4 and 2.5 to the consolidated financial statements for summary of significant accounting policies and significant accounting assessments, estimates and assumptions for fair value measurement of investment properties.

| Key Audit Matter                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | How the matter was addressed in our audit                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>As of 31 December 2023, the investment properties represent 19% of the Group's total assets.</p> <p>The Group recognizes the investment properties at fair value. The Group uses independent valuation firms to determine the fair values of investment properties.</p> <p>Valuation of investment property is determined as key audit matter, due to significant management estimates and judgement used in valuation methods to determine fair value of investment properties.</p> | <p>Our audit procedures for testing fair value measurement of investment property included below:</p> <ul style="list-style-type: none"> <li>- We evaluated the capabilities and competence of the external valuers appointed by the Group for valuation of investment property.</li> <li>- We involved valuation specialist to assist in examining the appropriateness of the key assumptions such as long term growth rates used in the calculations, discount rates used to determine present value of future cash flows.</li> <li>- We examined the appropriateness of key inputs used in valuation reports such as rental income, duration, management fee, yields and occupancy rate.</li> <li>- We assessed the adequacy of the disclosures of investment properties in the notes to consolidated financial statements.</li> </ul> |

#### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements*

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS****2.1 Basis of presentation**Basis for preparation of the financial statements and significant accounting policies

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and the Uniform Chart of Accounts published by the Ministry of Treasury and Finance. The consolidated financial statements are presented in U.S. Dollars (“USD”) and all values are rounded to the nearest thousand (‘000) except when otherwise indicated.

Enka İnşaat and its subsidiaries which are incorporated in Turkey, maintain their books of accounts in accordance with the Turkish Commercial Code and Tax Law and the foreign subsidiaries maintain their books of accounts in accordance with the laws and regulations in force in the countries where they are registered. The Company prepares its statutory consolidated financial statements in Turkish Lira (“TL”) in accordance with Turkish Financial Reporting Standards (“TFRS”) issued by Public Oversight Accounting and Auditing Standards Authority of Turkey (“POA”) according to the Article 5 of the Communiqué as set out in the Communiqué serial II, No: 14.1 announcement of Capital Markets Board (“CMB”) dated 13 June 2013 related to “Capital Market Communiqué on Principles Regarding Financial Reporting”. The consolidated financial statements are based on the statutory records with adjustments and reclassifications for the purpose of fair presentation in accordance with IFRS.

The consolidated financial statements have been prepared on the historical cost convention as adjusted for the effects of inflation on Turkish Lira at the reporting date based on International Accounting Standard (“IAS”) No. 29 “Financial Reporting in Hyperinflationary Economies” except for financial assets at fair value through profit or loss, investment properties, land and buildings which are measured at fair values.

Approval of the financial statements:

The consolidated financial statements are approved by the Company’s Board of Directors on 06 March 2024. The General Assembly of the Company has the right to amend and relevant regulatory bodies have the right to request the amendment of these consolidated financial statements.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.1 Basis of presentation (cont’d)**Functional and presentation currency

As significant amount of construction operations of Enka İnşaat which form main part of the operations of the Group are carried out in U.S. Dollar or indexed to U.S. Dollar, this currency has been determined as the functional and the presentation currency of the Group in line with IAS 21. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies (i.e. any currency other than the functional currency) are initially recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the consolidated statement of profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The functional currencies of the Power companies’ operating in Turkey, was changed from U.S. Dollar to TL due to the changes in operations or activity in the economic environment as of 31 December 2019.

The functional currencies of foreign subsidiaries operating in Russia (Moscow Krasnye Holmy (MKH), Limited Liability Company Mosenka (Mosenka) and Limited Liability Company Enka TC (Enka TC) are Ruble. The functional currency of jointly managed subsidiaries established in Romania, Kosovo and Albania and Enka Pazarlama are the Euro. The functional currency of some subsidiaries incorporated in Turkey is TL. These companies reporting to Enka İnşaat in the currency of their respective currencies.

The assets and liabilities of the subsidiaries, joint operations and branches whose functional currency is other than U.S. Dollars are translated into U.S. Dollars at the rate of exchange ruling at the balance sheet date and their consolidated statement of profit or loss are translated at the average exchange rates for each quarter. The exchange differences arising on the translation are taken directly to a separate component of equity as currency translation difference.

Within Turkey, official exchange rates of the Turkish Lira (TL) are determined by the Central Bank of Turkey (CBT) and are generally considered to be a reasonable approximation of market rates.

The year-end and average rates for 2023 for one U.S. Dollar can be summarized as below:

|                                             | 2023    | 2022    |
|---------------------------------------------|---------|---------|
| U.S. Dollars/TL – as of balance sheet date  | 29.4382 | 18.6983 |
| U.S. Dollars/TL – yearly average            | 23.7776 | 16.5659 |
| EUR/U.S. Dollars – as of balance sheet date | 1.1065  | 1.0661  |
| EUR/U.S. Dollars – yearly average           | 1.0815  | 1.0541  |
| U.S. Dollars/RUB – as of balance sheet date | 89.6883 | 70.3375 |
| U.S. Dollars/RUB – yearly average           | 85.2466 | 68.549  |

Inflation accounting

The cumulative inflation over the past three years has risen to just above 100% in the first quarter of 2022. Based on this information, Turkey is considered a hyperinflationary economy for reporting periods ending on or after 30 April 2022. Accordingly, entities with operations whose functional currency is the Turkish Lira should expect to apply IAS 29 Financial Reporting in Hyperinflationary Economies (“IAS 29”) for those operations in the financial statements for reporting periods ending on or after 30 April 2022. Therefore, IAS 29 has been applied in the financial statements as at and for the year ended 31 December 2023.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.1 Basis of presentation (cont’d)**Accounting in hyperinflationary economies

Consequently, the financial statements of the entities whose functional currency TL are restated for the changes in the general purchasing power of the Turkish Lira as at 31 December 2023 based on IAS 29. The restatement is calculated by means of conversion factors derived from the Turkish countrywide consumer price index published by the TSI. For the last three years, such indices and conversion factors used to restate the accompanying consolidated financial statements are as follows:

| Date             | Index    | Conversion factor |
|------------------|----------|-------------------|
| 31 December 2023 | 1.859,38 | 1,00000           |
| 31 December 2022 | 1.128,45 | 1,64773           |
| 31 December 2021 | 686,95   | 2,70672           |

IFRS require the financial statements of an entity with a functional currency that is hyperinflationary to be restated in accordance with IAS 29 requirements whether they are based on a historical cost or a current cost approach and to be applied retrospectively, as if the currency had always been hyperinflationary. The basic principle in IAS 29 is that the financial statements of an entity that reports in the currency of a hyperinflationary economy should be stated in terms of the measuring unit current at the reporting date. Comparative figures for prior period are restated into the same current measuring unit.

The main procedures applied for the restatements mentioned above are as follows:

- Monetary assets and liabilities that are carried at amounts current at the reporting date are not restated because they are already expressed in terms of the monetary unit current at the reporting date.
- Non-monetary assets and liabilities that are not carried at amounts current at the balance sheet date, and components of shareholders’ equity are restated by applying the relevant conversion factors from the date of the transaction or, if applicable, from the date of their most recent revaluation to the reporting date.
- Property, plant and equipment are restated by applying the change in the index from the date of the transaction or, if applicable, from the date of their most recent revaluation to the reporting date. Depreciation is based on the restated amounts;
- All items in the income statement except for the depreciation charges explained above and deferred tax charges, are restated by applying the monthly conversion factors of the transactions to the reporting date
- The effects of inflation on the net monetary positions of the Company, is included in the profit or loss statement as “monetary gain / (loss)”.
- All items in the cash flow statement are expressed in terms of the measuring unit current at the reporting date; and all items in the statement of cash flows are, therefore, restated by applying the relevant conversion factors from the date on which the transaction originated.
- All corresponding figures as of and for the period ended 31 December 2023 are restated by applying the change in the index from 31 December 2022 to 31 December 2023.

In the reporting period in which an entity identifies the existence of hyperinflation in the economy of its functional currency, not having been hyperinflationary in the prior period, the entity shall apply the requirements of IAS 29 as if the economy had always been hyperinflationary. Therefore, in relation to non-monetary items measured at historical cost, the entity's opening statement of financial position at the beginning of the earliest period presented in the financial statements shall be restated to reflect the effects of inflation from the date the assets were acquired and the liabilities were incurred or assumed until the end of the reporting period. For non-monetary items carried at the opening statement of financial position at amounts current at dates other than those of acquisition or incurrence, that restatement shall reflect instead the effect of inflation from the dates those carrying amounts were determined until the end of the reporting period.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.1 Basis of presentation (cont’d)**Basis of consolidation

The consolidated financial statements comprise the financial statements of the parent company, its joint operations and its subsidiaries as at 31 December each year. The financial statements of the joint operations and the subsidiaries are prepared for the same reporting year as the parent company, using consistent accounting policies.

Control is achieved when the Group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group’s voting rights in an investee are sufficient to give it power, including:

- the size of the Group’s holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders’ meetings.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. All significant intra-group transactions and balances between Enka İnşaat and its consolidated subsidiaries and joint operations are eliminated.

Subsidiaries are all entities over which the Group has power to govern the financial and operating policies so as to benefit from its activities. Subsidiaries in which the Group owns directly or indirectly more than 50% of the voting rights, or has power to govern the financial and operating policies under a statute or agreement are consolidated. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Non-controlling interests represent the portion of consolidated statement of profit or loss and net assets not held by the Group and are presented separately in the consolidated statement of profit or loss and within equity in the consolidated balance sheet, separately from parent shareholders’ equity.

The Group has interests in joint operations which are jointly controlled entities. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The Group recognizes its interest in the joint operations using proportionate consolidation. The breakdown of the controlling interests of the joint operations as of 31 December 2023 and 2022 is as follows:

|                                                           | Functional<br>Currency | 31 December 2023 | 31 December 2022 |

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.2 Changes in the accounting policies**

With the exception of following the accounting policies applied in the consolidated financial statements as at and 31 December 2023 are the same as those applied in the last annual financial statements as at and for the year ended 31 December 2022.

**2.3 Changes in Accounting Estimates and Errors**

Changes in accounting policies or accounting errors are applied retrospectively and the consolidated financial statements of the previous periods are restated. If estimated changes in accounting policies are for only one period, changes are applied on the current year but if the estimated changes effect the following periods, changes are applied both on the current and following years prospectively. There is no material change in accounting estimates of the Group in the current year.

When a significant accounting error is identified, it is corrected retrospectively and the prior year consolidated financial statements are restated. The Group did not detect any significant accounting error in the current year.

**2.4 Summary of significant accounting policies****Standards and interpretations issued but not yet effective*****Standards issued but not yet effective and not early adopted***

A number of new standards and amendments to existing standards are not effective at reporting date and earlier application is permitted; however the Group has not early adopted are as follows.

**Classification of Liabilities as Current or Non-current (Amendments to IAS 1)**

On 23 January 2020, (International Accounting Standard Board (IASB) issued Classification of Liabilities as Current or Non-Current which amends IAS 1 Presentation of Financial Statements to clarify its requirements for the presentation of liabilities in the statement of financial position.

The amendments clarify one of the criteria in IAS 1 for classifying a liability as non-current—that is, the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period.

After reconsidering certain aspects of the 2020 amendments; IASB has removed the requirement for a right to be unconditional and instead, now requires that a right to defer settlement must have substance and exist at the end of the reporting period.

This right may be subject to a company complying with conditions (covenants) specified in a loan arrangement. Additional disclosure is also required for non-current liabilities subject to future covenants. The amendments also clarify how an entity classifies a liability that can be settled in its own shares

The Group shall apply retrospectively these amendments for annual periods beginning on or after 1 January 2024 with earlier application permitted. . It also specifies the transition requirements for companies that may have early-adopted the previously issued but not yet effective 2020 amendments.

The Group does not expect that application of these amendments to IAS 1 will have significant impact on its consolidated financial statements

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Standards and interpretations issued but not yet effective(cont’d)*****Standards issued but not yet effective and not early adopted (cont’d)*****Lease Liability in a Sale and Leaseback – Amendments to IFRS 16 Leases**

In September 2022, IASB issued Lease Liability in a Sale and Leaseback, which amends IFRS 16 Leases. Amendments to IFRS 16 Leases impact how a seller-lessee accounts for variable lease payments that arise in a sale-and-leaseback transaction. The amendments introduce a new accounting model for variable payments and will require seller-lessees to reassess and potentially restate sale-and-leaseback transactions entered into since 2019.

The amendments confirm the following:

On initial recognition, the seller-lessee includes variable lease payments when it measures a lease liability arising from a sale-and-leaseback transaction.

After initial recognition, the seller-lessee applies the general requirements for subsequent accounting of the lease liability such that it recognises no gain or loss relating to the right of use it retains.

A seller-lessee may adopt different approaches that satisfy the new requirements on subsequent measurement.

The amendments are effective for annual reporting periods beginning on or after 1 January 2024, with earlier application permitted.

Under IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, a seller-lessee will need to apply the amendments retrospectively to sale-and-leaseback transactions entered into or after the date of initial application of IFRS 16. This means that it will need to identify and re-examine sale-and-leaseback transactions entered into since implementation of IFRS 16 in 2019, and potentially restate those that included variable lease payments.

The Group does not expect that application of these amendments to IFRS 16 Leases will have significant impact on its consolidated financial statements.

**Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures – Supplier Finance Arrangements**

On 25 May 2023, IASB has amended IAS 7 *Statement of Cash Flows* and IFRS 7 *Financial Instruments: Disclosures*. The amendments introduce additional disclosure requirements for companies that enter into supplier finance arrangements (referred to as supply chain finance, payables finance or reverse factoring arrangements). However, they do not address the classification and presentation of the related liabilities and cash flows.

The IASB’s amendments apply to supplier finance arrangements<sup>1</sup> that have all of the following characteristics.

- A finance provider pays amounts a company (the buyer) owes its suppliers.
- A company agrees to pay under the terms and conditions of the arrangements on the same date or at a later date than its suppliers are paid.
- The company is provided with extended payment terms or suppliers benefit from early payment terms, compared with the related invoice payment due date.

The amendments do not apply to arrangements for financing receivables or inventory.

The amendments introduce two new disclosure objectives – one in IAS 7 and another in IFRS 7 – for a company to provide information about its supplier finance arrangements that would enable users (investors) to assess the effects of these arrangements on the company’s liabilities and cash flows, and the company’s exposure to liquidity risk.

The amendments are effective for periods beginning on or after 1 January 2024, with early application permitted. However, some relief from providing certain information in the year of initial application is available.

The Group does not expect that application of these amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures – Supplier Finance Arrangements will have significant impact on its consolidated financial statements

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Standards and interpretations issued but not yet effective(cont’d)*****Standards issued but not yet effective and not early adopted (cont’d)*****IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures**

On 26 June 2023, The International Sustainability Standards Board (ISSB) has issued IFRS® Sustainability Disclosure Standards (IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures to create a global baseline of investor-focused sustainability reporting that local jurisdictions can build on.

Two standards are designed to be applied together, supporting companies to identify and report information that investors need for informed decision making – in other words, information that is expected to affect the assessments that investors make about companies’ future cash flows.

To achieve this, the general standard provides a framework for companies to report on all relevant sustainability-related topics across the areas of governance, strategy, risk management, and metrics and targets.

The standards are effective for annual reporting periods beginning on or after 1 January 2024, with early application permitted. But it will be for individual jurisdictions to decide whether and when to adopt. Accordingly, Public Oversight Accounting and Auditing Standards Authority (“POA”) announced in the Board Decision published in the Official Gazette dated 29 December 2023 that certain entities will be subject to mandatory sustainability reporting as of 1 January 2024.

The Company is within the scope of the application as it meets the criteria specified in the Board Decision.

**Lack of Exchangeability – Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates**

In August 2023, the International Accounting Standards Board (IASB) amended IAS 21 to clarify:

- when a currency is exchangeable into another currency; and
- how a company estimates a spot rate when a currency lacks exchangeability.

A currency is exchangeable into another currency when a company is able to exchange that currency for the other currency at the measurement date and for a specified purpose. When a currency is not exchangeable, a company needs to estimate a spot rate.

A company’s objective when estimating a spot rate is only that it reflects the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions. The amendments contain no specific requirements for estimating a spot rate.

Therefore, when estimating a spot rate a company can use:

- an observable exchange rate without adjustment; or
- another estimation technique.

Under the amendments, companies will need to provide new disclosures to help users assess the impact of using an estimated exchange rate on the financial statements. These disclosures might include:

- the nature and financial impacts of the currency not being exchangeable;
- the spot exchange rate used;
- the estimation process; and
- risks to the company because the currency is not exchangeable.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Standards and interpretations issued but not yet effective(cont’d)**

The amendments apply for annual reporting periods beginning on or after 1 January 2025. Earlier application is permitted.

The Group does not expect that application of these Amendments to IAS 21 will have significant impact on its consolidated financial statements.

**New Accounting Policies and Amendments are effective on 1 January 2023**

Changes that have become effective and have been adopted for annual periods beginning on or after 1 January 2023:

1. Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction – Amendments to IAS 12 Income Taxes
2. Disclosure Initiative: Accounting Policies – Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements
3. Definition of Accounting Estimates – Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors
4. IFRS 17 Insurance Contracts, including amendments Initial Application of IFRS 17 and IFRS 9 – Comparative Information
5. Amendments to IAS 12 – International Tax Reform – Pillar Two Model Rules and Amendments to the IFRS for SMEs Accounting Standard – International Tax Reform – Pillar Two Model Rules

These newly adopted amendments to standards have not been a significant impact on the consolidated financial statements of the Group.

**Revenue**

In accordance with IFRS 15, a five-stage approach is followed in recognizing revenue for all contracts with customers.

- Identify the contract with a customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contract
- Recognize revenue when or as the entity satisfies a performance obligation

The Group evaluates the goods or services it undertakes in each contract with the customers and determines each commitment to transfer the said goods or services as a separate performance obligation. It is determined in the beginning of the contract whether the performance obligation will be carried out over a period of time or it will be performed at a certain time for each performance obligation. Group recognizes the revenue over a period of time by measuring the progress attributed to complete fulfillment of performance obligation in question on the occasion that the Group transfers the control of a good or a service and therefore it fulfills the performance obligation related to these sales over time.

When Group fulfills the obligation to perform the obligation by transferring a promised good or service to the customer, it records the transaction value corresponding to the obligation as revenue in the consolidated financial statements. When the control of the goods or services is overtaken by the customers (or as they pass) the goods or services are transferred.

When Group evaluates the transfer of the customer for the control of the goods or services sold,

- a) Group owns the right to collect the goods or services,
  - b) Owns legal ownership of the goods or services,
  - c) The transfer of the possession of the goods or services,
  - d) Ownership of the significant risks and rewards of ownership of the property of the customer,
  - e) Takes into consideration the conditions under which the customer accepts goods or services.
- d) Ownership of the significant risks and rewards of ownership of the property of the customer,
  - e) Takes into consideration the conditions under which the customer accepts goods or services.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Revenue (cont’d)**

Group does not make any adjustments to the effect of a significant financing component at the commitment price if the contract at the outset suggests that the period between the transfer date of the goods or services undertaken by the customer and the date the customer pays the price of the goods or services is one year or less. If the other party has significant financing within the revenue, the revenue value is determined by discounting future collections with the interest rate included in the financing element. The difference is recorded in the related periods as Other income from the main operations on the accrual basis.

The accounting for the revenue of the Group's different activities is explained below:

Construction contract activities

Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognized by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs.

Revenue arising from cost plus fee contracts is recognized on the basis of costs incurred plus a percentage of the contract fee earned during the year.

Contract costs include all direct material and labor costs and those indirect costs related to contract performance, such as indirect labor, supplies, tools, repairs and depreciation costs. Selling, general and administrative expenses are charged to the consolidated statement of profit or loss as incurred. Provisions for estimated losses on uncompleted contracts are made in full, in the period in which such losses are determined. Changes in job performance, job conditions and estimated profitability, including those arising from contract penalty provisions and final contract settlements may result in revisions to costs and income and are recognized in the period in which the revisions are determined. Profit incentives are included in revenues when their realization is reasonably assured.

Contract assets arising from ongoing construction works indicates the revenue recognized on construction contracts in excess of billings, and contract liabilities arising from ongoing construction works indicate the billings in excess of the revenue recognized on construction contracts.

Group management does not recognize the additional receivables under compensation outside the scope of the contract that may be subject to litigation as income, unless negotiations have reached to an advanced stage such that it is probable that the customer will accept the claim and the amount of the additional receivable can be measured reliably.

Energy activities

In 2021, Enka Energy Companies resumed their production activities, which had been halted since 2019, once they were included in the capacity mechanism in order to create the necessary conditions in the electricity market and to ensure sufficient installed power capacity for a secure supply. Companies conduct their electricity sales in organized electricity markets (Day-Ahead Market, Intraday Market, Balancing Power Market). Day Ahead and Intraday Markets are operated by the market operator, Energy Exchange Istanbul (“EPIAŞ” or “EXIST”), within the framework of the Electricity Market Balancing and Settlement Regulation. EPIAŞ establishes reference prices for said markets, performs financial transactions such as settlement, collateral, invoicing, and provides central counterparty services in the markets it operates. In addition, the settlement activities regarding the Balancing Power Market, the operation of the Renewable Energy Resources Support Mechanism (“YEKDEM”) and free consumer transactions are also carried out by EPIAŞ. The price of electricity sold daily by the companies in the markets (excluding VAT and other costs) is collected from EPIAŞ within two business days and recognised as income. The amount, unit price, amount and other expenses calculated by EPIAŞ in accordance with the provisions of the regulation are finalised with the “Final Settlement Notice” prepared by EPIAŞ and sent to the market participants on the fifteenth (15th) day of the end of the relevant month, or the next day in case of weekends or national holidays and an invoice is issued for the accrued revenues as of this date.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Revenue (cont’d)**Commercial activities

Earnings from sales as a result of commercial activities; All significant risks related to the Group, and the transfer of gains to the buyer on an administrative involvement associated with the property and on the goods sold lack of effective control, reliable measurement of income, economic benefits associated with the transaction the flow to the business is likely and the costs arising from or will be reliably measurement conditions are recorded as income. Net sales are estimated from the sales amount of the goods and realized It is shown by deducting returns, discounts, commissions, turnover premiums and sales-related taxes.

Rental income

Rental income arising on investment properties is accounted for on a straight-line basis over the lease terms on ongoing leases. Rental income collected in advance is treated as deferred income and is amortised on a monthly basis during the lease period.

Rendering of services

Revenue is recognized by reference to the stage of completion.

Interest income

Interest income is recognized in the consolidated statement of profit or loss on an accrual basis taking into account the effective yield on the asset.

Dividends

Revenue is recognized when the Group’s right to receive the payment is established.

**Segment Reporting**

An operating segment is a component of the Group that engages in business activities through which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group’s management to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

The operating segments of the Group are construction, rental, trade and energy, and they are disclosed in Note 5.

**Inventories**

Inventories are valued at the lower of cost or net realizable value. Costs incurred in bringing each product to its present location and condition, are included in the cost. Raw materials, spare parts, merchandise and construction materials - purchase cost on moving weighted average basis.

The Group also provides an allowance for the slow moving and obsolete items.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Property, plant and equipment**

With the exception of land and buildings, items of property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment in value. Land is not depreciated. The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Land and buildings are carried at revalued amounts. Any revaluation increase arising on the revaluation of such land and buildings is recognized in other comprehensive income and accumulated in equity, except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously expensed. A decrease in the carrying amount arising on the revaluation of such land and buildings is recognized in profit or loss to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset.

Repairs and maintenance are charged to the consolidated statements of profit or loss during the financial period in which they are incurred. The costs of major renovations are included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Group.

Depreciation is provided on all property, plant and equipment using the straight-line method at rates which approximate estimated useful lives of the related assets as follows:

|                                     | Useful life |
|-------------------------------------|-------------|
| Land improvements                   | 5-50 years  |
| Buildings                           | 50 years    |
| Power plant equipment               | 35 years    |
| Pipelines                           | 16 years    |
| Electrical interconnection lines    | 16 years    |
| Machinery and equipment             | 4-10 years  |
| Motor vehicles                      | 3-10 years  |
| Furniture and fixtures              | 5-10 years  |
| Barracks, scaffolding and formworks | 5 years     |
| Aircrafts                           | 10-15 years |
| Others                              | 5-10 years  |

Power plant equipment is recorded at its original cost of construction. Significant additions or improvements are capitalized when they extend the life, improve the efficiency or increase the earnings capacity of the asset. Expenditures for maintenance, repairs and minor renewals to maintain facilities in operating condition are expensed as incurred.

The asset’s residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each financial year end.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Intangible assets (except goodwill)**

Intangible assets mainly includes software rights, they are initially recognized at acquisition cost that are amortized over 3 to 10 years on straight-line basis.

**Derecognition of intangible assets**

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

**Investment properties**

Land and buildings that are held in the production of supply of goods or services of for administrative purposes or for long term rental yields or for capital appreciation or both rather than for the sale in the ordinary course of business are classified as “investment property”. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the balance sheet date. Gains or losses arising from changes in the fair values of investment properties are included in the consolidated statement of profit or loss in the year in which they arise.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statement of profit or loss in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale.

**Business combinations**

The acquisition of subsidiaries and businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognized in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their fair value at the acquisition date, except that:

- Deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognized and measured in accordance with IAS 12 Income Taxes and IAS 19 Employee Benefits respectively;
- Liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 Share-based Payment at the acquisition date; and
- Assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Business combinations**

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in the consolidated statement of profit or loss as a bargain purchase gain.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the ‘measurement period’ (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. If the contingent consideration classified as an asset or liability is a financial instrument and is in the scope of IFRS 9 Financial Instruments standard, the contingent consideration is measured at fair value and the gain or loss arising from the change is recognized in profit or loss or other comprehensive income. Those not included in IFRS 9 are accounted for in accordance with IAS 37 Provisions or other appropriate IFRS.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognized in profit or loss. Amounts arising from interests in the acquire prior to the acquisition date that have previously been recognized in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date.

Business combinations that took place prior to 1 January 2010 were accounted for in accordance with the previous version of IFRS 3.

**Goodwill**

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized directly in profit or loss in the consolidated statement of profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Assets held for sale**

The Group measures a non-current asset (or disposal group) classified as held for sale at the lower of its carrying amount and fair value less costs to sell, and depreciation on such assets are ceased.

The Group classifies a non-current asset (or disposal group) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use.

**Impairment of non-financial assets**

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired. Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Impairment of non-financial assets (cont’d)**

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in consolidated statement of profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

**Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in the consolidated statement of profit or loss in the period in which they are incurred.

**Financial Instruments***Recognition and measurement*

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

*Classification and subsequent measurement*

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- it is its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group may irrevocably make preference about presentation of subsequent changes in its fair value in other comprehensive income on initial recognition of non-trading equity investment. This is made separately for each investment.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets.

On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Financial Instruments (cont’d)***Financial Instruments: Business model assessment*

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management.

Financial assets that are managed on the basis of fair value and whose performance is assessed accordingly are measured at fair value through profit or loss.

*Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest:*

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Group’s claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract.

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Financial Instruments (cont’d)**

*Financial assets – subsequent measurement and gains and losses*

The following accounting policies apply to the subsequent measurement of financial assets.

|                                           |                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Financial assets at FVTPL</b>          | These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.                                                                                                                                                                                             |
| <b>Financial assets at amortized cost</b> | These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.                             |
| <b>Debt investments at FVOCI</b>          | These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss. |
| <b>Equity investments at FVOCI</b>        | These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.                                                   |

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments which their maturities are three months or less from date of acquisition and that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. The Group’s cash and cash equivalents are classified under the category of ‘Loans and Receivables’.

Financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Financial liabilities are classified as either financial liabilities at fair value through profit and loss or other financial liabilities.

## a) Financial liabilities at fair value through profit and loss

Financial liabilities are classified as at FVTPL where the financial liability is either held for trading or it is designated as at FVTPL. Financial liabilities at FVTPL are stated at fair value, with any resultant gain or loss recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Financial Instruments (cont’d)**Financial liabilities (cont’d)

## b) Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Derivative financial instruments and hedging

Derivative financial instruments are initially recognized at fair value and are subsequently remeasured at their fair value. Derivative financial instruments of the Group predominantly constitute forward foreign currency purchase and sale contracts.

The fair value of forward foreign exchange contracts measured at fair value and associated with the consolidated profit or loss is calculated by reference to the market interest rates valid for the rest of the contract for the relevant currency for the relevant period, by comparison with exchange rate. Derivatives are recorded as assets or liabilities in the balance sheet, respectively, depending on whether the fair value is positive or negative differences arising from the fair value of derivative financial instruments except for the cash flow hedge explained below are reflected in the profit and loss statement in the consolidated statements of income.

Cash flow hedge

The Group performs cross currency transactions with participation option to hedge the cash flow risk of variable and fixed rate financial instruments and liabilities in different currencies. The effective portion of the fair value change of the hedging instrument in the cash flow hedge accounting is recognized in “other comprehensive income”, while the ineffective portion is recognized in the in profit or loss. In the periods in which the cash flows of the hedged item affect the profit or loss, the profit or loss of the hedging instrument is also removed from equity and reflected to the income statement. In addition, the time value change in the options included in the structured cross-currency swaps is recognized in other comprehensive income as the hedging cost.

According to IFRS 9, the hedging relationship ends when the required criteria are no longer met after rebalancing. The termination of the hedging relationship is not accepted if the required criteria are met. In the event that the hedging target changes, the hedging instrument expires or is sold, terminated or used, the hedging accounting ends when the economic relationship between the hedging instrument and the hedged item is eliminated or the credit risk affects the fair value changes arising from the economic relationship.

When the Group discontinued hedge accounting for cash flow variability, the amount accumulated in the cash flow hedge fund is recognized as follows;

- The profit or loss recognized in other comprehensive income and presented in the hedging reserve under equity remains there until the cash flows of the hedged item realised.

- When the cash flows from the hedged item is expected not to be realised, the gain or loss accumulated under equity is recognized immediately in profit or loss.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Financial Instruments (cont’d)**Accounting at the date of transaction

All financial assets are recognized and derecognized on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned.

Offsetting

Financial assets and liabilities are offset and the net amount is reported in the consolidated balance sheet when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Derecognition*Financial assets*

The Group derecognized a financial asset when the contractual rights to the cash flows from the asset expired, or it transferred the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset were transferred. Any interest in such transferred financial assets that was created or retained by the Group was recognized as a separate asset or liability.

The Group continues to recognize the financial asset in the statement of financial position if it retains substantially all the risks and benefits arising from the ownership of a financial asset.

*Financial liabilities*

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expired. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

Impairment of financial assets*Financial assets and contract assets*

The Group recognizes loss allowances for the expected credit losses of the following items:

- financial assets measured at amortized cost;
- contract assets (as defined in IFRS 15).

Under IFRS 9, loss allowances are measured on either of the following bases:

Financial assets measured at amortized cost;

- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument;and

Bank balances for which credit risk has not increased significantly since initial recognition;

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date.

The Group has elected to measure loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group’s historical experience and informed credit assessment and including forward-looking information.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Financial Instruments (cont’d)**Impairment of financial assets (cont’d)

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of “investment grade”.

The maximum time to be measured by the ECLs is the maximum contractual period that the Group is exposed to credit risk.

**Measurement of ECLs**

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

For trade receivables, other receivables, other assets and contract assets the Group applies the simplified approach to providing for expected credit losses (IFRS 9 requires the use of the lifetime expected loss provision for all trade receivables). The expected credit losses were calculated based on actual credit loss experience over the past years.

**Credit-impaired financial assets**

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is ‘credit-impaired’ when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

**Presentation of impairment**

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is recognized in OCI, instead of reducing the carrying amount of the asset.

**Trade receivables**

The following analysis provides further detail about the calculation of ECLs related to trade receivables and contract assets on the adoption of IFRS 9. The Company considers the model and some of the assumptions used in calculating these ECLs as key sources of estimation uncertainty.

The Group has calculated the ECLs according to the experience of credit losses in the last three years. The Group performed the calculation of ECL for receivables at the reporting date. Exposures within each group were segmented based on common credit risk characteristics such as credit risk grade, delinquency status, geographic region, age of relationship.

**Retention Receivables from Contractors**

The Group’s progress billings from its employees are subject to retention deductions, which vary, based on the individual agreements. These balances are collected based on contract terms either via letter of bank guarantees or from the contractors upon successful completion of the contract at the end of the warranty period. Retention receivables are measured at initial recognition at fair value, and are subsequently measured at amortized cost using the effective interest rate method.

**Retention Payables to Subcontractors**

The Group’s progress billings to its subcontractors are subject to retention deductions, which vary, based on the individual agreements. These payables are paid to subcontractors after they successfully complete the guarantee periods. Retention payables are measured at initial recognition at fair value, and are subsequently measured at amortized cost using the effective interest rate method.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Effect of changes in foreign exchange rates**

Transactions in currencies other than functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. Foreign currency indexed monetary assets and liabilities are recorded at the rates of exchange prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Nonmonetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences are recognized in the consolidated statement of profit or loss in the period in which they arise.

**Earnings per share**

Basic earnings per share (EPS) disclosed in the consolidated statement of profit or loss are determined by dividing net profit by the weighted average number of shares that have been outstanding during the related year concerned.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares (Bonus Shares) to existing shareholders without a consideration for amounts resolved to be transferred to share capital from retained earnings. For the purpose of the EPS calculation, such bonus share distributions are regarded as stock dividends. If the number of ordinary shares outstanding increases as a result of a capitalization, bonus issue or share split, or decreases as a result of a reverse share split, the calculation of basic EPS for all periods presented is adjusted retrospectively. If these changes occur after the balance sheet date but before the financial statements are authorized for issue, the EPS calculations for those and any prior period financial statements presented is based on the new number of shares.

**Provisions, contingent liabilities, contingent assets**Provisions

Provisions are recognized when the Group has a present obligation as a result of a past event, and it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

Contingent liabilities and assets

If contingent liabilities does not carry a high probability of resource allocation (cash outflow), they are not recognized in the consolidated financial statements but disclosed in the footnotes. However, contingent assets are not recognized in consolidated financial statements but disclosed in the footnotes when an inflow of economic benefits is probable.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Leases**

The Group has applied IFRS 16 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under IAS 17 and IFRIC 4. The details of accounting policies under IAS 17 and IFRIC 4 are disclosed separately.

*i. As a lessee*

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group’s incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group’s estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Leases (cont’d)*****Short-term leases and leases of low-value assets***

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

*ii. As a lessor*

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then the Group applies IFRS 15 to allocate the consideration in the contract.

The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of ‘other revenue’.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Related parties**

Related parties are individuals or entities that are related to the entity that is preparing its financial statements (reporting entity).

a) An individual or a close family member is considered related party of the reporting entity when the following criteria are met: If a certain individual,

- i) Has control or joint control over the reporting entity,
- ii) Has significant influence over the reporting entity,
- iii) Is a key management personnel of the reporting entity or a parent company of the reporting entity.

b) An entity is considered related party of the reporting entity when the following criteria are met:

- i) If the entity and the reporting entity is within the same group (meaning every parent company, subsidiary and other subsidiaries are considered related parties of others.
- ii) If the reporting entity is a subsidiary or a joint venture of another entity (or of another entity that the entity is within the same group).
- iii) If both of the entities are a joint venture of a third party.
- iv) If one of the entities are a joint venture of a third party while the other entity is a subsidiary of this third party.
- v) If entity has plans of post employment benefits for employees of reporting entity or a related party of a reporting entity. If the reporting entity has its own plans, sponsor employers are also considered as related parties.
- vi) If the entity is controlled or jointly controlled by an individual defined in the article (a).
- vii) If an individual defined in the clause (i) of article (a) has significant influence over the reporting entity or is a key management personnel of this certain entity (or a parent company of the entity)

Related party transaction is the transfer of resources, services or liabilities regardless of whether a price is charged or not.

**Income tax**

Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements, have been calculated on a separate-entity basis.

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted by the balance sheet date. Current income tax relating to items recognized directly in equity is recognized in equity and not in the consolidated statement of profit or loss.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Income tax (cont’d)**

Deferred income tax is provided, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts. Deferred income tax liabilities are recognized for all taxable temporary differences.

Deferred income tax assets are recognized for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carry-forward of unused tax assets and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that, in the management’s judgment, it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each balance sheet date and are recognized to the extent it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet dates.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities, and deferred taxes relate to the same taxable entity and the same taxation authority. Deferred tax relating to items recognized directly in equity is recognized in equity and not in the consolidated statement of profit or loss.

**Employee termination benefits**

The Group has both defined benefit and defined contribution plans as described below:

**Vacation pay liability**

In accordance with the existing labor law in Turkey, the Company is required to pay to the employee, whose employment is terminated due to any reasons, the wage of the deserved and unused vacation days over the gross prevailing wage and other benefits subject to contract at the date the contract is terminated.. Unused leave provision is the earned and unused vacation rights of its employees of the Company, and measured on an undiscounted basis and are recognised in profit or loss as the related service is provided.

**Retirement pay provision**

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Group. Such payments are considered as being part of defined retirement benefit plan as per International Accounting Standard 19 (revised) “Employee Benefits” (“IAS 19”).

The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized actuarial gains and losses. Actuarial gains and losses are accounted as other comprehensive income.

Personnel working in branches operating in foreign countries and joint-operations do not have any employee termination benefit as there is no legal obligation in these countries.

**Defined contribution plans**

The Company and its subsidiaries in Turkey pay contributions to publicly administered Social Security Fund on a mandatory basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due.

Foreign subsidiaries and joint operations contribute to the related government body for the pension scheme of its employees in the country they are domiciled. Mandatory contributions to the governmental pension scheme are expensed when incurred.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**2. BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)****2.4 Summary of significant accounting policies (cont’d)****Statement of cash flows**

Cash flows are classified according to operating, investment and finance activities in the consolidated statement of cash flows.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, excluding short term deposits with an original maturity of more than three months and deposits blocked in bank accounts as collateral.

**Events after the reporting period**

Events after the reporting period, also known as ‘subsequent events’ include any favorable or unfavorable event that took place between the balance sheet date and the publication date of the balance sheet, despite any possible event that might arise after the publicization of any information regarding profits or other financial figures.

The Group adjusts its consolidated financial statements if such adjusting subsequent events arise.

**2.5 Significant accounting judgements, estimates and assumptions**

The preparation of the consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that are reflected in the measurement of income and expense in the consolidated statement of profit or loss and in the carrying value of assets and liabilities in the consolidated balance sheet, and in the disclosure of information in the notes to the consolidated financial statements. Managements do exercise judgment and make use of information available at the date of the preparation of the consolidated financial statements in making these estimates. The actual future results from operations in respect of the areas where these judgments and estimates have been made may in reality be different than those estimates.

The key assumptions concerning the future and other key resources of estimation at the consolidated balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments (apart from those involving estimations) with the most significant effect on amounts recognized in the consolidated financial statements are as follows:

- Determination of total estimated project costs, profitability and calculation of loss accruals under the scope of IFRS 15 (Note 12).
- Fair value of investment properties under the scope of IAS 40 “Investment Property” and land and buildings under the scope of IAS 16 “Property, Plant and Equipment” (Note 13 and 14).

**3. DIVIDENDS**

Based on the Group’s Ordinary General Assembly held on 28 March 2023; regarding to the distribution of the year 2022 profit, it has been resolved to distribute dividend to its shareholders gross full TL 1,680,000,000 , gross full TL 500,000,000 from retained earnings in total TL 2,180,000,000 , further it has been resolved to distribute TL 35,614,745 as cash dividend to founder shares. The dividend decided to be distributed was distributed on 12 April 2023.

In 2023 and 2022, the Group distributed dividends as detailed below:

|                                                          | 2023                |                     | 2022                |                     |
|----------------------------------------------------------|---------------------|---------------------|---------------------|---------------------|
|                                                          | Dividend (TL)       | Dividends per share | Dividend (TL)       | Dividends per share |
| Ordinary share owners (1 Full TL nominal value) (*)      | 2,130,130           | 0,36 Full TL        | 2,730,943           | 0,50 Full TL        |
| Founder share owners                                     | 23,743              | 23,74 Full TL       | 40,684              | 40,68 Full TL       |
| Enka Holding share owners                                | 11,872              | 11,87 Full TL       | 20,342              | 20,34 Full TL       |
| Ordinary share owners (1 Full TL nominal value) (*) (**) | -                   |                     | 1,092,377           |                     |
|                                                          | <u>2,165,745 TL</u> |                     | <u>3,884,346 TL</u> |                     |

(\*)The amount of dividends distributed to the shares bought back by the Company has been deducted.

(\*\*) Based on the power vested in the Board of Directors by the Ordinary General Assembly for year 2022 held on March 28, 2023, the Board of Directors resolved to distribute, a total of full TL 3,000,000,000 from the net profit of the current period as indicated on the financial statements comprising the interim period from 01 January 2023 – 30 September 2023 to the holders of share certificates representing the share capital amounting to full TL 6,000,000,000.

| Currency translation difference              | (225,218)                       | 58,539                          |
| Change in fair value, net (Note 26)          | 6,826                           | (83,274)                        |
| Change in present value of lease obligations | 12,130                          | 22,755                          |
| Closing balance                              | <u>1,821,962</u>                | <u>2,028,224</u>                |

Investment properties include mainly real estate properties in Russia and Turkey which are leased to tenants. As of 31 December 2023 and 2022 investment properties consist of real estates in Russia from which rent income is obtained and lands and buildings held as investment in Turkey amounting to USD 12,839 (31 December 2022 - USD 12,839).

