2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of the presentation

The consolidated financial statements of the Group have been prepared in accordance with International Accounting Standard No:34, Interim financial reporting (IAS 34). This condensed interim financial information does not contain all the information required for the preparation of the annual financial statements, and should be read in conjunction with the annual financial statements of the Group for the year ended 31 December 2009 prepared in accordance with International Financial Reporting Standards (IFRS). The consolidated financial statements have been prepared on the historical cost convention, except for investment properties, buildings, available-for-sale (AFS) financial assets and derivative financial instruments which are measured at fair values. The consolidated financial statements are presented in U.S. Dollars (USD) and all values are rounded to the nearest thousand ('000) except when otherwise indicated.

The Group adopted all standards, which were mandatory as of 30 September 2010. The consolidated financial statements of Enka İnşaat were authorized for issue by the management on 8 November 2010.

Enka İnşaat and its subsidiaries which are incorporated in Turkey, maintain their books of accounts and prepare their statutory financial statements in Turkish Lira (TL) in accordance with the regulations on accounting and reporting framework and accounting standards promulgated by the Turkish Capital Market Board (CMB), (for publicly traded companies) and Turkish Commercial Code and Tax Legislation and the Uniform Chart of Accounts issued by the Ministry of Finance. The foreign subsidiaries maintain their books of accounts in accordance with the laws and regulations in force in the countries where they are registered. The consolidated financial statements are based on the statutory records with adjustments and reclassifications for the purpose of fair presentation in accordance with IFRS.

ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 SEPTEMBER 2010

(Amounts are expressed as thousands of U.S. Dollars ("USD") unless otherwise stated. All other currencies are also expressed in thousands.)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.1 Basis of the presentation (cont'd)

The Group also reported separately for the consolidated financial statements for the same period prepared in accordance with accounting principles promulgated by CMB.

There are no differences between the consolidated financial statements prepared in accordance with the accounting policies promulgated by CMB and consolidated IFRS financial statements except for the use of TL and USD as the presentation currency, respectively and the reclassification of financial statements balances in the IFRS financial statements.

2.2 Functional and presentation currency

As significant amount of construction, energy and real estate operations of Enka İnşaat and its consolidated subsidiaries and its joint ventures which form main part of the operations of the Group are carried out in U.S. Dollar or indexed to U.S. Dollar, this currency has been determined as the functional and the presentation currency of the Group in line with IAS 21 - The Effects of Changes in Foreign Exchange Rates. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies (i.e. any currency other than the functional currency) are initially recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

The rates used as of 30 September 2010, and 31 December 2009 and the rate as of the preparation date of the consolidated financial statements for one U.S. Dollar can be summarized as below

	<u>8 November 2010</u>	<u>30 September 2010</u>	<u>31 December 2009</u>	<u>30 Eylül 2009</u>
TL	1.3922	0.6891	0.6641	0.6748
EUR	1.4131	1.3612	1.4347	1.4577
RUB	0.0325	0.0329	0.0344	0.0332

2.3 Reclassifications made to the previously issued consolidated financial statements

As of 30 September, 2009, the Group has changed the classification of "Selling and administrative expenses" related with rental income amounting to U.S. Dollars 11.253 and therefore reclassified the related accounts to "Cost of sales" reported in its previously issued consolidated financial statements to present them in conformity with the current year presentation.

2.4 Summary of significant accounting policies

Except for the new and amended standards effective from 1 January 2010 the Group's accounting policies are consistent with the accounting policies used at 31 December 2009.

ENKA İNŞAAT VE SANAYİ A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 SEPTEMBER 2010

(Amounts are expressed as thousands of U.S. Dollars ("USD") unless otherwise stated. All other currencies are also expressed in thousands.)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.5 New and amended standards adopted by the Group

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning 1 January 2010.

IFRS 3 (revised), "Business Combinations" and consequential amendments to IAS 27, "Consolidated and separate financial statements", IAS 28, "Investments in associates", and IAS 31, "Interests in joint ventures", are effective prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009. The main impact of the adoption is as follows:

- a) to allow a choice on a transaction-by-transaction basis for the measurement of non-controlling interests (previously referred to as 'minority' interests) either at fair value or at the non-controlling interests' share of the fair value of the identifiable net assets of the acquiree.
- b) to change the recognition and subsequent accounting requirements for contingent consideration.
- c) to require that acquisition-related costs be accounted for separately from the business combination, generally leading to those costs being recognized as an expense in profit or loss as incurred.
- d) in step acquisitions, previously held interests are to be remeasured to fair value at the date of the subsequent acquisition with the value included in goodwill calculation. Gain or loss arising from the re-measurement shall be recognized as part of profit or loss.

As the Group has adopted IFRS 3 (revised), it is required to adopt IAS 27 (revised), "consolidated and separate financial statements", at the same time. IAS 27 (revised) requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is re-measured to fair value and a gain or loss is recognised in profit or loss. There has been no impact of IAS 27 (revised) on the current period, as none of the non-controlling interests have a deficit balance. There have been no transactions whereby an interest in an entity is retained after the loss of control of that entity; there have been no transactions with non-controlling interests.

Standards, amendments and interpretations to existing standards effective in 2010 but not relevant to the Group

IFRIC 17, "Distributions of non-cash assets to owners", effective for annual periods beginning on or after 1 July 2009. This is not currently applicable to the Group, as it has not made any non-cash distributions.

IFRIC 18, "Transfers of assets from customers", effective for transfer of assets received on or after 1 July 2009. This is not relevant to the Group, as it has not received any assets from customers.

"Additional exemptions for first-time adopters" (Amendment to IFRS 1) was issued in July 2009. The amendments are required to be applied for annual periods beginning on or after 1 January 2010. This is not relevant to the Group, as it is an existing IFRS preparer.

IFRS 2, "Share-based Payments – Group Cash-settled Share Payment Arrangements" is effective for annual periods beginning on or after 1 January 2010. This is not currently applicable to the Group, as the Group does not have share-based payment plans.

Improvements to International Financial Reporting Standards 2009 were issued in April 2009. (Amounts are expressed as thousands of U.S. Dollars ("USD") unless otherwise stated. All other currencies are also expressed in thousands.)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.5 New and amended standards adopted by the Group (cont'd)

The following new standards, new interpretations and amendments to standards and interpretations have been issued but are not effective for the financial year beginning 1 January 2010 and have not been early adopted

IFRS 1 (amendments) *First-time Adoption of IFRS – Additional Exemptions*

Amendments to IFRS 1 which are effective for annual periods on or after 1 July 2010 provide limited exemption for first time adopters to present comparative IFRS 7 fair value disclosures.

IFRS 9 *Financial Instruments: Classification and Measurement*

In November 2009, the first part of IFRS 9 relating to the classification and measurement of financial assets was issued. IFRS 9 will ultimately replace IAS 39 Financial Instruments: Recognition and Measurement. The standard requires an entity to classify its financial assets on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, and subsequently measure the financial assets as either at amortized cost or at fair value. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not had an opportunity to consider the potential impact of the adoption of this standard.

IAS 24(Revised 2009) *Related Party Disclosures*

In November 2009, IAS 24 Related Party Disclosures was revised. The revision to the standard provides government-related entities with a partial exemption from the disclosure requirements of IAS 24. The revised standard is mandatory for annual periods beginning on or after 1 January 2011. The Group does not expect any impact of the adoption of this revised standard on the financial statements.

IAS 32(Amendments) *Financial Instruments: Presentation* and IAS 1 *Presentation of Financial Statements*

The amendments to IAS 32 and IAS 1 are effective for annual periods beginning on or after 1 February 2010. The amendments address the accounting for rights issues (rights, options or warrants) that are denominated in a currency other than the functional currency of the issuer. Previously, such rights issues were accounted for as derivative liabilities. However, the amendment requires that, provided certain conditions are met, such rights issues are classified as equity regardless of the currency in which the exercise price is denominated. The Group does not expect any impact of the adoption of this amendment on the financial statements.

IFRIC 14 (Amendments) *Pre-payment of a Minimum Funding Requirement*

Amendments to IFRIC 14 are effective for annual periods beginning on or after 1 January 2011. The amendments affect entities that are required to make minimum funding contributions to a defined benefit pension plan and choose to pre-pay those contributions. The amendment requires an asset to be recognized for any surplus arising from voluntary pre-payments made. The Group does not expect any impact of the adoption of this amendment on the financial statements.

IFRIC 19 *Extinguishing Financial Liabilities with Equity Instruments*

IFRIC 19 is effective for annual periods beginning on or after 1 July 2010. IFRIC 19 addresses only the accounting by the entity that issues equity instruments in order to settle, in full or part, a financial liability. The Group does not expect any impact of the adoption of this amendment on the financial statements.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.5 New and amended standards adopted by the Group (cont'd)

The following new standards, new interpretations and amendments to standards and interpretations have been issued but are not effective for the financial year beginning 1 January 2010 and have not been early adopted (cont'd)

Annual Improvements May 2010

Further to the above amendments and revised standards, the IASB has issued Annual Improvements to IFRSs in May 2010 that cover 7 main standards/interpretations as follow: IFRS 1 *First-time Adoption of International Financial Reporting Standards*; IFRS 3 *Business Combinations*; IFRS 7 *Financial Instruments: Disclosures*; IAS 1 *Presentation of Financial Statements*; IAS 27 *Consolidated and Separate Financial Statements*; IAS 34 *Interim Financial Reporting* and IFRIC 13 *Customer Loyalty Programmes*. With the exception of amendments to IFRS 3 and IAS 27 which are effective on or after 1 July 2010, all other amendments are effective on or after 1 January 2011. Early adoption of these amendments are allowed. The Group has not yet had an opportunity to consider the potential impact of the adoption of these amendments to the standards.