“Business Valuation Bureau LLC” which is licenced by Russian Federation as an independent valuation firm, has revalued the fair values of the investment properties of the Group in Russia.

Investment properties of the consolidated subsidiaries Mosenka, MKH, Enkamos Region BV and Enka TC have been revalued at fair value. Fair values of such investment properties are reviewed every year through the report of independent valuers. As of 31 December 2023, the fair values of investments properties of the consolidated subsidiaries Enkamos Region BV, MKH, Mosenka and Enka TC have been set respectively as follows: MKH; 10.39 million RUB equivalent to USD 115,903 (31 December 2022 - 9.53 million RUB equivalent to USD 135,484), Mosenka; 5.07 million RUB equivalent to USD 56,512 (31 December 2022 – 4.70 million RUB equivalent to USD 66,820), Enkamos Region BV; 5.18 million RUB equivalent to USD 57,802 (31 December 2022 – 4.81 million RUB equivalent to USD 68,403) and Enka TC; 52.96 million RUB equivalent to USD 590,467 (31 December 2022 – 51.03 million RUB equivalent to USD 725,484).

The fair values of the investment properties of the Group in Russia, determined at 31 December 2023 as USD 878,004 (31 December 2022 - USD 896,986). The investment properties of the Group located in Moscow includes land leased from Moscow City Authorities under a 49 year operating lease agreement, which are renewable at the option of the Group.

The investment properties owned by the Group are carried at fair value determined by independent professionally qualified valuers on the basis of market value supported by market evidence and other information obtained in the course of market research. Fair values of such investment properties are periodically reviewed by the Group through the report of independent valuers.

As of 31 December 2023 and 2022 the reports of independent valuers are prepared based on valuation models such as income capitalization, discounted cash flow model and market value model. The fair value of the properties have not been determined based on income capitalization method in case of lack of transactions observable in the market because of the nature of the property and the lack of comparable data. The fair value of the investment properties of the Group are estimated by using income capitalization method, with capitalization and discount rates ranging between 10.50% and 18.40% to 22.86% (31 December 2022 – 10.50% and 16.17% to 19.65%) respectively.

In the event of a 1% increase or decrease in the capitilization rate, the fair value of investment properties would be USD 1,634,639 or USD 1,814,066 respectively.

|                                        | USD       | RUBLE       | Exchange<br>Rate |
|----------------------------------------|-----------|-------------|------------------|
| If capitalization rate increases by 1% | 1.634.639 | 146.608.031 | 89.6883          |
| If capitalization rate decreases by 1% | 1.814.066 | 162.700.525 | 89.6883          |

(\*) The amount consists of the aircraft used by subsidiary of the Company, Air Enka.

(\*\*) As of 31 December 2023, Hotel building of OMKH is revalued by independent qualified valuer “Business Valuation Bureau LLC”. Revaluation difference arising from difference between book value and fair value is netted off with the related deferred tax and classified as revaluation surplus and included under equity. Revaluations are made by discounted cash flow methods.

(\*\*\*) Other reclassifications are classifications between sub-groups of fixed assets and have no effect on net book value of fixed assets.

ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES  
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

(\*) The amount consists of the aircraft used by subsidiary of the Company, Air Enka.

(\*\*) As of 31 December 2022, Group’s investments in Turkey are revalued by “Denge Gayrimenkul Değerleme ve Danışmanlık A.Ş.” which is a CMB licensed independent valuation firm and hotel building of OMKH is revalued by independent qualified valuer “Business Valuation Bureau LLC”. Revaluation difference arising from difference between book value and fair value is netted off with the related deferred tax and classified as revaluation surplus and included under equity. Revaluations are made by discounted cash flow methods (\*\*\*) Other reclassifications are classifications between sub-groups of fixed assets and have no effect on net book value of fixed assets.

ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

14. PROPERTY, PLANT AND EQUIPMENT (cont’d)

As of 31 December 2023, there is no security on the property, plant and equipment of the Group (31 December 2022 - None).

If the buildings were measured using the cost model, the carrying amounts would be as follows:

|                          | 31 December 2023 | 31 December 2022 |
|--------------------------|------------------|------------------|
| Cost                     | 344,682          | 302,080          |
| Accumulated depreciation | (106,946)        | (125,968)        |
| Net book value           | 237,736          | 176,112          |

The distribution of depreciation expenses as of 31 December 2023 and 2022 is presented in Note 24.

As of 31 December 2023 and 2022 fair value hierarchy table of fixed asset is as follows:

|           | 31 December 2023 | Fair value as at 31 December 2023 |         |         |
|-----------|------------------|-----------------------------------|---------|---------|
|           |                  | Level 1                           | Level 2 | Level 3 |
|           |                  | USD                               | USD     | USD     |
| Lands     | 220,288          | -                                 | 220,288 | -       |
| Buildings | 135,573          | -                                 | -       | 135,573 |
| Total     | 355,861          | -                                 | 220,288 | 135,573 |

|           | 31 December 2022 | Fair value as at 31 December 2022 |         |         |
|-----------|------------------|-----------------------------------|---------|---------|

|                        | <u>13,273</u>       | <u>9,621</u>        |

**b) Long-term employee benefits**

In accordance with existing social legislation, the Company and its subsidiaries incorporated in Turkey are required to make lump-sum payments to employees whose employment is terminated due to retirement or for reasons other than resignation or misconduct. Such payments are calculated on the basis of 30 days’ pay limited to a maximum of full TL 23,489.83 equivalent to full USD 798 (31 December 2022 - full TL 15,371.40 equivalent to full USD 822) per year of employment at the rate of pay applicable at the date of retirement or termination.

The liability is not funded as there is no funding requirement.

The provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of employees. IAS 19 requires actuarial valuation methods to be developed to estimate the enterprise’s obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

The principal assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at 31 December 2023, the provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. The provisions at the respective balance sheet dates have been calculated , assuming an annual inflation rate of 28.43% and a discount rate of 2.47% (31 December 2022 – 2%).

Estimated amount of retirement pay not paid due to voluntary leaves is also taken into consideration. Retirement ceiling pay revised each six month period basis and ceiling amount of full TL 35,058.58 equivalent to full USD 1,191 which is in effect since 1 January 2024 is used in the calculation of Groups’ provision for retirement pay liability (1 January 2023 – full TL 19,982.83 equivalent to full USD 1,069).

Movements of the provision for employee termination benefits for the years ended 31 December 2023 and 2022 are as follows:

|                                 | 1 January -<br>31 December 2023 | 1 January -<br>31 December 2022 |

**Financial Risk Hedge Fund**

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of hedging instruments entered into for cash flow hedges. The cumulative gain or loss arising on changes in fair value of the hedging instruments that are recognised and accumulated under the heading of cash flow hedging reserve will be reclassified to profit or loss when the hedged transaction affects the profit or loss, or included as a basis adjustment to the non-financial hedged item, consistent with the relevant accounting policy.

**c) Legal reserves and accumulated profit**

The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code (“TCC”). The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the company’s paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. Under the TCC, the legal reserves can be used only to offset losses and are not available for any other usage unless they exceed 50% of paid-in share capital. Dividend distributions are made in TL in accordance with its Articles of Association, after deducting taxes and setting aside the legal reserves as discussed above.

Listed companies in Turkey make profit distributions in accordance with the regulations of CMB.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars ("USD") unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**21. SHARE CAPITAL AND RESERVES (cont'd)****c) Legal reserves and accumulated profit (cont'd)**

Equity inflation adjustment and carrying value of extraordinary reserves can be used in free capital increase, cash profit distribution and loss deduction. However, equity inflation adjustment is subject to corporate tax if it is used in cash profit distribution.

As of 31 December 2023, legal reserves of Enka İnşaat are amounting to TL 2,418,304 equivalent to USD 82,149 (31 December 2022 – TL 2,190,299 equivalent to USD 117,139).

The movement of the share capital (in numbers and in historical TL) of the Group during 31 December 2023 and 2022 is as follows:

|                                            | 31 December 2023     |                  | 31 December 2022     |                  |

**29. ASSETS HELD FOR SALE****Lands and buildings held for sale**

As of 31 December 2023, assets held for sale comprise of lands and buildings obtained by Enka Pazarlama and Enka Kazakhstan Branch in consideration of their doubtful receivables and are amounting to USD 14,175 (31 December 2022 – USD 16,533).

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars ("USD") unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**30. TAXATION ON INCOME**Corporate Tax

The Company and its subsidiaries are subject to tax legislation and practices effective in Turkey. Corporate tax is declared until the evening of the last day of the fourth month following the end of the relevant period and is paid in one installment until the end of the relevant month. Corporations are required to calculate advance tax at the current rate on their quarterly taxable profits, declare it until the 17th day of the second month following the period and pay it until the evening of the 17th day. Advance taxes paid during the year are offset against the corporate tax calculated on the annual corporate tax return for that year. If there is an amount of advance tax paid despite the offset, this amount can be refunded in cash or offset against other tax liabilities.

As of 31 December 2022, the general corporate tax rate applied to the legal tax base, which is calculated by adding non-deductible expenses and deducting exemptions in accordance with tax laws to the commercial income of corporations in Turkey, was 20%. However, according to the Article 21 of the "Law on the Amendment of Certain Laws and the Decree Law No. 375 on the Amendment of Certain Laws and the Decree Law No. 375 on Additional Motor Vehicles Tax for the Compensation of the Economic Losses Caused by the Earthquakes Occurring on 6/2/2023" published in the Official Gazette dated 15 July 2023 and numbered 32249. In accordance with the amendments made in Article 32 of the Corporate Tax Law No. 5520 regulating the corporate tax rate, the general rate applied in corporate tax has been increased from 20% to 25% starting from the declarations to be submitted as of 1 October 2023. Accordingly, the Company and its subsidiaries in Turkey have used the tax rate of 25% in the calculation of the period tax for the year 2023.

Within the scope of this change, the tax rate used in deferred tax calculation as of December 31, 2023 is 25%. (December 31, 2022: 20%).

As of 31 December 2021, the conditions required for the inflation adjustment of the financial statements as of 31 December 2021 have been met in accordance with Article 298 of the Tax Procedure Law. However, in accordance with the provisional article 33 of the Tax Procedure Law numbered 213 with the Law numbered 7352 "Law on Amendments to the Tax Procedure Law and Corporate Tax Law" published in the Official Gazette dated 29 January 2022 and numbered 31734:

- Repeated financial statements will not be subject to inflation adjustment for the 2021 and 2022 accounting periods and the temporary tax periods of the 2023 accounting period, regardless of whether the conditions for inflation adjustment under Article 298 are met, including the temporary tax periods

- The financial statements dated 31 December 2023 will be subject to inflation correction in a way that will not affect the corporate tax base,

According to the "General Communiqué on Tax Procedure Law No. 555" published in the Official Gazette dated 30 December 2023 and numbered 32415 and the repeated article 298 of the Tax Procedure Law No. 213, it is essential that the financial statements of the enterprises operating in Turkey for the 2023 accounting period are subject to inflation adjustment. The inflation adjusted financial statements will constitute an opening balance sheet base in the tax returns to be prepared as of 1 January 2024 and the effects of inflation will not be taken into consideration in the calculation of the period tax for 2023.

In accordance with the provisional Article 33 of the Tax Procedure Law, the tax effects arising from the inflation adjustment of the financial statements as of 31 December 2023 are included in the deferred tax calculation as of 31 December 2023.

Turkish tax legislation does not allow the parent company to file a tax return based on the consolidated financial statements. Therefore, provision for taxes in previous periods, as reflected in the financial statements, has been calculated on a separate-entity basis.

According to the Tax Procedure Law, financial losses can be carried for a maximum of five years. Tax authorities may inspect tax returns and the related accounting records and may revise assessments within five years.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars ("USD") unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**30. TAXATION ON INCOME (cont'd)**

Dividend payments made to resident institutions in Turkey, except to those who are not liable and exempt from corporate tax and income tax, and to real persons and non-resident institutions in Turkey are subject to 10% income tax.

Dividend payments made from residing institutions in Turkey to residing institutions in Turkey is not subject to income tax. In addition, income tax is not calculated if the profit is not distributed or added to the capital.

Dividend earnings of corporations from participation in another fully liable corporation are exempt from corporate tax. In addition, 75% of the income derived by entities from the sale of participation shares, immovable property, preferential rights, founders' shares and redeemed shares which are recognised in assets at least for two years is exempt from corporate tax. However, according to the amendments with Law numbered 7061, this rate has been reduced from 75% to 50% in terms of immovables and this rate is used as 50% in tax returns to be prepared as of 2018. In addition, as of 15 July 2023, the 50% tax exemption stipulated in Law No. 5520 for gains on the sale of immovable property has been abolished. However, this exemption will be applied as 25% for the sales of immovable properties included in the assets of the enterprises before 15 July 2023.

In order to benefit from the exemption, the relevant income should be kept under a fund account in liabilities and should not be withdrawn from the enterprise for 5 years. The sales amount should be collected by the end of the second calendar year following the year of sale.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns within four months following the close of the accounting year to which they relate. Tax authorities may, however, inspect tax returns and the related accounting records and may revise assessments within five years.

**Income Tax Withholding**

There is a withholding tax liability on dividend distributions and this withholding tax liability is declared in the period in which the dividend is paid in cash or on account. Dividend payments are subject to a 15% withholding tax until 22 December 2021, except for non-resident companies that generate income through a workplace or their permanent representative in Turkey, and those made to companies residing in Turkey. However, in accordance with the Presidential Decision No. 4936, published in the Official Gazette dated 22 December 2021 and numbered 31697, the withholding tax rate of 15% has been reduced to 10%.

In the application of withholding tax rates for profit distributions to non-resident companies and real persons, the withholding tax rates in the relevant Double Taxation Prevention Agreements are also taken into account. The addition of retained earnings to the capital is not considered a profit distribution, therefore it is not subject to withholding tax.

**Transfer Pricing Regulations:**

In Turkey, transfer pricing regulations are specified in Article 13 of the Corporate Tax Law, titled "Disguised profit distribution through transfer pricing". The communiqué dated 18 November 2007 on disguised profit distribution through transfer pricing regulates the details of the implementation.

If the taxpayer buys or sells goods or services with related parties at the price they have determined in violation of the arm's length principle, the profit is deemed to have been distributed implicitly through transfer pricing in whole or in part. Disguised profit distribution through such transfer pricing is considered a non-deductible expense for corporate tax.

**Deferred Tax:**

The Group recognizes deferred tax assets and liabilities for temporary timing differences arising from differences between its statutory tax consolidated financial statements and its consolidated financial statements prepared in accordance with IFRS. These differences generally arise from the fact that some income and expense items are included in different periods in the consolidated tax financial statements and the consolidated financial statements prepared in accordance with IFRS, and the differences in question are stated below.

|                                                      | <u>151,920</u>               | <u>17%</u> | <u>94,966</u>                | <u>86,6%</u> |
| Taxation charge                                      |                              |            |                              |              |

As of 31 December 2023 and 2022, the breakdown of temporary differences which give rise to deferred taxes is as follows:

|                                                                                                           | 31 December<br>2023 | 31 December<br>2022 |
|-----------------------------------------------------------------------------------------------------------|---------------------|---------------------|
| Remeasurement and revaluation of property, plant and equipment, intangible assets and investment property | (379,498)           | (378,390)           |
| GE Inventory in the context of "PSA" (*)                                                                  | (12,047)            | (14,274)            |
| Adjustments on financial instruments                                                                      | (18,650)            | (64,187)            |
| Others                                                                                                    | <u>(48)</u>         | <u>(271)</u>        |
| Gross deferred income tax liabilities                                                                     | <u>(410,243)</u>    | <u>(457,122)</u>    |
| Allowance for retirement pay liability                                                                    | 2,598               | 2,183               |
| Others                                                                                                    | 7,033               | 14,239              |
| Gross deferred income tax assets                                                                          | <u>9,631</u>        | <u>16,422</u>       |
| Net deferred tax liability                                                                                | <u>(400,612)</u>    | <u>(440,700)</u>    |

(\*) Implies deferred tax liabilities estimated from temporary differences related to "Parts and Services Agreement" (PSA) made with the Group's spare part supplier General Electric (GE).

Deferred tax is reflected in the statement of financial position as:

|                          | 31 December<br>2023 | 31 December<br>2022 |
|--------------------------|---------------------|---------------------|
| Deferred tax assets      | 3,226               | 21,563              |
| Deferred tax liabilities | <u>(403,838)</u>    | <u>(462,263)</u>    |
| Net deferred liabilities | <u>(400,612)</u>    | <u>(440,700)</u>    |

Total amount of temporary differences and deferred tax liabilities which have not been recognized as of 31 December 2023 related with Group's shares in its subsidiaries, branches and associates is USD 1,358,377 (31 December 2022 - USD 3,017,187).

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**31. EARNINGS PER SHARE**

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares (“Bonus Shares”) to existing shareholders without consideration for amounts resolved to be transferred to share capital from retained earnings and revaluation surplus. For the purpose of the EPS calculation such bonus share issues are regarded as stock dividends. Dividend payments, which are immediately reinvested in the shares of the Company, are regarded similarly. Accordingly the weighted average number of shares used in EPS calculation is derived by giving retroactive effect to the issue of such shares without consideration through 31 December 2023.

|                                                                               | 31 December 2023 | 31 December 2022 |
|-------------------------------------------------------------------------------|------------------|------------------|
| Earning per share                                                             |                  |                  |
| - ordinary share certificate (full USD)                                       | 0.12             | 0.00             |
| - founder shares (*)                                                          | -                | -                |
| Weighted average number of share certificates<br>(nominal value of 1 TL each) | 5,862,743,582    | 5,860,782,600    |
| - ordinary share certificate                                                  | 5,860,782,600    | 5,852,021,073    |
| -treasury shares                                                              | 1,960,982        | 8,761,527        |
| - founder shares                                                              |                  |                  |

(\*) Since 2023 profit distribution was not determined as of the date of the preparation date of the consolidated financial statements, total of the earnings per share is reflected on ordinary share certificates.

**32. RELATED PARTY BALANCES AND TRANSACTIONS****Related parties**

The Group is controlled by Tara Holding (49.80%) (31 December 2022 – 49.80%) and Tara and Gülçelik families (28.40%) (31 December 2022 – 28.40%). For the purposes of the consolidated financial statements, balances with the shareholder companies, individual shareholders, unconsolidated subsidiaries, associated companies, equity participations and their affiliates are referred to as “related parties”. Related parties also include management and members of the Group’s Board of Directors.

In the course of conducting business, the Group conducted various business transactions with related parties on commercial terms. The breakdown of balances with related parties and details of significant related party transactions are as follows:

|                  | 31 December 2023 |          | 31 December 2022 |          |
|------------------|------------------|----------|------------------|----------|
|                  | Receivables      | Payables | Receivables      | Payables |
| Shareholders     | -                | 1        | -                | 7        |
| Enka Spor Kulübü | 22               | -        | -                | -        |
|                  | <u>22</u>        | <u>1</u> | <u>-</u>         | <u>7</u> |

As of 31 December 2023, the Group gained USD 4.79 rent income from related parties (31 December 2022 - USD 3.98). As of 31 December 2023 the Group does not have any sales to related parties (2022 - None).

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**32. RELATED PARTY BALANCES AND TRANSACTIONS (cont’d)****Top management’s remuneration**

The total wages paid for the members of Board of Directors of the Group is amounting to USD 6,984 (31 December 2022 - USD 4,140), the social security payments and retirement pay provisions are USD 735 (31 December 2022 – USD 514) and USD 73 (31 December 2022– USD 134) respectively. Total wages paid for the general manager, general coordinators and vice general managers of the Group (except BOD members), is amounting to USD 18,679 (31 December 2022 – USD 11,360), the social security payment and retirement pay provisions are USD 1,263 (31 December 2022 – USD 1,109) and USD 1,018 (31 December 2022 – USD 1,109) respectively.

**33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Group’s principal financial instruments comprise bank loans, investment securities, lease obligations, cash and short-term deposits. The main purpose of these financial instruments is to raise finance for the Group’s operations. The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group’s financial instruments are interest rate risk, liquidity risk, foreign currency risk and credit risk. The management reviews and agrees policies for managing each of these risks. The Group monitors the market price risk arising from all financial instruments periodically.

**Capital risk management**

The primary objective of the Group’s capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. Capital structure of the Group comprises from liabilities, cash and cash equivalents, paid-in capital and legal reserves explained in Note 21.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or the shareholders may make a direct cash contribution of the needed working capital to the Group. No changes were made in the objectives, policies or processes during the years ended 31 December 2023 and 2022.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including ‘current and non-current borrowings’ as shown in the consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as ‘equity’ as shown in the consolidated statement of financial position plus net debt.

**Total Assets / Total Equity**

FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont’d)****Financial risk factors****Interest risk**

The Group’s exposure to the risk of changes in market interest rates relates primarily to the Group’s debt obligations with floating interest rates. The Group is managing interest risk that arises from assets and liabilities sensitive to interest risk by using balancing assets and liabilities.

**Foreign currency risk**

The Group is exposed to foreign exchange risk arising from various currency exposures primarily with respect to Euro, Russian Ruble and also U.S Dollar which arises from the liabilities belonging to the companies in the consolidation scope, whose the functional currency is not U.S Dollar.

The Group is engaged in construction, trading, energy and real estate operations business in several countries and, as a result, is exposed to movements in foreign currency exchange rates. In addition to transactional exposures, the Group is also exposed to foreign exchange movements on its net investments in foreign subsidiaries. The Group manages foreign currency risk by using natural hedges that arise from offsetting foreign currency denominated assets and liabilities.

The foreign currency risk of the Group arises from the credits used in U.S. Dollars, Euro and JPY. In order to mitigate the risk, the Group continuously monitors its cash inflows/outflows and also uses financial instruments to hedge the risk when it is necessary.

The following table details the Group’s foreign currency position as at 31 December 2023 and 2022:

|                                                | 31 December 2023 | 31 December 2022 |

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont’d)****Financial risk factors (cont’d)****Foreign currency risk (cont’d)**

The details of the forward contracts and sales-purchase agreements are explained in Note 17 in order to manage Group’s foreign currency position.

The following table demonstrates the sensitivity to reasonably possible increase of 10% in the exchange rates against functional currency, with all other variables held constant, of the Group’s consolidated statement of profit or loss.

The following table details the Group’s foreign currency sensitivity as at 31 December 2023 and 2022:

|                                                                                        | 31 December 2023                    |                                       | 31 December 2022                    |                                       |

**Credit risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. The Group seeks to manage its credit risk exposure through diversification of sales activities to avoid undue concentrations of risks with individuals or groups of customers in specific locations or businesses. It also obtains security when appropriate. It is the Group’s policy to enter into financial instruments with a diversity of creditworthy counterparties. Therefore, the Group does not expect to incur material credit losses on its risk management or other financial instruments.

(Amounts are expressed as thousands of U.S. Dollars ("USD") unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)****Financial risk factors (cont'd)****Liquidity risk**

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions.

The maturity analysis of the non-derivative financial liabilities is presented based on the period between balance sheet date and maturity date of these non-derivatives financial liabilities.

The table below summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

**ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2023**

(Amounts are expressed as thousands of U.S. Dollars (“USD”) unless otherwise stated. Currencies other than USD are expressed in thousand unless otherwise indicated.)

**34. FINANCIAL INSTRUMENTS – FAIR VALUE EXPLANATIONS AND ACCOUNTING POLICY FOR HEDGING FINANCIAL RISK*****Fair value of financial assets and liabilities***

Fair value is the amount for which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

Foreign currency denominated receivables and payables are revalued with the exchange rates valid as of the date of the financial statements.

The following methods and assumptions were used to estimate the fair value of the financial instruments that are not carried at fair value on the balance sheet:

***Financial assets***

The fair values of cash, amounts due from banks and other monetary assets are considered to approximate their respective carrying values due to their short-term nature. The carrying values of trade receivables are estimated to be their fair values due to their short-term nature. It is considered that the fair values of the long term receivables are approximate to their respective carrying values as they are accounted for in foreign currencies.

***Financial liabilities***

The fair values of trade payables and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature. The fair values of the trade payables after discount are considered to be approximate to their corresponding carrying values. It is considered that the fair values of the long term payables and long term financial borrowings are approximate to their respective carrying values as they are accounted for in foreign currencies.

**Derivative instruments / forward contracts purchase – sales agreements**

In the ordinary course of business, the Group enters into various types of transactions that involve derivative financial instruments. A derivative financial instrument is a financial contract between two parties where payments are dependent upon movements in price in one or more underlying financial instruments, reference rates or indices.

The table below shows derivative financial instruments analyzed by the term to maturity. The notional amount is the amount of a derivative’s underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding at year-end and are neither indicative of the market risk nor credit risk.

As of 31 December 2023 and 2022, the fair value of financial instrument is calculated by using forward exchange rates at the balance sheet date.

***Fair value hierarchy***

The Group classifies the fair value measurement of each class of financial instruments that are measured at fair value on the balance sheet, according to the source, using three-level hierarchy, as follows:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Valuation techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.