2.6 Critical judgments in applying the entity's accounting policies

For the period ended 30 September 2010, the Group continued using judgements applied during the year ended 31 December 2009.

2.7 Key sources of estimation uncertainty

For the period ended 30 September 2010, the Group continued using estimations applied during the year ended 31 December 2009.

2.8 Basis of consolidation

The Group purchased 100% shares of Soli Gemi İnşa Sanayi ve Ticaret A.Ş and paid USD 16.000, and further committed to pay USD 4.000. In addition to this, the Group purchased 100% shares of IBH Engineering GMBH and paid EUR 5.000 and further committed to pay EUR 5.000. The Group consolidated these two entities for the first time in accordance with IFRS.

3. CHANGES IN OPERATIONAL SEASON

The Group's operations related to construction slow down during the winter season and differ significantly from other operational areas.

4. EARNINGS PER SHARE

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("Bonus Shares") to existing shareholders without consideration for amounts resolved to be transferred to share capital from retained earnings and revaluation surplus. For the purpose of the EPS calculation such bonus share issues are regarded as stock dividends. Dividend payments, which are immediately reinvested in the shares of the Group, are regarded similarly. Accordingly the weighted average number of shares used in EPS calculation is derived by giving retroactive effect to the issue of such shares without consideration through 30 September 2010 and 30 September 2009.

There have been no other transactions involving ordinary shares or potential ordinary shares since the reporting date and before the completion of these financial statements.

Earning per share		
- ordinary share certificate (full cent)	0.18	0.17
- founder shares (*)	-	-

- ordinary share certificate	220,000,000,000	220,000,000,000
- founder shares	2,000	2,000

(*) Since profit distribution was not determined at the end of each interim period, total of the earning per share is reflected on ordinary share certificates.

17. TAXATION ON INCOME

Tax legislation in Turkey

Enka İnşaat and its consolidated subsidiaries are subject to taxation in accordance with the tax procedures and the legislation effective in the countries in which they operate.

In Turkey, the corporation tax rate is 20% (31 December 2009 - 20%). Corporate tax returns are required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid in one installment by the end of the fourth month. The tax legislation provides for a temporary tax of 20% to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year.

In Turkey, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate entity basis.

Dividend income obtained from full fledged tax payer subsidiaries are exempt from corporate tax (except dividend obtained from investment fund shares and equities). 75% of the gains derived from the sale of preferential rights, usufruct shares and founding shares from investment equity and real property which have remained in assets for more than two full years are exempt from corporate tax. To be entitled to the exemption, the relevant gain is required to be held in a fund account in the liabilities and it must not be withdrawn from the entity for a period of five years. The cost of the sale has to be collected up until the end of the second calendar year the sale was realized. Brokerage houses and real estate companies who are dealing with the trading and the leasing of real estate can not benefit from this exemption.

15% (31 December 2009 – 15%) withholding applies to dividends distributed by resident corporations to resident real persons, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations (excluding those that acquire dividend through a permanent establishment or permanent representative in Turkey) and non-resident corporations exempted from income and corporation tax. Dividend distributions by resident corporations to resident corporations are not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

As of 30 September 2010 and 30 September 2009 components of tax expense are as follows:

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise bank loans, investment securities, finance leases, cash and short-term deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, foreign currency risk and credit risk. The board / management reviews and agrees policies for managing each of these risks. The Group monitors the market price risk arising from all financial instruments periodically.

Foreign currency risk

The Group is exposed to foreign exchange risk arising from various currency exposures primarily with respect to Euro, Russian Ruble and also U.S. Dollar which arises from the liabilities belonging to the companies in the consolidation scope, whose the functional currency is not U.S. Dollar.

The Group is engaged in construction, trading, energy and real estate operations business in several countries and, as a result, is exposed to movements in foreign currency exchange rates. In addition to transactional exposures, the Group is also exposed to foreign exchange movements on its net investments in foreign subsidiaries. The Group manages foreign currency risk by using natural hedges that arise from offsetting foreign currency denominated assets and liabilities.

The foreign currency risk of the Group arises from the credits used in U.S. Dollars and Euro. In order to mitigate the risk, the Group continuously monitors its cash inflows/outflows and also uses financial instruments to hedge the risk when it is necessary.

The following table details the Group's foreign currency position as at 30 September 2010 and 31 December 2009:
